COLE'S

Annual Plant and Flower Guide

PAINESVILLE GROWN

— YOUR ASSURANCE
OF SUCCESS

A WELL PLANNED REAR GARDEN

Attractively "edged" with the New
Truehedge Columnberry which was
planted just one year ago.

TO OUR FRIENDS

The Cole Nursery Company takes pride in offering you a complete line of plant material. Our efforts have been to produce quality plants, with heavy fibrous root systems, which are sure to grow. The tops are broad and bushy and should not be confused with light, quickly grown mail order size plants.

Quality Stock

Good plants cannot be produced quickly and we only send out stock that passes the rigorous inspection of our superintendent.

A Cordial Welcome

We invite you to visit our nursery, which is conveniently located on Route No. 20 on the west side of the city of Painesville, Ohio.

Your Garden Problems

If there is any garden problem with which we can assist you, do not hesitate to write or phone us. Advice or estimates will be gladly given.

Buy Direct From Grower

We urge you to buy direct from the nursery; stock freshly dug, neatly and correctly packed will be delivered to your door by express or mail in perfect condition for planting.

COLE'S GUARANTEE THEIR PLANTS

We guarantee our plants to arrive in good order. Should they be otherwise, or should shortage occur, notify us immediately.

No claim will be considered unless made within 5 days after receipt of goods.

We guarantee our plants to be free of disease and true-to-name and will replace without charge if found otherwise.

Terms - Net Cash

Packing. Stock will be packed **free** in the best modern methods, so as to carry to its destination in fresh condition.

Ohio Sales Tax. Ohio customers are to include the usual Sales Tax when making remittance, except that sales are **EXEMPT** when the stock is to be used directly in the production of tangible personal property for sale in farming, horticulture, or floriculture, such as fruits, flowers, etc., for sale.

Shipping. Cole prepays all carrying charges to Greater Cleveland and to Akron. Elsewhere, orders will be sent collect, except for Roses, Perennials Bulbs, and Vines which plants will be prepaid to the Fourth Parcel Post Zone, which includes practically everything from the East Coast to the Mississippi River north of the Mason-Dixon Line. Most of our Shrubs and other plants are specimens and too large for Parcel Post shipment.

Most folks have an inherent urge for the beautiful. Your home, after all, is "Heaven on Earth" for you. Why not make it as beautiful on the outside as it is on the inside. The cost is small, the work pleasant, the results gratifying.

Ornamental Deciduous Shrubs

THE charm of flowering shrubs, ornamental shade trees, hedges and rose bushes, tastefully arranged to create an effective foundation planting or a veritable living room outdoors is irresistible and the prospect of planning a place outdoors that is attractive, liveable and comfortable, where the whole family can find countless hours of enjoyment, is filled with expectant adventure.

To enable you to make your home the envy of your neighborhood, to make every passerby stop and look at it in admiration, we suggest you go over this entire book and select the plant material you can use. Many home owners take pleasure in replacing overgrown, haphazard planting with fresh, youthful plant life. It makes a world of difference in appearance and costs so little.

ACANTHOPANAX - Five-Leaved Aralia

Pentaphyllum. 7 ft. A graceful shrub, with arching, thorny branches and bright green, shiny foliage, excellent on rocky banks or slopes. Enjoys a hot, dry place. 1½ to 2 ft., 50c; 2 to 3 ft., 60c.

AMELANCHIER - Shadblow; Juneberry

Canadensis. 8 ft. Profuse white flowers appear early in the spring followed by large red berries in June. The fruit is very ornamental. Does well in any soil, shade or sun. 1½ to 2 ft., 65c; 2 to 3 ft., 90c.

AMORPHA - Indigo Bush

Fruticosa. 8 ft. An interesting ornamental shrub of spreading habit, fine leathery foliage; remarkable for the unusual color of its dark violet-purplish flowers. Excellent for the hardy border; does well in any soil but prefers a moist situation. 2 to 3 ft., 40c; 3 to 4 ft., 50c.

ARONIA - Chokeberry

Ornamental shrubs grown for their attractive white flowers and for their handsome fruits. The foliage is especially attractive in the autumn, the leaves turning a bright red. This shrub is well adapted for borders and perfectly hardy in the North. Bird lovers should plant these shrubs generously, as the fruit furnishes birds with food during the winter months.

Atropurpurea (Purple Chokeberry). 6 ft. Similar in appearance to other Aronias but grows more upright and has purple berries during the fall of the year. 1½ to 2 ft., 60c; 2 to 3 ft., 80c.

Brilliantissima (Brilliant Chokeberry). 6 ft. The best of all Aronias. In the spring the fragrant white flowers are borne in profusion, making an excellent display. In the fall the plant is covered with bright foliage and the most brilliant red berries any plant has ever produced. The fruit is especially attractive to birds. An improved variety of Arbutifolia. 1½ to 2 ft., 60c; 2 to 3 ft., 80c.

Melanocarpa (Black Chokeberry). 6 ft. A fine bushy plant with fruit of shining black which comes earlier than the other varieties. 1½ to 2 ft., 60c; 2 to 3 ft., 80c.

AZALEAS, Hardy Varieties

These plants, combining as they do the advantages of both evergreens and flowering shrubs, have deservedly won their way to the forefront of popularity. Once established they remain for years, often for generations, becoming more beautiful, increasing in value, and assuming a more distinct character, with each passing season. They should be planted in full sun in a soil that has been mixed freely with peat or leaf mold. The faded flowers should be removed at once. Water frequently in dry season. All are perfectly hardy, except Amaena, Hinodegiri and Kaempferi, which need some winter protection. **All Azaleas furnished balled and burlapped.**

Amaena (Japanese Evergreen). 3 ft. A dwarf shrub with double lavender-purple flowers in May. Especially adapted for the front of borders and rock gardens. 10 to 12 in., \$1.50; 12 to 15 in., \$1.90.

Calendulacea (American). 5 ft. One of the most beautiful of our native Azaleas. It is hardly surpassed in the brilliancy and abundance of flowers by any of the Ghent Hybrids. Flowers flame-red to orange, often 2 inches across. Foliage remains in excellent condition until late in fall. 15 to 18 in., \$1.90; 1½ to 2 ft., \$2.50; 2 to 3 ft., \$3.50.

Canescens roseum. 5 ft. Clear soft pink flowers. Its spicy odor makes it desirable. 15 to 18 in., \$1.90; 1½ to 2 ft., \$2.50; 2 to 3 ft., \$3.50.

Hinodegiri (Carmine). 2½ ft. A rather dwarf growing evergreen, misty with brilliant red flowers in early spring. Excellent for rock garden. 10 to 12 in., \$1.50; 12 to 15 in., \$1.90; 15 to 18 in., \$2.50.

Kaempferi (Torch Azalea). 3 ft. One of the most popular, hardiest, and satisfactory of all. A vigorous grower, never failing to produce abundant brick-red flowers in May; excellent as a point of emphasis in the shrubby border. 15 to 18 in., \$2.00; 1½ to 2 ft., \$2.75.

Mollis (Chinese). 3 ft. A perfectly hardy variety. This bushy, well branched shrub is completely covered with orange and flame colored flowers. It is at home practically any place but is outstanding when placed in a group of evergreens. 9 to 12 in., 95c; 12 to 15 in., \$1.50; 15 to 18 in., \$2.25; 1½ to 2 ft., \$3.00.

Nudiflora (Pinxter Bloom). 5 ft. Soft pink flowers appear before leaves in the early spring. They are slightly fragrant. Does well in shade. 15 to 18 in., \$1.90; 1½ to 2 ft., \$2.50; 2 to 3 ft., \$3.50.

Vaseyi (Southern Azalea). 4 ft. A tall, slim grower, bearing flesh-pink flowers in April. The foliage colors dark crimson in the fall. 15 to 18 in., \$1.90; 1½ to 2 ft., \$2.50; 2 to 3 ft., \$3.50.

Yodogawa. 3 ft. Large, semi-double, lavender-pink flowers appear early in the spring. One of the earliest Azaleas to bloom. 12 to 15 in., \$1.90; 15 to 18 in., \$2.75.

BENZON - Spicebush

Aestivale. 8 ft. An old favorite of grandmother's garden. Tall, upright in growth with clear, long, aromatic leaves. The shrub is attractive in early spring with its numerous small, yellow flowers, and handsome in autumn with its foliage turning clear yellow and studded with scarlet fruits. 2 to 3 ft., 70c; 3 to 4 ft., 95c.

BERBERIS - Barberry

Koreana (Korean Barberry). 6 ft. Handsome species with broad leaves coloring deep red in the autumn and with bright red fruit persisting throughout the winter. New and worth while. Each 10 100

9 to 12 in.	\$0.40	\$3.50	\$ 7.50
12 to 18 in.	.60	5.25	11.25
1½ to 2 ft.	.75	6.75	15.00
2 to 2½ ft.	1.00	9.00	20.00

Mentorensis (Evergreen Barberry). 5 ft. Plant Patent No. 99. The glossy dark green leaves turn brown in midwinter but remain on the plant until replaced by new leaves in the spring. Mr. M. H. Horvath, the famous plant breeder who originated both Berberis Mentorensis and Cole's New Truehedge Columberry, especially recommends the Evergreen Barberry for planting in the shrub border, for foundation planting and for use where other broad-leaved evergreens will not succeed, as it is adaptable to climate and soil. 3 10 100

12 to 15 in.	\$1.40	\$3.30	\$25.00
15 to 18 in.	1.50	3.75	30.00
1½ to 2 ft.	2.00	5.00	40.00
2 to 2½ ft.	2.60	6.00	50.00

Thunbergi (Japanese Barberry). 4 ft. The famous and well known Barberry that needs no description. 10 25 100

12 to 15 in.	\$1.70	\$3.50	\$12.00
15 to 18 in.	2.10	4.50	16.00
18 to 24 in.	2.50	5.65	20.00
24 to 30 in.	3.50	7.50	27.00

Thunbergi atropurpurea (Red-Leaved Barberry). 4 ft. A beautiful new form, having distinctive purplish red leaves; attractive the entire season. Each 10 25 100

12 to 15 in.	\$0.35	\$3.00	\$6.25	\$22.00
15 to 18 in.	.45	4.00	8.75	30.00
1½ to 2 ft.	.55	5.00	11.45	40.00
2 to 2½ ft.	.65	6.00	13.75	50.00

Thunbergi minor (Box Barberry). 2 ft. Dense, thorny, dwarf growing shrub, excellent as an edging plant for walks or beds. Very neat. 10 25 100

9 to 12 in.	\$2.50	\$5.50	\$20.00
12 to 15 in.	3.00	6.90	25.00
15 to 18 in.	4.00	8.75	32.50
1½ to 2 ft.	5.00	10.00	37.50

Truehedge Columberry—See Our Special Folder

for Beauty and Permanency plant with

**BUTTERFLY BUSH or
SUMMER LILAC**

Blooms July to frost. Ultimate height, 3 to 5 feet. Long spikes of Lilac-colored flowers with orange eye. Attracts butterflies. See page 6.

CYDONIA JAPONICA

One of our earliest blooming shrubs. Bright scarlet blossoms produced in whorls all along the stems in early spring. See page 6.

Forsythia Spectabilis

**FLOWERING
ALMOND**

Dazzling rose-like flowers completely hide the graceful branches. 4 feet high. See page 10.

Flowering Almond

Deutzia—Pride of Rochester

**FORSYTHIA SPECTABILIS
(Golden Bell)**

Mosses of large, golden yellow flowers that completely cover the branches before foliage appears. The first of the spring-flowering shrubs to blossom. Ultimate height, 6 to 7 feet. Makes lovely bouquets.

DEUTZIA - Pride of Rochester

One of our tallest and best Deutzias. Large double white flowers with the back of their petals tinged with crimson, borne in profusion in July. See page 6.

Quality are Apt to Travel Together.**

Cole's Colorful Flowering Shrubs

This All-Season Collection of Showy Shrubs

Colorful - Decorative
they bloom

from
spring
until
frost

JETBEAD

One of the better shrubs for the border. See page 11.

DOUBLE KERRIA

Its double, yellow, rose-like flowers are produced in profusion throughout the summer and again in the fall. Slender, green branches make a striking contrast against the snow during winter. Ultimate height, 4 to 6 feet. See page 7.

BEAUTY BUSH

This magnificent bush is a recent introduction from the Orient. A blaze of color during June and July with unusual foliage; it is truly named "Beauty Bush." Ultimate height, 6 to 8 feet. See page 7.

HYPERICUM

Rich, golden yellow blossoms produced on long, slender stems. Height, 2 to 3 feet. Foliage excellent. See page 7.

AZALEA MOLLIS

Bell-shaped orange and flame-colored flowers appearing before the leaves. One of our most successful and popular plants. See page 3.

DEUTZIA GRACILIS

In May is completely covered with large, gorgeous clusters of pure white flowers. The best and loveliest of the spring-blooming Deutzias. Ultimate height, 3 to 4 feet.

Every home
should have an out-
door living room.

BUDDLEIA - Butterflybush

Alternifolia (Azure Fairy). 6 ft. One of our own specialties that we are proud to offer. Long arching branches terminated by fragrant lilac-like spikes of blue and gold flowers. Excellent for cutting, and continues to bloom throughout the entire summer. Perfectly hardy.
1 1/2 to 2 ft., 35c; 2 to 3 ft., 50c.

Farquhari. 5 ft. Deep rosy lilac spikes on graceful stems. Makes a shapely bush and is the best standard sort. 1 yr., 30c; 2 yrs., 40c.

Three New Buddleias Worthy of Consideration

Buddleia Fortune. Plant Patent No. 206. 5 ft. A low, compact, neat growing plant with shoots developing at the base of the plant and terminating in flower panicles 12 to 18 inches long, each perfectly rounded and in bloom all at once from base to tip. Flowers are of a clear, true lavender-blue, and last in water from 3 to 5 days after cutting. Buddleia Fortune is an excellent plant for the flower border, remaining in bloom until stopped by freezing. Each, \$1.00; 10, \$8.00.

Buddleia Hartwegi. 4 ft. A beautiful plant with extra heavy, rich, dark green foliage. The large, bright lavender flower panicles have remarkable substance, with individual flowers closely set on the panicles, imparting a compact and pleasing appearance. The tip flowers open before the base flowers have faded, and do not "sunburn" as do some of the older Buddleias. 2 yrs., 75c.

Ile de France. 4 ft. A recent introduction. It is hardy with rich claret-purple spikes that are fragrant and last well when cut. This is a prolific bloomer and should be in every garden. 1 yr., 35c; 2 yrs., 50c.

NEW PINK BUDDLEIA

Charming. Probably the most outstanding new plant offered this season, this magnificent Buddleia was awarded a Silver Medal by the Pennsylvania Horticultural Society. It is a glorious shrub bearing throughout the late summer and autumn elegant long sprays covered with lovely lavender-pink blooms, which compared with other Buddleias introduced up to date, are distinctly pink. For September and October flowers we suggest pinching off the first flower spikes in July to aid in development of the side branches which will bring a greater abundance of flowers during the autumn months. Strong flowering plants, 75c each; 10 for \$6.25.

CALLICARPA - Chinese Beautyberry

Purpurea. 5 ft. A graceful shrub with pink flowers forming in the axil of the leaves followed by lavender-violet berries in the fall of the year.
1 1/2 to 2 ft., 40c; 2 to 3 ft., 50c.

CALYCANTHUS - Sweet Strawberry Shrub

Floridus. 5 ft. This handsome shrub is a genuine aristocrat, a well-rounded specimen deserving a place in any well-balanced landscape planting. The chocolate-colored flowers nestled among the large green leaves have a spicy strawberry fragrance. 1 1/2 to 2 ft., 40c; 2 to 3 ft., 50c.

CARAGANA - Siberian Pea-Tree

Arborescens. 10 ft. A shrub recommended for its clean, healthy foliage and bright yellow flowers in the spring. Extremely hardy. Interesting because of its pea-like seed pods. 2 to 3 ft., 40c; 3 to 4 ft., 50c.

CEPHALANTHUS - Buttonbush

Occidentalis. 6 ft. An excellent subject for wet locations. The glossy green leaves and ball-shaped seed pods appearing late in the summer make this plant very attractive. 1 1/2 to 2 ft., 50c; 2 to 3 ft., 60c.

CHIONANTHUS - White Fringetree

Virginica. 15 ft. One of the most striking subjects of the plant world, gifted with all-season beauty. The huge fringing white flowers completely cover the plants in the spring. The handsome dark green leaves give added beauty throughout the entire summer, followed by blue berries in the fall. Plant as specimens and give plenty of room for best effect.
1 1/2 to 2 ft., 50c; 2 to 3 ft., 65c;
3 to 4 ft., 95c; 4 to 5 ft., \$1.45.

CLETHRA - Summer Sweet

Alnifolia. 5 ft. White flowers of an intensely sweet, spicy fragrance, appearing late in the summer on long spikes. An excellent subject for a moist place and a wonderful plant to cut for bouquets.
12 to 18 in., 45c; 1 1/2 to 2 ft., 60c.

COLUTEA - Bladder-Senna

Arborescens. 8 ft. Just the thing for a dry and sunny situation. They are very fast growing and their attractive glaucous green foliage is brightened by yellowish flowers during the summer, followed by reddish colored seed pods. 2 to 3 ft., 50c; 3 to 4 ft., 60c.

COMPTONIA - Sweetfern

Asplenifolia. 3 ft. An unusual shrub with beautiful fern-like foliage which is aromatic. An excellent subject for cool, moist situations.
1 1/2 to 2 ft., 75c; 2 to 2 1/2 ft., \$1.00.

CORNUS - Dogwood

All of the dogwoods are excellent subjects for landscape planting. They do well in moist, shady locations, and are especially valuable for bright-colored foliage and branches and their attractive colored flowers and fruits. All grow vigorously wherever planted.

Alba elegantissima (Silver Blotch Dogwood). 5 ft. A striking plant with variegated cream and green foliage, dark red bark.
1 1/2 to 2 ft., 65c; 2 to 3 ft., 80c.

Flowering Shrubs — Continued

Alba sibirica (Coral Dogwood). 6 ft. A strong, upright growing variety with healthy green foliage, and bright coral-red branches. It bears an abundance of bright colored berries during the late summer.
1 1/2 to 2 ft., 40c; 2 to 3 ft., 50c.

Alba spaethi (Golden Dogwood). 5 ft. One of our finest shrubs. The green leaves are margined yellow, and are set off by the bright red bark.
1 1/2 to 2 ft., 65c; 2 to 3 ft., 80c.

Alternifolia (Pagoda Dogwood). 12 ft. Shrub or small tree with branches rising in pagoda-like whorls, leaves slender, with dark blue fruit during the summer.
3 to 4 ft., 95c; 4 to 5 ft., \$1.45.

Amomum (Silky Dogwood). 8 ft. Shiny dark red branches, upright, very broad and vigorous with an abundance of berries in the summer.
2 to 3 ft., 50c; 3 to 4 ft., 60c.

Kousa (Kousa Dogwood). 15 ft. Very similar to our native Dogwood, the white flowers appear a little later. 2 to 3 ft., 90c; 3 to 4 ft., \$1.25.

Paniculata (Gray Dogwood). 10 ft. A very free-flowering tall shrub, having clusters of white flowers in the spring, followed in autumn by white berries on gray stems.
1 1/2 to 2 ft., 65c; 2 to 3 ft., 75c;
3 to 4 ft., 95c; 4 to 5 ft., \$1.25.

Sanguinea (Bloodtwig Dogwood). 8 ft. The branches are deeper red than the others and are very attractive. The leaves are dark green making an exceptional nice shrub for the border.
2 to 3 ft., 45c; 3 to 4 ft., 60c.

Stolonifera (Red Osier Dogwood). 10 ft. The upright stems are green and red in color, the plant is strong growing and has an abundance of berries in the summer.
2 to 3 ft., 40c; 3 to 4 ft., 50c;
4 to 5 ft., 65c; 5 to 6 ft., 85c.

Stolonifera flaviramea (Golden Twig Dogwood). 5 ft. Bright golden branches. Plant these with other varieties for charming color effects. Excellent for the border.
1 1/2 to 2 ft., 45c; 2 to 3 ft., 60c.

CORYLUS

Americana (American Hazelnut). 12 ft. A vigorous upright growing shrub. The leaves are heart-shaped and dark green. Nuts are produced freely in the fall, which add to the beauty and interest. These are edible.
2 to 3 ft., 70c; 3 to 4 ft., 90c.

Avellana (European Filbert). 15 ft. A hardy shrub growing vigorously when planted in shady or moist places. This is the plant from which filberts or hazelnuts are obtained. 3 to 4 ft., 90c; 4 to 5 ft., \$1.25.

Avellana aurea (Golden Filbert). 15 ft. A stout growing shrub that will do well anywhere. The bright yellow foliage makes this plant exceptionally attractive. Large filbert nuts produced in early fall.
2 to 3 ft., \$2.50; 3 to 4 ft., \$3.75.

COTONEASTER

Excellent ornamental shrubs varying in form with decorative fruits. Thriving in any well-drained soil, but dislike moist or shady situations. Flowers are usually small and of shades of pink. The berried fruits coming during the summer attract many birds.

Acutifolia (Peking Cotoneaster). 6 ft. Upright, strong growing, dark green foliage with large black fruit. Excellent for hedges.
2 to 3 ft., 65c; 3 to 4 ft., 80c.

Divaricata (Spreading Cotoneaster). 6 ft. Small, round, glossy, deep green leaves. Flowers pink with bright red berries in the fall. Excellent plant for foundation planting or in the border.
1 to 1 1/2 ft. B&B, \$1.15; 1 1/2 to 2 ft. B&B, \$1.50;
2 to 3 ft. B&B, \$1.95; 3 to 4 ft. B&B, \$2.40.

Horizontalis (Rock Cotoneaster). 2 1/2 ft. A low shrub with horizontal branches and small glossy green leaves. Its spreading growth with its horizontal branching habit make it an excellent shrub for the rock garden. In the fall it is covered with a multitude of brilliant red berries.
15 to 18 in. B&B, \$1.75; 1 1/2 to 2 ft. B&B, \$2.25.

CYDONIA

Japanica (Japanese Flowering Quince). 5 ft. One of our earliest shrubs to blossom. Bright pink to scarlet blossoms appear early in spring, followed by dark green healthy foliage all summer. In the fall, large yellow quinces are produced.
1 1/2 to 2 ft., 40c; 2 to 2 1/2 ft., 50c.

Maulei (Lesser Japan Quince). 4 ft. A superior and improved variety of more dwarf habit. The flowers are bright orange-apricot, a color usually found only in roses.
12 to 18 in., 50c; 1 1/2 to 2 ft., 60c.

Japanica pygmaea (Dwarf Japan Quince). 3 ft. A neat, compact growing plant with slender branches and very dense foliage. Flowers are orange-scarlet, followed by yellow fruit in the fall. An excellent dwarf variety.
12 to 18 in., 50c; 1 1/2 to 2 ft., 60c.

DAPHNE

Mezerium (February Daphne). 4 ft. The upright branches closely set with fragrant rose-pink flowers long before the leaves appear, sometimes as early as February. These flowers are followed by scarlet fruits.
12 to 15 in. B&B, \$1.45; 15 to 18 in. B&B, \$1.90.

DEUTZIA

Gracilis (Slender Deutzia). 3 ft. A beautiful dwarf shrub with slender, erect, branching habit, covered in the early spring with creamy white flowers. A valuable plant for the front of the shrub border, or foundation planting. Excellent for a low hedge.
12 to 18 in., 40c; 1 1/2 to 2 ft., 50c.

Gracilis rosea (Rose Panicked Deutzia). 4 ft. Similar to the above, except it has pink flowers.
12 to 18 in., 40c; 1 1/2 to 2 ft., 50c.

Lemoinei (Lemoine's Deutzia). 5 ft. Large single white flowers borne on stout upright branches. Fine for border and excellent used as a hedge. Symmetrical and formal growth.
1 1/2 to 2 ft., 45c; 2 to 3 ft., 60c.

Magnifica (Magnificent Deutzia). 7 ft. A recent introduction, considered by the people who have seen it to surpass all other Deutzias. Clusters of creamy white flowers are produced on long, upright branches. Hardy everywhere and easily grown. Just the plant for the back of the border or a large hedge.
2 to 3 ft., 40c; 3 to 4 ft., 50c.

Scabra (Pride of Rochester). 8 ft. A vigorous shrub with double white flowers, the back of each petal tinged with pink. It excels all other Deutzias except magnifica in size of flower, profusion of bloom and vigorous habits.
2 to 3 ft., 40c; 3 to 4 ft., 50c.

Cole's Shrubs

as well as other plants, can be supplied any size desired in large, full specimens where certain effects and more immediate results are wanted. Write if you do not see the exact item and size required.

DIERVILLA - Southern Bush Honeysuckle

Sessilifolia. 5 ft. A delightful shrub with spreading habit and arching branches. Golden yellow flowers appear during June and in the fall the green leaves turn to a delightful bronze.
2 to 3 ft., 50c; 3 to 4 ft., 60c.

ELAEAGNUS - Russian Olive

Angustifolia. 15 ft. A large shrub or small tree covered with silvery gray leaves. Likes a well-drained situation and will do well in a hot and dry location. The shrub bears olive-like fruit that sometimes are covered with silvery scales.
1 1/2 to 2 ft., 40c; 2 to 3 ft., 50c.

Argentea (Silverberry). 12 ft. An erect shrub, bark spineless, the twigs reddish-brown. The leaves are long and oval and are silver colored on both sides. The fruit is silver colored.
3 to 4 ft., 65c; 4 to 5 ft., 85c.

Umbellata (Autumn Eloeagnus). 10 ft. A striking shrub, the branches and leaves having a silvery appearance.
2 to 3 ft., 65c; 3 to 4 ft., 80c;
4 to 5 ft., \$1.00; 5 to 6 ft., \$1.25.

EUONYMUS - Winged Burningbush

Alatus. 7 ft. Bushy, compact, upright plant with curious corky bark that spreads out in flat wings. No doubt this is one of the most conspicuous varieties in the autumn, with its brilliant scarlet foliage and fruits. It does well in partial shade.
1 1/2 to 2 ft., 50c; 2 to 3 ft., 65c;
3 to 4 ft., 85c; 4 to 5 ft., \$1.10.

Alatus compacta (Dwarf Winged Euonymus). 4 ft. A choice compact shrub similar to the above variety, but slower growing and much more dwarf. The Arnold Arboretum of Boston considers this the outstanding shrub for fall color. Indifferent to soil, shade and city conditions. Makes the most unusual and attractive hedge.
1 1/2 to 2 ft., 65c; 2 to 2 1/2 ft., 80c.

EXOCHORDA - Pearl Bush

Grandiflora. 8 ft. A very showy, neat, erect bush with large clusters of pure white flowers. Excellent to use as a specimen. Should be incorporated in every shrub border.
2 to 3 ft., 50c; 3 to 4 ft., 60c.

HAMAMELIS - Witch Hazel

Virginiana. 10 ft. A tall shrub native of northeastern U.S.A., producing its odd yellow blooms after leaves have dropped in the fall. Prefers a moist soil.
1 1/2 to 2 ft., 60c; 2 to 3 ft., 75c.

FONTANESIA

Fortunei. A tall slender branched shrub with clean willow-like foliage. Will grow in any soil and position. Makes an excellent screen, and is very useful near the back of the border. 3 to 4 ft., 60c; 4 to 5 ft., 75c.

FORSYTHIA - Golden Bell

Intermedia spectabilis. 7 ft. One of the first shrubs to bloom in the spring, bright yellow flowers appearing before the leaves. The plant grows into a tall, upright shrub which is excellent for the border. The branches may be cut in late winter brought indoors and forced into bloom.
2 to 3 ft., 40c; 3 to 4 ft., 50c;
4 to 5 ft., 60c; 5 to 6 ft., 80c.

Suspensa (Weeping Goldenbell). 5 ft. A weeping form of the above. Very graceful and popular variety. We can not speak too highly of its qualities.
2 to 3 ft., 40c; 3 to 4 ft., 50c.

HIBISCUS - Rose of Sharon or Althea

Syracus. 10 ft. Flowers resembling hollyhocks, 2 or 4 inches across, covering the tall symmetrical bushes. These blossoms appear during August at a time few shrubs are in bloom. Indifferent to soil conditions, but like a sunny location. They are of many different colors. A few of the better varieties we list below.

Ardens. Double; lavender-violet.

Banner. Pure double white splashed with carmine.

Double Rose. Profuse blooming, double rose color that does not fade.

Double White. Pure double white, crimson center.

Duc de Brobant. Double dark red.

Jeanne d'Arc. Double pure white.

Tatus albus. Mammoth single white flowers often called "Snowdrift". Very profuse blooming.

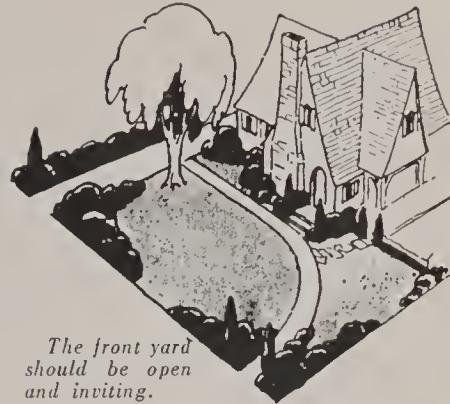

All varieties:

2 to 3 ft., 40c; 3 to 4 ft., 50c; 4 to 5 ft., 70c; 5 to 6 ft., 90c.

HYDRANGEA - Hills of Snow

Arborescens grandiflora. 4 ft. Large pure white clusters of flowers four or five inches in diameter produced in June and July. These shrubs will grow in the shade and prefer a moist soil. One of the finest foundation plants. Also good as a hedge or border plant.
1 1/2 to 2 ft., 50c; 2 to 3 ft., 65c.

Paniculata grandiflora (Pee Gee Hydrangea). 5 ft. Huge trusses of pink and white flowers a foot long appearing at the ends of strong branches, coming in the fall when other shrubs are without bloom. The flowers are excellent for cutting.
12 to 18 in., 40c; 1 1/2 to 2 ft., 50c; 2 to 3 ft., 65c;
4-ft. Tree shape (trimmed for planting) \$1.00.

HYPERICUM

St. John's Wort

Arnoldianum. 3 ft. A recent introduction and one of the best. It is a low shrub with upright spreading branches which support clear golden yellow flowers that are waxlike in appearance and very showy. Blooms in June and July.

The front yard should be open and inviting.

1 1/2 to 2 ft., 50c; 2 to 2 1/2 ft., 60c.
Densiflorum. 4 ft. A very hardy variety, with upright growth, bearing a profusion of bright yellow flowers in midsummer. Thrives well in light soils if given water. Blooms lost longer if shrub is in partial shade.
1 1/2 to 2 ft., 50c; 2 to 2 1/2 ft., 60c.

Kalmianum. A low growing shrub not over 3 feet high. Easily grown and succeeds well in light shade and will stand considerable dryness. Small yellow flowers appear in August. The plant is perfectly hardy and has very attractive silvery foliage.
1 1/2 to 2 ft., 60c; 2 to 2 1/2 ft., 75c.

ILEX - Winter Holly

Verticillata. 6 ft. An upright growing shrub belonging to the Holly family. Showy white flowers in June followed by bright red berries which are very attractive to the eye as well as to birds. Berries make fine lasting indoor winter bouquets. Grows well in moist ground and in shady places.
1 1/2 to 2 ft., 50c; 2 to 3 ft., 70c;
3 to 4 ft., 90c; 4 to 5 ft., \$1.15.

KERRIA, Double Flowering

Japanica fl. pl. 5 ft. Shrub with double chrysanthemum-like pure golden flowers appearing in June but may bloom intermittently all summer. Bright green stems and foliage add to the brilliancy of the flowers.
12 to 18 in., 40c; 1 1/2 to 2 ft., 60c.

KOLKOWITZIA - Beauty Bush

Amabilis. 6 ft. One of the newer shrubs that is enjoying increasing popularity. Produces long sprays of graceful foliage and flowers of delicate pink, similar but smaller than Weigela. Rapid grower and bloom profusely when well established.

15 to 18 in., 45c; 1 1/2 to 2 ft., 65c;
2 to 3 ft., 80c; 3 to 4 ft., \$1.00.

LABURNUM - Golden Chain

Vulgare. 10 ft. Aristocratic columnar shrub with dark green leaves, bright yellow flowers in drooping racemes during June. Fine for rocky slopes or in borders.
1 1/2 to 2 ft., 95c; 2 to 3 ft., \$1.25.

LESPEDEZA - Royal Purple Bush Clover

Farmosa. 4 ft. Sometimes called Desmodium. The long graceful branches droop with the weight of large clusters of royal purple sweet-pea-like flowers in the early fall. A showy shrub and very useful for cutting.
2-yr., 50c; 3-yr. clumps, 75c.

LIGUSTRUM - Privet

The Privets are used mainly for hedge-plants because they lend themselves readily to shearing and trimming. They can, however, because of their adaptability, be used for any planting purpose. When untrimmed they produce a profusion of white blossoms followed by attractive shiny black berries.

Amurensis (Amur River Privet). 10 ft. Tall, columnar hedge-plant with light green foliage. Very hardy.

June Is Lilac Time

For many years the Cole Nursery Company has been gathering an enviable collection of Lilacs, and today we offer the finest, hardiest French Lilacs that will give large, fragrant, colorful flower trusses.

Congo

Michel Buchner

Morie Legraye

Belle de Noncy

French Lilacs that are Fragrant

These superfine varieties of fragrant French Lilacs are nursery grown specimens, all with strong heavy roots.

Gloire de Lorraine

5 Lovely Lilacs

Belle de Noncy. Delightfully fragrant, double satiny pink flowers which are borne in massive clusters. A truly lovely variety.

Congo. Mahogany-red. The picture does not begin to do justice. The darkest of all, and we consider it the finest in its color class.

Morie Legraye. Massive clusters which literally cover the entire bush of deliciously fragrant white flowers. A great favorite for Decoration Day.

Michel Buchner. Gorgeous open clusters of large, double pale lilac flowers.

Gloire de Lorraine. Large symmetrical clusters of giant double blue flowers, with a tinge of amethyst shading. One of the best that we have ever grown.

Menzies Spirea

Your garden is not complete without this new introduction. The finest Spirea ever introduced. We have taken considerable pains to develop this flower which is far superior to other sorts. The color is an exquisite cameo-pink and the plant produces exceptionally long spikes which remain perfect under all weather conditions. This variety has such exceptional qualities that it will eventually replace all others of similar shades. A fine cut flower and a continuous bloomer. See page 11.

WE OFFER

5—1 of each . . \$3.25
(2-3' specimens)

5—1 of each . . \$2.45
(1½-2' specimens)

Hydrangea Arborescens

Flower clusters 4 to 5 inches in diameter produced in June and July. Particularly welcome as it blooms at a time when there is a scarcity of flowers.

Hydrangea Arborescens

Consult our Service Department for suggestions and estimates. We shall be glad to help you.

Colorful Flowering Shrubs

EACH A BEAUTY

Strong, Healthy
Ready to
Transplant

Vitex Negundo Incisa

Cut-Leaf Chaste Tree. An excellent cut flower for early fall. Use in border collection. Neat foliage.

Viburnum Carlesi

Delightfully fragrant clusters of pale pink flowers fading as the flower matures to a white. Grows 4 feet.

Viburnum Opulus (Cranberry Bush)

Brilliant clusters of fruit in the fall, combined with excellent foliage make this a most distinctive plant.

Most Shrubs and Evergreens can easily be kept to half their mature height by judicious trimming.

Planned Home Gardens

Planned Home Gardens always present the touch of distinction and refinement that can be achieved only through the knowledge of men who know. LET US PLAN YOUR PLANTING NOW.

Philadelphus, Virginal

The favorite of all shrub lovers. Its fragrance and appearance is long remembered after the profusion of flowers in June are gone.

Weigela Rosea

A showy and symmetrical bush. Its lovely pink flowers bloom profusely in June. A strong, rapid grower.

Cole's Flowering Shrubs

LONICERA - Honeysuckle

All the bush Honeysuckles are tall, broad, strong-growing, very hardy shrubs adaptable to nearly every growing condition of soil and climate. They are usually very twiggy and dense in growth, making good screen and excellent border shrubs. Flowers come in spring, followed by fruits which are especially attractive to birds.

Bella albida (White Belle Honeysuckle). 8 ft. A white-flowered form of the following; very beautiful. 2 to 3 ft., 40c; 3 to 4 ft., 50c.

Bella rosea (Pink Belle Honeysuckle). 8 ft. Covered in spring with an abundance of small pink flowers, followed in summer with bright red berries. Broad and dense in growth. 2 to 3 ft., 40c; 3 to 4 ft., 50c.

Fragrantissima (Fragrant Winter Honeysuckle). 8 ft. Fragrant creamy white flowers nestled in the deep green leaves adorn this "almost evergreen" shrub. The glossy, dark green leaves remain until almost spring. Excellent for border screen or individual specimens. 1 1/2 to 2 ft., 40c; 2 to 3 ft., 50c.

Korolkowi floribunda (Broad Blue Leaf Honeysuckle). 8 ft. A newcomer to the Honeysuckle family with the novel combination of blue leaves and lavender-pink flowers. A strong upright hardy shrub with beautiful, gracefully arching branches, making a broad specimen, or an excellent background or border plant. 1 1/2 to 2 ft., 50c; 2 to 3 ft., 60c; 3 to 4 ft., 75c; 4 to 5 ft., 95c.

Morrowi (Morrow Honeysuckle). 8 ft. A round, compact bush of very twiggy growth and branching habit. The fragrant cream-colored flowers are followed by a wealth of bright red fruit. 2 to 3 ft., 50c; 3 to 4 ft., 60c.

Tatarica grandiflora (Bride Honeysuckle). 10 ft. Single, pink flowers, literally covering a tall symmetrical bush of extreme hardness and vigor. 2 to 3 ft., 40c; 3 to 4 ft., 50c.

Tatarica sibirica (Red Tatarian Honeysuckle). 8 ft. Beautiful rosy red flowers on tall, symmetrical bush. 2 to 3 ft., 40c; 3 to 4 ft., 50c.

MYRICA - Northern Bayberry

Carolinensis. 4 ft. Dark glossy foliage which is aromatic. The flowers are inconspicuous but the fruits are gray-blue, very attractive, and hang in clusters. They remain on the branches all winter and are fine in winter bouquets. Does well in moist, shady situations. 12 to 15 in., 50c; 15 to 18 in., 70c.

PHILADELPHUS - Mock Orange

The Mock Orange has been a favored shrub from the sweet-scented Syringa of our grandmother's garden, down to the famous present day hybrids, which have been persistently developed until they approach perfection. All are vigorous, perfectly hardy and glorious in their fragrant bloom. Varying in type from dwarf shrubs with fine, graceful branches to tall, stately upright specimens, they can be put to any use about the garden. Plant them anywhere their ultimate size will permit.

Bouquet Blanc. 6 ft. The most profuse blooming with semi-double, pure white flowers. Dense, twiggy, branching habit. 1 1/2 to 2 ft., 40c; 2 to 3 ft., 50c.

Coronarius (Sweet Mock Orange). 9 ft. The old sweet-scented Syringa. Large, single, white flowers. 2 to 3 ft., 40c; 3 to 4 ft., 50c; 4 to 5 ft., 60c; 5 to 6 ft., 75c.

Coronarius aureus (Golden). 4 ft. Bright golden foliage. 15 to 18 in., 45c; 1 1/2 to 2 ft., 60c.

Lemoinei. 5 ft. Fine, graceful branching habit. Starry white flowers. 1 1/2 to 2 ft., 40c; 2 to 3 ft., 50c.

Lonicera—Honeysuckle

Norma. 7 ft. Mammoth, single white flowers, extra good foliage. 2 to 3 ft., 50c; 3 to 4 ft., 60c.

Virginal. 8 ft. The double flowering variety that has become so popular. Large, heavy white flowers, profuse in bloom and exquisitely fragrant. 1 1/2 to 2 ft., 40c; 2 to 3 ft., 50c; 3 to 4 ft., 65c; 4 to 5 ft., 90c.

PHYSOCARPUS - Common Ninebark

Opulifolia. 10 ft. A large upright growing shrub with healthy, rugged green foliage. Its attractive foliage makes it adapted for screen purposes. Grows anywhere, even enduring partial shade. 2 to 3 ft., 40c; 3 to 4 ft., 50c.

Opulifolia aurea (Golden Ninebark). 10 ft. Similar to the preceding variety, but when leaves first appear, they are bright yellow, later changing to green overlaid with gold. 2 to 3 ft., 40c; 3 to 4 ft., 50c.

POTENTILLA - Cinquefoil

Fruticosa. 3 ft. A low plant with fringe-like foliage, bearing single yellow flowers during July and August. Excellent for foundation planting or near the front of the border. 12 to 18 in., 40c; 1 1/2 to 2 ft., 50c.

PRUNUS - Double Pink Almond

Glandulosa. 4 ft. Truly a burst of glory in spring with brilliant double pink rose-like flowers completely hiding the fine graceful branches. Widely used for foundation and border planting. 15 to 18 in., 45c; 1 1/2 to 2 ft., 60c; 2 to 3 ft., 75c; 4 to 5 ft. Tree-like, \$1.50.

Glandulosa sinensis (Double White Almond). 4 ft. A double white form of the above. 1 1/2 to 3 ft., 60c; 2 to 3 ft., 75c.

Tomentosa (Nanking Cherry). 8 ft. Compact, tree-like bush with upright branches. In the spring it is covered with tiny pink buds which turn white after they open. Miniature red cherries, appearing late in summer, are soon removed by the birds. This is a beautiful specimen or border shrub. 3 to 4 ft., \$1.00; 4 to 5 ft., \$1.40.

PYRACANTHA - Scarlet Firethorn

Coccinea Lalandi. 5 ft. A very dense, compact, thorny, almost evergreen shrub. The bright scarlet berries contrasting with a glossy, dark green foliage present an attractive Holly-like appearance. Excellent as a specimen, accent or foundation plant, and makes a beautiful and impenetrable hedge. Furnished balled and burlapped. 12 to 18 in. B&B, \$1.50; 1 1/2 to 2 ft. B&B, \$1.90; 2 to 2 1/2 ft. B&B, \$2.40; 2 1/2 to 3 ft. B&B, \$3.25.

Flowering Almond

The Beautiful Almond Shrub With a Touch of the Japanese Cherries.

Use several plants to brighten up your planting. They bloom very early in spring.

Flowering Almond—A dainty pink color

Smoke Tree—Looks like a smoke screen

Sorbaria Sorbifolia or False Spirea

A new shrub from China

The Cornerstone of Home Landscaping

Super Quality Heavy Rooted Specimens

RHAMNUS - Buckthorn

Cathartica. 12 ft. A tall growing rather spreading shrub, dense and somewhat thorny. Leaves small and round. The bush is covered with small black berries in the fall. Just the thing for a tall, thick hedge.

		1 1/2 ft., 40c; 2 to 3 ft., 45c		
		10	25	100
For	1 1/2 to 2 ft.	\$3.00	\$6.25	\$22.50
Hedge	2 to 3 ft.	3.75	8.50	30.00
	3 to 4 ft.	5.00	11.25	40.00

Frangula (Glossy Buckthorn). 10 ft. A tall slender thornless variety with medium sized, beautiful green leaves. In the late summer and fall the plant is covered with black berries. Will grow in the shade and makes an excellent tall hedge.

		1 1/2 to 2 ft., 40c; 2 to 3 ft., 50c; 3 to 4 ft., 60c; 4 to 5 ft., 70c		
		10	25	100
For	1 1/2 to 2 ft.	\$3.50	\$7.50	\$27.50
Hedge	2 to 3 ft.	4.50	10.00	37.50
	3 to 4 ft.	5.00	11.25	42.50
	4 to 5 ft.	6.00	13.75	50.00

RHODOTYPOS - Jetbead

Kerrioides. 6 ft. Of medium height with single white flowers over beautiful green foliage. The shining black berries from which the plant takes its name remain all winter and often into the next summer. Does well in semi-shade.

1 1/2 to 2 ft., 40c; 2 to 3 ft., 50c

RHUS - Sumac

Canadensis (Fragrant Sumac). 4 ft. A beautiful globular bush thriving under any soil condition. Conspicuous yellow flowers in early spring. The thick, fragrant foliage turns dark crimson in autumn. Excellent for hot dry places.

15 to 18 in., 50c; 1 1/2 to 2 ft., 65c

Cotinus (Smoketree). 12 ft. A novel and distinctive large shrub. Can be used as a specimen or in the border. The flower panicles are a grayish lavender, so large and fluffy that at a little distance the bush resembles smoke. 12 to 18 in., 50c; 18 to 24 in., 75c; 2 to 3 ft., 95c

Glabra (Smooth Sumac). 10 ft. Similar to our native Sumac except new branches are smooth and brown, appearing polished.

2 to 3 ft., 40c; 3 to 4 ft., 50c

Typhina (Staghorn Sumac). 12 ft. A somewhat larger and more rugged bush than above, leaves are not as fine. Flowers greenish white in large clusters turning to crimson seeds in fall. Our beautiful native Sumac; does well under any conditions. 2 to 3 ft., 40c; 3 to 4 ft., 50c

Typhina laciniata (Shredded Sumac). 8 ft. This is one of the prettiest shrubs that we grow. The foliage is as finely cut as that of the most delicate fern. The flowers and seeds are brilliant red and appear as small cones. Its brilliant autumn color makes it most desirable. Many who have seen it growing in our nursery acclaim it as the finest shrub they have ever seen.

2 to 3 ft., 50c; 3 to 4 ft., 60c

ROBINIA - Rose-Acacia

Hispida. 6 ft. A shrub bearing large clusters of bright pink, sweet-pea-like flowers endearing with their loveliness and fragrance. The fuzzy brown branches and small, oval, locust-like foliage provide year-round enjoyment. Also supplied in beautiful top-grafted tree form

1 1/2 to 2 ft., 45c; 2 to 3 ft., 60c

4-5 ft., tree-like (trimmed for planting), \$1.35

SAMBUCUS - American Elder

Canadensis. 9 ft. Large flat panicles of cream-colored flowers which turn in the late summer to purple fruit, often used in pies. Thrive in shade and moist ground.

2 to 3 ft., 40c; 3 to 4 ft., 50c

Canadensis acutiloba (Cut-Leaf American Elder). 8 ft. Very similar to the above, having finely cut foliage. Valuable for its ability to succeed in moist ground.

2 to 3 ft., 40c; 3 to 4 ft., 50c

Nigra aurea (Golden Elder). 8 ft. Tall, rather coarse growing shrub with attractive golden yellow foliage, and cream-colored flowers. In a shrub border its striking color produces a delightful contrast. Plant in good rich soil.

1 1/2 to 2 ft., 40c; 2 to 3 ft., 50c

Sambucus racemosa (Red Elder). 8 ft. Large panicles of white flowers changing in the fall to bright scarlet fruit, contrasting beautifully with the heavy green foliage. One of the most striking and ornamental Elders.

1 1/2 to 2 ft., 50c; 2 to 3 ft., 65c

SORBARIA - False Spirea

Arborea. 6 ft. One of the handsomest shrubs we grow. Introduced from China a few years ago. It is upright, stately growing with long narrow leaves similar to those on a Mountain Ash. The flowers are pure white, hanging in huge clusters during July and August. Now is the time to plant this unusual shrub.

1 1/2 to 2 ft., 60c; 2 to 3 ft., 75c

Sorbifolia (Ural False-Spirea). 5 ft. A true aristocrat of the garden. Large spikes of cone-shaped tan flowers are supported by upright branches. One of the finest shrubs for cutting. Can be used for border or foundation planting.

1 1/2 to 2 ft., 45c; 2 to 3 ft., 60c

THE SPIREAS - Spiraea

The Spireas are all splendid landscape subjects, very easy to grow and not particular as to soil conditions, but they do not react well to "wet feet" during winter. All are noted for their wealth of superb bloom.

Anthony Waterer (Crimson Everblooming Spirea). 2 1/2 ft. A beautiful sight, with large, flat crimson flowers against dense, dark green foliage. Blooms continuously during summer and makes a fine shrub for foundation, low hedge or border.

15 to 18 in., 35c; 1 1/2 to 2 ft., 45c

Arguta (Garland Spirea). 6 ft. Like the white spray Spirea except that it grows larger and taller, and has somewhat larger leaves. Fine for large hedge, border, screen, or specimens. 2 to 3 ft., 40c; 3 to 4 ft., 50c

Billiardi (Billiard Spirea). 5 ft. Tall branching shrub with nodding, fuzzy pink flowers.

2 to 3 ft., 40c; 3 to 4 ft., 50c

Froebeli (Froebel Spirea). 3 ft. Large, flat panicles of pink flowers. Good foliage and compact growth. For the front of the border, foundation, or cutting garden.

1 1/2 to 2 ft., 40c; 2 to 3 ft., 50c

Japonica ovalifolia (White Japanese Spirea). 3 ft. Like "Anthony Waterer" except flowers are white, very beautiful against the background of dark green foliage.

1 1/2 to 2 ft., 40c; 2 to 2 1/2 ft., 50c

Menziesi macrothyrsa. 5 ft. The finest pink Spirea ever introduced. The enormous spikes of cameo-pink flowers, 8 to 10 inches long, produced on strong willowy stems. From the base a secondary spike or lateral appears, continuing the display of blooms long after the main flower head has disappeared. The clearness of color is remarkable, and the brilliancy of the flower is very pronounced. The blooms last over 2 weeks when cut and brought inside. An excellent cut flower and a shrub that should be in every foundation or border planting.

1 1/2 to 2 ft., 40c; 2 to 3 ft., 50c;

3 to 4 ft., 65c; 4 to 5 ft., 85c

Nipponica rotundifolia (Big Nippon Spirea). 7 ft. A recent introduction from Japan with large, round, white flowers and glorious, heavy, deep green foliage. Big Nippon grows globular in shape, with stiff, twiggy branches. A vigorous and hardy border or specimen shrub. We think one of the finest in our collection.

1 1/2 to 2 ft., 50c; 2 to 3 ft., 65c

Prunifolia plena (Double Bridal Wreath). 6 ft. Small, double pearly white flowers and round, glossy green leaves. The true "Bridal Wreath."

1 1/2 to 2 ft., 50c; 2 to 3 ft., 60c

Thunbergi (White Spray Spirea). 5 ft. Delicate sprays of rare spring loveliness are formed by pure white, jewel-like flowers appearing before the leaves the whole length of the fine, gracefully arching branches. Thousands of small, elongated, light green leaves form a graceful mass of foliage for distinctive summer beauty. Plant anywhere you want a distinctive, graceful shrub.

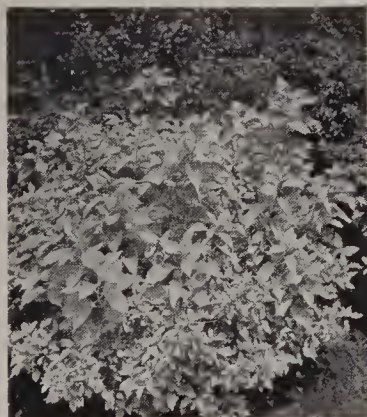

1 1/2 to 2 ft., 40c; 2 to 3 ft., 50c

Trichocarpa (Korean Bridal Wreath). 7 ft. Recently discovered in Korea, where a plant must be hardy to succeed. The broad panicles of white flowers are carried on the ends of long, arching branches, excellent for cutting. Plant it anywhere you want an extremely hardy, vigorous, and free-flowering shrub.

2 to 3 ft., 40c; 3 to 4 ft., 50c

Van Houttei (Bridal Wreath). 8 ft. A mass of pure white bloom in spring. Bridal Wreath still holds top rank because of its beauty and ability to withstand adverse growing conditions. Excellent for large hedge, screen or border planting.

STEPHANANDRA

Flexuosa (Cut-Leaf Stephanandra). 5 ft. Slender branching habit, with finely divided leaves give this shrub a neat lacy appearance. Excellent for border or foundation planting. 2 to 3 ft., 45c; 3 to 4 ft., 60c

SYMPHORICARPOS - Snowberry

Racemosus. 4 ft. Pink flowers in the spring, bright foliage all summer, followed in the fall by large waxy white berries. Very ornamental shrub for foundation planting. 2 to 3 ft., 35c; 3 to 4 ft., 50c

Vulgaris (Coralberry). 4 ft. A valuable variety for planting on banks, as it has a heavy root system. In the fall of the year it is covered with numerous coral-red berries. It does well in shade and will thrive in any location. 2 to 3 ft., 35c; 3 to 4 ft., 50c

Vulgaris Chenaultii (Improved Coralberry). 5 ft. A much improved variety of Coralberry. Its leaves are beautiful light green which remains on the plant until late in the fall. The berries are a deep rose-pink. It does exceedingly well on banks or other difficult adverse conditions. Can be used as a low hedge or a foundation planting. 2 to 3 ft., 40c; 3 to 4 ft., 60c

THE LILACS - Syringa

Chinensis (Chinese Lilac). 9 ft. A luxuriant suffusion of great, airy, reddish flowers marks this as the most free-flowering variety of Lilac. It is graceful in habit, growing to a well-rounded bush for the specimen or border. It also is good for hedging, making a neat, unclipped hedge about 6 to 8 feet high. 1 1/2 to 2 ft., 50c; 2 to 3 ft., 65c; 3 to 4 ft., 80c; 4 to 5 ft., \$1.00

Dilatata (Korean Lilac). 10 ft. A new lilac which is becoming popular for its pure deep green foliage and ability to grow and thrive under adverse conditions. Nodding pink flowers. 1 1/2 to 2 ft., 95c; 2 to 3 ft., \$1.25

Japonica (Japanese Tree Lilac). 12 ft. Tall growing, with large, round leaves, and cream-colored flowers. 1 1/2 to 2 ft., 50c; 2 to 3 ft., 65c

Josikaea (Hungarian Lilac). 10 ft. An elegant species, eventually growing into a good sized tree. The growth is erect with dark shining leaves and beautiful showy purple flowers. Blooms appear late in June. 2 to 3 ft., 60c; 3 to 4 ft., 75c

Palabianiana (Broad-Leaf Korean Lilac). 10 ft. A new plant aristocrat from Korea with exquisite large clusters of soft pink flowers, abundantly produced; leaves larger and darker green than our common Lilac. A very thrifty, hardy, and floriferous shrub worthy of planting in any garden. 3 to 4 ft., 95c; 4 to 5 ft., \$1.25

Persica (Persian Lilac). 9 ft. A broad, round bush of slender-branching habit, bearing broad panicles of pale Lilac flowers. Excellent for border, specimen, or hedge. 1 1/2 to 2 ft., 50c; 2 to 3 ft., 65c

Vulgaris (Common Purple Lilac). 9 feet. The old-fashioned purple Lilac that is so well known and loved. The flowers are delightful in the spring, while throughout the summer the foliage fills the eye with a cool, restful green. The Common Lilac is a hardy and long-lived shrub, excellent for cutting. 2 to 3 ft., 40c; 3 to 4 ft., 50c; 4 to 5 ft., 65c; 5 to 6 ft., 95c

Vulgaris alba (Common White Lilac). 8 ft. The same as above except that the flowers are pure white and the foliage a lighter green. 2 to 3 ft., 60c; 3 to 4 ft., 75c

SYRINGA - Lilac

French Hybrid Lilacs. 6 ft. See color page 8. The following list contains we think many of the best of our mammoth collection.

Belle de Nancy. Satiny pink. **Ludwig Spaeth**. Single red.

Congo. Single mahogany-red. **Marie LeGraye**. Single white.

Gloire de Lorraine. Double, heavenly blue. **Mme. Abel Chatenay**. Double pure white.

Hugo Koster. Single purplish lilac. **Pres. Grevy**. Blue double.

1 to 1 1/2 ft., 50c; 1 1/2 to 2 ft., 65c;

2 to 3 ft., 80c; 3 to 4 ft., \$1.15

Hyacinthiflora Lamartine (Hyacinth-Flowered Lilac). 6 ft. A new hybrid. A very fast grower with vigorous shapely branches. The foliage is excellent. Clusters of huge semi-double pink flowers are very fragrant. One of the earliest to blossom and one of the best. 1 1/2 to 2 ft., \$1.25; 2 to 3 ft., \$1.75

TAMARIX

Myriads of tiny, almost invisible flowers, the moss making a radiant warm pink glow. Feathery foliage not unlike the cypress sway gently in the breeze, making a decidedly gay and delightful touch to the landscape. All varieties will tolerate moist soil.

Amurensis. 8 ft. Deep pink flowers produced in June, bluish green foliage, brown bark. Excellent. 1 1/2 to 2 ft., 40c; 2 to 3 ft., 50c

Pentandra (Five-Stamen Tamarix). 6 ft. Pink flowers during August and September. Pale green foliage and purple bark. 1 1/2 to 2 ft., 40c; 2 to 3 ft., 50c

Tetranda (Improved African Four-Stamen Tamarix). 8 ft. Blush pink flowers, deep green foliage, bark almost black. 1 1/2 to 2 ft., 40c; 2 to 3 ft., 50c

THE VIBURNUMS

All Viburnums will grow in wet locations, but moist soil is not necessary for their success. Their wide range in type of growth, flowers and fruiting habits, together with their complete adaptability to any situation, places them first in the minds of those who enjoy the best in plant material. Use them anywhere their ultimate size will permit.

Americanum (American Cranberry Bush). 8 ft. Heavy, deep green foliage and large panicles of white flowers turning to bright red berries. Does satisfactorily in partial shade. 1 1/2 to 2 ft., 50c; 2 to 3 ft., 65c

Carlesi (Fragrant Viburnum). 3 ft. Light cream and pink sweetly scented flowers that actually thrill with their fragrance. Foliage is a pleasing gray-green. The bush grows compact and round in form and blooms in May. We advise "Balled and Burlapped Specimens" at double price. 15 to 18 in., B. & B., \$1.00; 1 1/2 to 2 ft., B. & B., \$1.50

Cassinoides (Withe-rod). 6 ft. A most beautiful variety of upright-branching habit, with shining green leaves and entrancing fruits changing through coral-pink to dark blue. 1 1/2 to 2 ft., 65c; 2 to 3 ft., 80c

Dentatum (Arrow-Wood). 8 ft. A very thrifty and hardy variety having coarsely serrated light green foliage and bluish black berries. Thrives in shade. 1 1/2 to 2 ft., 50c; 2 to 3 ft., 60c

Dilifatum (Linden Viburnum). 8 ft. A handsome native shrub thriving best in moist soil. Pure white flowers are produced in flat heads at the tips of the branches. Followed by glaucous black fruit in the early fall. Foliage is most handsome. 1 1/2 to 2 ft., 65c; 2 to 3 ft., 90c

Lantana (Wayfaring Tree). 8 ft. A tall, upright white-flowering variety with attractive woolly gray-green foliage. The fruit comes out red, later turning to black. 2 to 3 ft., 60c; 3 to 4 ft., 70c

Lentago (Nannyberry). 15 ft. Tall, upright, and strong growing with long, smooth, shining green leaves. Flowers are white, later turning to black fruit. Withstands shade. 1 1/2 to 2 ft., 60c; 2 to 3 ft., 75c

Opulus (European Cranberry Bush). 9 ft. The large clusters of bright red berries form a pleasing contrast with large, heavy, deep green leaves. The flowers are white and the foliage very dense. Will grow in partial shade. 1 1/2 to 2 ft., 50c; 2 to 3 ft., 65c; 3 to 4 ft., 80c; 4 to 5 ft., \$1.00

Opulus sterile (Snowball). 8 ft. The large, creamy colored "Snowballs" make this a showy shrub the latter part of May. Will grow in partial shade but blooms best in full sun. 1 1/2 to 2 ft., 50c; 2 to 3 ft., 65c; 3 to 4 ft., 80c; 4 to 5 ft., \$1.00

Tomentosum (Double File Viburnum). 1 ft. Large white flowers against a background of dense light green foliage make a most pleasing combination. Growing oval and uniform in shape, it is very useful as a large hedge, screen, or border plant. 2 to 3 ft., 60c; 3 to 4 ft., 80c

Tomentosum plicatum (Japanese Snowball). 6 ft. Huge, snowball flowers, very pleasing against the background of heavy, rough foliage. A very attractive, irregular growing bush. 1 1/2 to 2 ft., 60c; 2 to 3 ft., 75c

VITEX - Chaste Tree

Macrophylla. 4 ft. Rather low growing, narrow dark green foliage. Lilac-blue flowers are produced at ends of branches during August and September. 2 yr., 50c

Neundo incisa. 5 ft. An excellent plant for the border. Branches are slender and leaves are a gray-green color. Delicately tinted lavender-blue spikes appear at end of branches. Excellent for cutting. 2 yr., 50c

WEIGELA

A group of shrubs having sweet-scented trumpet-shaped flowers in unequal profusion, tucked in the axils of the leaves all among the branches. The foliage is a rugged dark green. The varieties are all strong-growing, healthy and vigorous, differing only in color of flowers and habit of growth.

Abel Carriere. 8 ft. Old rose flowers. Broad in shape. 2 to 3 ft., 40c; 3 to 4 ft., 50c

Candida (Snow). A tall upright variety with pure white flowers. 2 to 3 ft., 40c; 3 to 4 ft., 50c

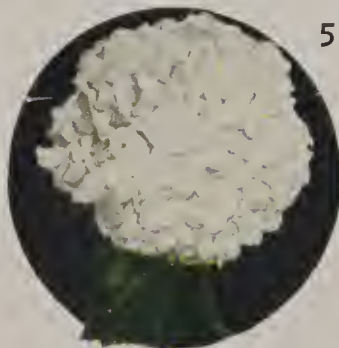

Eva Rathke. 5 ft. Bright deep crimson flowers blooming profusely practically all summer, cover the long arching branches. Plant where you can enjoy its glorious wealth of bloom. 12 to 18 in., 40c; 1 1/2 to 2 ft., 50c; 2 to 3 ft., 60c; 3 to 4 ft., 75c

Floribunda (Crimson Weigela). 7 ft. Tall-growing and medium-spreading with bright crimson flowers. 1 1/2 to 2 ft., 40c; 2 to 3 ft., 50c

Rosea (Rose). 7 ft. Light rose-pink flowers. Bush is beautifully symmetrical in growth. 2 to 3 ft., 40c; 3 to 4 ft., 50c

Rosea variegata (Variegated Weigela). 5 ft. Cream and green variegated leaves. Pink flowers. Medium spreading growth. 1 1/2 to 2 ft., 40c; 2 to 3 ft., 50c

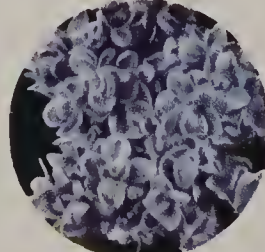

5 Colorful Blossoms that Make a Picture in Any Garden

EVERGREENS give character to your home— because we naturally associate them with permanency

Broad-Leaf Evergreens

COLE presents here a group of interesting and useful plants. Brilliant blossams stand out clearly against their evergreen background. Every home needs at least a few of these plants.

DAPHNE Cneorum

Garland Flower. A grand little shrub of spreading habit that does not grow over 8 to 12 inches high, producing an abundance of delightfully fragrant flowers. The flowers completely cover the plant in the spring and more blossoms appear again in the autumn. It is unequalled as an edging plant for evergreens. It also forms a splendid low hedge along garden walks and flower beds. It prefers a sunny position and grows best in a well-drained ordinary soil.

6 to 9 inches, B. & B., 75c each, 3 for \$2.00;
9 to 12 inches, B. & B., 95c each, 3 for \$2.50

ARCTOSTAPHYLOS - Bearberry

Uva-Ursi. A prostrate and creeping evergreen shrub, fine for a ground cover. Flowers are pinkish white followed by showy scarlet berries. We cannot say too many nice things about this plant. In our opinion, it is one of the best ground covers.

9 to 12 in. spread, B&B, 95c; 3 for \$2.50;
12 to 15 in. spread, B&B, \$1.25; 3 for \$3.00

EUONYMUS - Evergreen Bittersweet

Radicans vegetus (Bigleaf Wintercreeper). Low, spreading evergreen shrub with round, thick leathery leaves, beautifully decorated in fall with showy orange-red fruit like Bittersweet. An excellent foundation and rock plant, or for use as a low-trimmed hedge. It can also be trimmed into various dense formal shapes, or grown as a vine against a wall.

9 to 12 in., 50c; 12 to 15 in., 65c;
1½ to 2 ft., 80c; 2 to 2½ ft., \$1.00

Radicans (Wintercreeper). Slender, trailing branches. Fine, round, dense foliage.

9 to 12 in., 40c; 12 to 18 in., 50c

Radicans acutus (Sharpleaf Wintercreeper). A low spreading evergreen ground cover, with rich dark leaves. Use it in front of foundation or evergreen plantings, in the rock garden, or for steep banks to hold soil.

12 to 18 in., 50c; 1½ to 2 ft., 65c

Radicans argentea-marginatus (Silveredge Wintercreeper). A beautiful form with silver-edged leaves.

9 to 12 in., 40c; 12 to 18 in., 50c

Radicans Carrieri (Glossy Wintercreeper). Excellent for low evergreen hedge. Upright, bushy, with dense, compact foliage.

12 to 18 in., 50c; 1½ to 2 ft., 65c

Patens (Siebaldi) (Spreading Euonymus). 5 ft. Upright slightly spreading; round, dense foliage.

12 to 18 in., 65c; 1½ to 2 ft., 80c

ILEX Opaca

The Native American Holly. A beautiful evergreen with strong erect growth. True holly leaves, red berries. White flowers appear in June on the current season's growth. Branches universally used for Christmas decorations. An excellent hardy shrub for all locations.

1½ to 2 ft., B. & B., \$2.25; 2 to 3 ft., B. & B., \$3.00

ILEX - Holly

Crenata latifolia (Big-Leaved Japanese Holly). 6 ft. A very dense and compact evergreen shrub which may be trimmed into formal shapes like boxwood. Leaves are round, thick, and very deep, glossy green. Hardy.

2 to 2½ ft., B&B, \$2.90

Glabra (Inkberry). 4 ft. Medium-height, small-leaved, dense, compact evergreen shrub ornamented in late summer and fall with small dark blue-black berries.

15 to 18 in., B&B, \$1.95;
1½ to 2 ft., B&B, \$2.85

KALMIA - Mountain Laurel

Latifolia. 5 ft. Thick, shiny foliage and large clusters of dainty pink blooms in June. Shade-loving.

15 to 18 in., B&B, \$1.90;
1½ to 2 ft., B&B, \$2.40

LEUCOTHOE -

Drooping Leucothoe

Catesbaei. 4 ft. Long, pointed glossy green leaves. Upright, arching, branching habit, slightly drooping. Long racemes of cream-colored flowers.

15 to 18 in., B&B, \$1.50;
1½ to 2 ft., B&B, \$2.00

MAHONIA - Hollygrape

Aquifolia (Oregon Hollygrape). 4 ft. Truly a beautiful shrub, almost evergreen, with leaves resembling the Christmas Holly. Clusters of small, bright yellow flowers appear in May, followed by brilliant blue berries ripening in September. Foliage turns reddish brown in winter. A very good shrub for shady locations.

12 to 18 in., B&B, \$1.00; 1½ to 2 ft., B&B, \$1.75

PACHISTIMA

Canbyi. 10-inch spread. Like a miniature box with tiny evergreen foliage. Excellent for ground cover, rockery, or wall crevices. Likes moisture.

2½-in. pot plants, 50c each; 3 for \$1.25; 10 for \$3.90

PIERIS

Excellent foundation plants for shady places and beautiful in woody locations. Most attractive Lily-of-the-Valley-like flowers.

Flaribunda (Mountain Andromeda). 2½ ft. Medium length, pointed, glossy green leaves. Long racemes of cream-colored flowers, very profuse in bloom.

12 to 18 in., B&B, \$2.50; 1½ to 2 ft., B&B, \$3.25

Japanica (Japanese Andromeda). 4 ft. Glossier, more shining foliage than above variety, and more upright in growth.

15 to 18 in., B&B, \$2.50; 1½ to 2 ft., B&B, \$3.25.

PYRACANTHA - Scarlet Firethorn

—See Shrub Section.

RHODODENDRON

Carolinianum (Carolina Rhododendron). 4 ft. A glorious mass of light, pure pink flowers. Very profuse blooming.

15 to 18 in., B&B, \$2.50; 2 to 2½ ft., B&B, \$3.50

Catawbiense (Catawba Rhododendron). 5 ft. Huge clusters of lavender-pink flowers against a background of dense, glossy green foliage. Free flowering. Shade-loving.

12 to 18 in., B&B, \$2.50; 1½ to 2 ft., B&B, \$3.50

Maximum (Rosebay Rhododendron). 6 to 8 ft. Mammoth clusters of white flowers splashed carmine. Leaves are long, pointed, very dark glossy green, and dense. Easily the finest of all Rhododendrons for foliage effects. Shade-loving, vigorous growing.

12 to 18 in., B&B, \$2.25; 1½ to 2 ft., B&B, \$3.00

Growing Year Around Evergreen Plant.

Enjoy All-Year Beauty With Cole's Quality Evergreen Shrubs

Cole's Beautiful Hardy Vines

They Cling and Creep

Vines are always useful for covering bare ground or halting steep banks where grass will not grow. For beautifying bare walls, for making screens, and for covering fences, Cole's quality Vines cannot be excelled. Vines are beautiful and indispensable as arbors or trellis work, on porches and in the garden; and can be made very ornamental in softening hard corners or clothing pillars and posts with a mantle of green. Cole's Quality Plants, because of their tenaciousness and their ability to succeed in almost any location, assure success in planting.

The
Lovely
Wisteria

ACTINIDIA - Tara Vine

Arguta (Bower Actinidia). Extra strong growing. Large panicles of cream-colored flowers. Dense foliage. 2-yr., 60c; 3-yr., 75c

AKEBIA

Quinata (Fiveleaf Akebia). Strong growing and long-lived. Will cling to stone or wood. 2-yr., 50c; 3-yr., 65c

AMPELOPSIS

Quinquefolia (Virginia Creeper). Our native Woodbine. Will grow in shade. Woody and tenacious. Dark blue berries. 2-yr., 35c; 3-yr., 50c

Quinquefolia Engelmanni (Engelmann Creeper). A refined form of the above with glossier and more dense foliage. 2-yr., 35c; 3-yr., 50c

Tricuspidata (Japanese Creeper) (Boston Ivy). The most widely used Ivy for covering brick, stone, or wood. Lustrous green foliage taking on grand autumn tints. Blue berries add attractiveness in early winter. 2-yr., 40c each; 3 for \$1.00; 3-yr., 50c each; 3 for \$1.25

Tricuspidata robusta (Robust Ivy). A new extra-heavy form of Boston Ivy, named "Robust" for its extra-large, heavy, deep green leaves and strong, rampant growth. Very hardy and fast grower. Will not cling to wall. 2-yr., 65c

ARISTOLOCHIA

Sipha (Dutchman's Pipe). A vigorous rapid growing vine. Perfectly hardy. Light green leaves and curious miniature pipes as flowers. 2-yr., 12 to 18 in., 75c

BIGNONIA - Trumpet Creeper

Radicans (Trumpet Creeper). Large, scarlet, trumpet-shaped flowers, in bloom all summer. Very hardy. 2-yr., 35c; 3-yr., 50c

Grandiflora (Chinese Trumpet Creeper). Improved. Extra large, orange-red flowers. Blooms all summer. 2-yr., 75c

CELASTRUS

Orbiculatus (Oriental Bittersweet). Unusually hardy and very ornamental. Branches hanging full of the dark orange berries are interesting and beautiful when cut and dried for colorful winter bouquets. The Oriental Bittersweet is considered superior to our native form because of certainty of fruiting. 2-yr., 40c; 3-yr., 50c

Scandens (American Bittersweet). Our native bittersweet. Leaves are large and light green; berries are a beautiful light orange. Very decorative for winter bouquets. Two or more plants should be set together. 2-yr., 40c; 3-yr., 50c

CLEMATIS

Mantana undulata (Anemone Clematis). A fine new Clematis remarkable for its beautiful "anemone" pink flowers produced in amazing quantities. Foliage is a deep, waxy green. The plant is very hardy, withstanding sub-zero temperatures. Anemone Clematis is an excellent new vine for the trellis, fences or screening purposes which we cannot recommend too highly. 2-yr., 75c each; 3 for \$2.00

Paniculata (Sweet Autumn Clematis). A hardy, fast-growing climber with dense foliage composed of small, green leaves and enlivened with an abundance of fragrant, small white flowers in August and September. 2-yr., 40c each; 3 for \$1.00

HYBRID CLEMATIS. Noted for their beautiful, large, single flowers. We list the following exceptional varieties. Jackmanni is the most popular variety. *Mme Edouard Andre*. Bright red.

Henryi. Snow-white.

Jockmonii. Large; purple.

Price, all varieties: 75c each; 3 for \$2.00

HEDERA - Ivy

Helix (Evergreen English Ivy). An evergreen vine with large, glossy, deep green leaves. Beautiful as a ground cover or trained on low stone or brick walls. Very popular for growing indoors in winter. 2-yr., 50c each; 3 for \$1.35; 10 for \$4.00

Clematis Paniculata

LONICERA

Japonica aureo-reticulata (Yellowish Japanese Honeysuckle). Variegated green and gold foliage. Fine for covering banks or bare ground. 1-yr., 35c; 2-yr., 50c

Japonica Halliana (Hall Japanese Honeysuckle). Strong growing, with dense foliage and fragrant, trumpet-shaped, cream-colored flowers. One of the most valuable vines for holding banks and for screens or trellis use. 2-yr. medium, 35c each; 3 for 90c; 2-yr., 50c each; 3 for \$1.25

Belgica (Dutch Woodbine). Dense, green foliage. Excellent for ground cover, trellis or pillar. 1-yr., 40c; 2-yr., 50c

Sempervirens (Scarlet Trumpet Honeysuckle). Large, scarlet, trumpet-shaped flowers, sweetly fragrant. Dense evergreen foliage composed of medium-sized light blue-green leaves. 2-yr., 40c; 3-yr., 50c

LYCIUM - Matrimony Vine

Chinense (Chinese Matrimony Vine). Vigorous woody vine with great value for trellises and embankments. Small purple flowers in July followed by an abundance of orange-red fruits. 12 to 18 in., 35c each; 3 for 90c; 1 1/2 to 2 ft., 50c each; 3 for \$1.25

POLYGONUM - Fleeceflower - Silver Lace

Auberti (China Fleecevine). Large, fluffy, fleecy white flowers, very dense foliage. The fastest growing vine. Will often grow 20 feet in a single year, quickly screening or covering an undesirable spot with a mantle of beauty. 2-yr. medium, 45c each; 3 for \$1.20; 2-yr., 60c; 3 for \$1.50

SCHIZOPHRAGMA

Hydrangeoides (Climbing Hydrangea). A rare new vine we brought in from China. One of the finest and most artistic vines in existence. Foliage large and bold, clings readily to walls and other supports. White flowers in large, flat clusters; delightfully fragrant. 2 1/2-in. pots, 60c each; 3 for \$1.50

WISTERIA

Wisteria is the grandest and most abundantly-flowered vine for ornamental use. Flowers hang in huge clusters, or racemes.

Flaribunda rosea (Rosy Weeping Wisteria). Rose-colored or pale pink flowers. 2-yr., 95c

Sinensis (Chinese Purple Wisteria). Huge grape-like clusters of showy blue violet flowers. 2-yr., 65c; 3-yr., 85c

PACHYSANDRA

Terminalis (Japanese Spurge). 10 inches. Upright branching evergreen ground cover widely used in shady locations and rockeries, or as a neat, clipped dwarf edging. 1-yr.-old, 10 for \$1.30; 25 for \$2.50; 100 for \$8.00; 2-yr.-old, 10 for \$1.50; 25 for \$3.00; 100 for \$10.00

VINCA - Periwinkle - Myrtle

Minor (Common Periwinkle). An evergreen ground cover used in shady places. Small, thick, glossy green leaves; blue flowers. Spread rapidly. 1-yr.-old, 10 for \$1.00; 25 for \$2.00; 100 for \$6.00; 2-yr.-old, 10 for \$1.30; 25 for \$2.50; 100 for \$8.00

Minor, Bowles Myrtle (Improved). A new variety that we are bringing out this year. It is especially attractive, having runners of glossy evergreen foliage that does not brown. Flowers are large, bright Eleanore-blue, produced in wild profusion in early spring, with a sprinkling of bloom all summer. Flowers are twice the size of the common variety, foliage and general growth a great deal more desirable. A grand plant for the rockery and a marvelous ground cover. Can be forced in winter. We recommend this plant very highly and we know you will not be disappointed. Pot plants, 10 for \$1.60; 25 for \$3.25; 100 for \$11.00

Cole's Flowering Trees

and Small Ornamental Trees

Under this heading Cole lists some of the most ornamental of the smaller trees, particularly desirable for those who want the best in the beautification of their home grounds. They are all not only glorious pictures when in bloom, but are lovely at all times. There is a graceful friendliness about these smaller trees that endears them to all homeowners. A few well-placed specimens will change the appearance of your grounds.

AESCULUS - Red Buckeye

Pavia. 20 ft. Red Buckeye is a very distinctive, worthwhile and scarce novelty and plant aristocrat. The strikingly lovely red flowers appear in long clusters early in spring, followed by rugged, healthy, deep green foliage. Plant Red Buckeye for something new and worthwhile. 3 to 4 ft., \$2.90; 4 to 5 ft., \$3.90

ACER

Palmatum purpureum (Redleaf Japanese Maple). 8 ft. The well known Maple highly prized for its purely ornamental beauty and the charm of its blood-red foliage. One of our most colorful, small ornamental trees. See color illustration, page 17.

15 to 18 in., B&B, \$1.95; 1½ to 2 ft., B&B, \$2.50;
2 to 2½ ft., B&B, \$3.50; 3 to 4 ft., B&B, \$5.75

ARALIA - Devil's Walking Stick

Spinosa. 15 ft. Stiff, straight, thorny, upright trunks support long fronds of pinnately compound leaves. The large fuzzy flowers turn to big panicles of small blue berries in late summer. Exotic and picturesque. 2 to 3 ft., 65c; 3 to 4 ft., 90c;
4 to 5 ft., \$1.15; 5 to 6 ft., \$1.50

AMYGDALUS - Peach

Alba-plena (Double White-Flowering Peach). 12 ft. Beautiful double white flowers like roses on a tree, resembling the fruiting Peach. 2 to 3 ft., 50c; 3 to 4 ft., 65c;
4 to 5 ft., 85c; 5 to 6 ft., \$1.10

Rubro-plena (Double Red Flowering Peach). 12 ft. Large, double, crimson flowers cover the tree in early spring with a dazzling wealth of bloom. 2 to 3 ft., 50c; 3 to 4 ft., 65c;
4 to 5 ft., 85c; 5 to 6 ft., \$1.10

CERCIS - Redbud - Judas Tree

Canadensis (American Redbud). Small, bright red flowers clinging to the black bark, appearing at a distance as if the tree were sprayed with bright red jewels. Later the large heart-shaped leaves grow out to transform American Redbud into a mass of cool green for the summer. It grows from 15 to 25 feet tall and is especially valuable as a lawn specimen. 2 to 3 ft., 90c; 3 to 4 ft., \$1.25;
4 to 5 ft., B&B, \$2.50; 5 to 6 ft., B&B, \$3.25

CORNUS - Dogwood

Mas (Cornelian Cherry). 18 ft. A large, sturdy-growing shrub or small tree, extremely hardy and thrifty, gifted with beautiful deep green foliage, the mission of which seems to be besides being beautiful in itself, the furnishing of a background for the rich, dark red of the very large cherries which hang singly amongst the dark green leaves to form a most pleasing color combination. 1½ to 2 ft., 60c; 2 to 3 ft., 90c;
3 to 4 ft., \$1.25; 4 to 5 ft., \$1.75

Florida (Flowering Dogwood). 20 ft. A low-growing tree of unusual beauty and graceful charm. The flowers are white followed in late summer and early fall by a wealth of bright red berries, which are a delight to the eye as well as food for the birds. Flowering Dogwood grows in either shade or sun, and will do well in any well-drained soil. 2 to 3 ft., B&B, \$1.75; 3 to 4 ft., B&B, \$2.25;
4 to 5 ft., B&B, \$2.90; 5 to 6 ft., B&B, \$3.90

Florida rubra (Red Flowering Dogwood). 16 ft. Known the country over for the beauty of its large, single, light red flowers. 2 to 3 ft., B&B, \$2.75; 3 to 4 ft., B&B, \$3.75;
4 to 5 ft., B&B, \$5.25; 5 to 6 ft., B&B, \$7.25

CRATAEGUS - Hawthorn

Oxyacantha splendens (Paul's Double Scarlet Hawthorn). 15 ft. The branches of this double-flowered form of the famous old English Hawthorn are heavily laden in late spring with a mass of closely knit flat panicles of double bright red flowers. The fine foliage and picturesque irregular outline are pleasing during other seasons of the year. Paul's Scarlet is one of the finest and most desirable of the ornamental Hawthorns. 4 to 5 ft., \$1.50; 5 to 6 ft., \$2.25

CLADRASTIS - Yellow-wood

Lutea (Yellow-wood). 35 ft. A graceful tree having large, fragrant, white flowers and long bright green leaves. One of the most beautiful ornamental trees. 3 to 4 ft., \$1.90; 4 to 5 ft., \$2.90

EUONYMUS

Atropurpurea (Wahoo). 12 ft. A very decorative native tree, with green branches ornamented in fall by orange-colored "Bittersweet" fruits. An excellent subject for shady locations. 3 to 4 ft., 75c; 4 to 5 ft., \$1.00

Eurapaeus (Burning Bush). 12 ft. The characteristic "Bittersweet" fruits appear in late fall, opening to a bright fiery red after the leaves have fallen. 3 to 4 ft., 65c; 4 to 5 ft., 90c

Yedaensis (Bittersweet Tree). 8 ft. A very distinctive large bush, with long, large, leathery green leaves, ornamented in late fall with attractive bright red fruits. Probably the most prolific of the Bittersweet Trees. Notable for its ability to thrive in dry locations and poor soil. 2 to 3 ft., 50c; 3 to 4 ft., 65c;
4 to 5 ft., 85c; 5 to 6 ft., \$1.25

FAGUS - Beech

Sylvatica Riversi (Rivers' Purple Beech). 35 ft. One of our best lawn specimens, a lofty pyramid in shape, very striking with its glossy purple foliage and purple bark. A tree that will give lasting satisfaction. 1½ to 2 ft., B&B, \$3.00;
2 to 3 ft., B&B, \$3.90;
3 to 4 ft., B&B, \$4.75;
4 to 5 ft., B&B, \$6.00

HALESIA

Tetraptera (Great Silverbell). 15 ft. The white Silverbell flowers hanging in spring from the spreading branches of this marvelous ornamental tree present a picture that will linger in the memory long after the flowers are gone. Silverbell is one of the hardiest and easiest to grow of all the small ornamental trees, making it easy for everyone to enjoy its beautiful flowers and fine foliage. 2 to 3 ft., 60c; 3 to 4 ft., 80c

Flowering Dogwood

MAGNOLIA - Sweetbay Tree

Glauca. The Sweetbay Tree is so named because of the very rich, sweet fragrance of the cream and yellow flowers and the long, leathery, shining green bay leaves. Its foliage presents an attractive background for the large flowers and the bright red clusters of seed which follow. For beauty of foliage and fragrance of flowers, the Sweetbay is one of the most desirable and out-of-the-ordinary trees that can be planted. 18 to 24 in., B&B, \$1.75; 2 to 3 ft., B&B, \$2.25;
3 to 4 ft., B&B, \$2.90; 4 to 5 ft., B&B, \$3.50

Soulangeana (Saucer Magnolia). 15 ft. Lovers of the unusual will be delighted with the exotic beauty of the huge, purple and white, water-lily-like flowers that adorn the Saucer Magnolia. Often 6 inches across, the saucer-shaped flowers are more prominent because they appear before the leaves. Later these long, green leathery leaves provide a restful mass of cool green for the summer. 1½ to 2 ft., B&B, \$2.50; 2 to 3 ft., B&B, \$3.25;
3 to 4 ft., B&B, \$4.50; 4 to 5 ft., B&B, \$6.75

MALUS - Flowering Crab

Cole's Ornamental Flowering Crabs are noted for their wealth of bloom, attractive fruits, and their extreme hardiness. Our long list of varieties, each differing in shape, type of fruit, and flowering habits, comprises a large collection from which to choose. Each variety has some notable characteristic which suggests its use in any well-balanced planting.

Arnoldiana (Arnold Crab). 10 ft. A new variety with large, single, pale rose flowers. Tree is medium spreading, extremely hardy, and strong growing. 4 to 5 ft., \$1.50; 5 to 6 ft., \$2.00

Atrasanguinea (Carmine Crab). 12 ft. A most profuse bloomer with carmine flowers and fine red branches. Very graceful in habit. 3 to 4 ft., \$1.25; 4 to 5 ft., \$1.50

Caronaria (Wild Sweet Crab). 15 ft. Most fragrant pink flowers. Large green fruit. Tree spreading in habit. 3 to 4 ft., \$1.25; 4 to 5 ft., \$1.50

Eleyi (Eley's Purple Crab). 10 ft. One of the most colorful of ornamental trees is this new purple Crab that has none of the undesirable rustiness of some purple-leaved plants. In spring the tree is a mass of rose-like light red bloom against purple branches. The leaves, following the bloom, are a bright, rich, light reddish purple. Late in the summer the handsome dark red fruit puts in its appearance to provide further color and enjoyment. 4 to 5 ft., \$1.35; 5 to 6 ft., \$1.75

Floribunda (Japanese Flowering Crab). 10 ft. Covered in spring with a profusion of exquisite rose-colored flowers, appearing with the leaves. Graceful in form. 3 to 4 ft., \$1.00; 4 to 5 ft., \$1.35;
5 to 6 ft., \$1.75; 6 to 8 ft., \$2.50

Niedzwetzkyana (Redvein Crab). 12 ft. Veins and edge of leaves tinged red. Single rose-colored flowers. Grows globular in form. Branches reddish purple. Fruit large, reddish purple. Distinctive. 4 to 5 ft., \$1.50; 5 to 6 ft., \$2.00

Purpurea (Purple Crab). 14 ft. A tall-growing variety with purple leaves, branches, and fruit. 4 to 5 ft., \$1.50; 5 to 6 ft., \$2.00

Scheideckeri (Scheidecker Crab). 12 ft. A luxurious display of semi-double pale pink flowers. Fruit medium-sized light red, in clusters. Clean growing and free blooming. 4 to 5 ft., \$1.50; 5 to 6 ft., \$2.00

Sieboldi (Toringo Crab). 15 ft. Small, pale pink flowers. Large clusters of small red and yellow fruit. Tall and pyramidal in habit. One of the best varieties for attracting birds. 5 to 6 ft., \$2.00; 6 to 8 ft., \$2.75

Spectabilis Riversi fl. pl. (Double Chinese Crab). 12 ft. Very beautiful round, double pale pink flowers. 5 to 6 ft., 2.00; 6 to 8 ft., \$2.75

Halliana Parkmani (Parkman Crab). 10 ft. Of spreading habit with glossy deep green leaves and double pink and red flowers. One of the best. 3 to 4 ft., \$1.90; 4 to 5 ft., \$2.25

Redbud or *Cercis canadensis*

REDBUD (*Cercis canadensis*)

One of our finest ornamental trees growing into a fine, round-headed plant with dark leathery green foliage. A profusion of flowers, red changing to pink, completely covers the tree in the early spring before the leaves appear.

Purple Plum

NEWPORT PURPLE PLUM (*Prunus americana* Newport)

A sport of our native American Plum. Grows in any type of soil. Remains attractive the entire season.

Cole's Flowering Trees and Ornamental Trees

MALUS—Continued

laensis plena (Bechtel Double-Flowering Crab). Large, double, pink, roselike flowers, amazing in their beauty and fragrance. The tree presents a sturdy appearance, with stiff, erect branching habit, and will grow and thrive in almost any location.
2 to 3 ft., 95c; 3 to 4 ft., \$1.35; 4 to 5 ft., \$1.75; 5 to 6 ft., \$2.50

Prunifolia Rinki (Chinese Apple). 15 ft. Tall growing in habit with large pinkish flowers. Fruit yellow, extra large.
5 to 6 ft., \$2.00; 6 to 8 ft., \$2.75

Sublobata (Yellow Autumn Crab). 12 ft. A beautiful new tall-growing specimen noted for its large yellow fruit appearing in autumn.
4 to 5 ft., \$1.50; 5 to 6 ft., \$2.00

Toringoides (Cut-Leaf Crab). 14 ft. Bright, translucent, red and yellow fruit and finely divided leaves, along with strong, upright growth, make this plant aristocrat one of the most handsome and best of the ornamental Crabs.
5 to 6 ft., \$2.50; 6 to 8 ft., \$3.25

Zumi (Zumi Crab). 20 ft. Large, twiggy, globular in shape. Flowers large, single pale pink. Profuse bloomer. Round, red, medium-sized fruit.
4 to 5 ft., \$2.00; 5 to 6 ft., \$2.50

Success with Flowering Crabs, as well as other specimen trees listed in this section, can be advanced 1 or 2 years by securing them dug and burlapped. Furnished in this manner, prices are usually doubled.

OXYDENDRUM

ARBOREUM - Sourwood

For all-season beauty there is no finer ornamental than the Sorrel Tree. The long racemes of creamy white flowers provide spring beauty; the bright, shining green leaves furnish summer enjoyment, then turn a rich red in the fall to add a brilliant mass of fall coloring to the autumn landscape.
2 to 3 ft., \$1.25; 3 to 4 ft., \$1.75

PRUNUS - Plum-Cherry

Americana, Newport (Newport Purple Plum). 15 ft. This new and exceptional variety of Purple-Leaf Plum is an offspring of the fragrant-flowered native American Plum. The foliage is a pleasing brilliant reddish purple. Fruit ranges in color from yellow to bright scarlet and is edible. Newport Plum thrives in any soil, providing excellent all-season coloring in the foliage and an attractive bit of early autumn coloring in the fruit.
2 to 3 ft., 65c; 3 to 4 ft., 80c; 4 to 5 ft., \$1.00; 5 to 6 ft., \$1.50; 6 to 8 ft., \$2.00

Prunus cistena (Hansen's Purple-Leaf Plum). 6 ft. Handsome dark purple leaves with pretty wine-red fruits. It retains its rich color well into the autumn. A very lovely small tree and the most brilliant colored variety.
2 to 3 ft., 65c; 3 to 4 ft., 80c; 4 to 5 ft., \$1.00; 5 to 6 ft., \$1.50

Pissardi nigra (Royal Purple Plum). 10 ft. The richest, darkest purple foliage and branches of all purple-leaved plants. A very beautiful, useful and worth-while tree for lending a distinctive touch to the border, or for specimen planting.
1½ to 2 ft., 65c; 2 to 3 ft., 80c; 3 to 4 ft., \$1.00; 4 to 5 ft., \$1.50

Triloba plena (Double-Flowering Plum). Dazzling, double pearly pink flowers present a floral display completely enveloping this fine ornamental tree. The long, graceful branches provide excellent material for making large bouquets. Sometimes called the "Rose Tree." We offer a limited quantity grafted on sturdy trunks four and five feet high, making one of the finest small ornamental trees for lawn planting.
18 to 24 in., 65c; 2 to 3 ft., 80c; 5-ft. tree-shape specimen, \$1.75

JAPANESE FLOWERING CHERRIES

A gorgeous display of sheer spring loveliness greets the beholder of these beautiful flowering trees in bloom. The charming array of flowers conjures up pictures in the imagination of the beauty of Japan during Cherry-blossom time. There is a fine collection of Japanese Cherries along the Potomac basin in Washington, D. C., which many travel far to see. But anyone may enjoy the unsurpassable beauty of these trees by planting several about his own premises. We list the following superb varieties:

Fugenzo - Kafugen (James H. Veitch). 25 ft. Large, double pink flowers.
3 to 4 ft., \$1.35; 4 to 5 ft., \$1.75; 5 to 6 ft., \$2.25; 6 to 8 ft., \$3.00

Sekiyama (Kwonzan Cherry). 25 ft. Double dark pink flowers.
3 to 4 ft., \$1.35; 4 to 5 ft., \$1.75; 5 to 6 ft., \$2.25; 6 to 8 ft., \$3.00

Shirotae (Mt. Fuji Cherry). 25 ft. Large, double, pure white flowers.
3 to 4 ft., \$1.35; 4 to 5 ft., \$1.75; 5 to 6 ft., \$2.25; 6 to 8 ft., \$3.00

Sieboldi (Siebold Cherry). 25 ft. Double shell-pink flowers.
3 to 4 ft., \$1.35; 4 to 5 ft., \$1.75; 5 to 6 ft., \$2.25; 6 to 8 ft., \$3.00

NEWER AND FINER VARIETIES

Harinji. Double pale pink. 3 to 4 ft., \$1.65; 4 to 5 ft., \$2.25
Hosakawani. Semi-double white. 3 to 4 ft., \$1.65; 4 to 5 ft., \$2.25
Ojachin. Semi-double pink. 3 to 4 ft., \$1.65; 4 to 5 ft., \$2.25
Takinio. Single white. 3 to 4 ft., \$1.65; 4 to 5 ft., \$2.25

Fine Decorative Trees

JAPANESE WEeping CHERRIES

Subhirtella pendula (Shidare-Higan). A light, airy mass of pale pink bloom on fine, slender, pendulous branches, appearing before the leaves to bring a realization of spring in all its glory. The branches grow downward, almost reaching the ground, but the tree grows upward and spreads from year to year, often reaching a height of 12 feet, with as much spread. The foliage is a rich, deep green.

5 to 6 ft. strong, \$2.90; 6 to 7 ft. specimen, \$3.90

Double Pink Weeping. A beautiful sight to behold during the blooming. Branches are a solid, glowing mass of dazzling, double pink flowers thrilling one in the sheer loveliness of their breathtaking beauty.

5 to 6 ft. strong, \$3.75; 6 to 7 ft. specimen, \$4.75

ULMUS - Elm

Camperdowni (Camperdown Weeping Elm). 15 ft. The Camperdown Weeping Elm is an out-of-the-ordinary ornamental tree that deserves a place in any well-designed home planting. The weeping head is grafted on a straight trunk about 6 feet from the ground and grows higher and spreads from year to year. This weeping form has the same foliage and rugged hardiness of the upright Elm.

5 to 6 ft. strong, \$3.25; 6 to 7 ft. specimen, \$4.25

Red-Leaved Japanese Maple

(*Acer palmatum atropurpureum*)

A most striking tree with blood-red leaves in the early spring, retaining its attractive color throughout the entire summer. Plant in conjunction with background of evergreens for best effect.

Red-Leaved Japanese Maple

JAPANESE FLOWERING CRAB

(*Malus floribunda*)

This is the most colorful lawn tree that you can use. The deep coral-red buds expand into rose-colored flowers that literally cover the tree in the early summer. Later in the season it sparkles with bright yellow fruit. Hardy, shapely, beautiful, withstanding the severest winters.

Cole's Trees are scientifically grown. Each specimen will live year after year, once established, in your home grounds.

Plant a Tree as a birthday gift for the children or any member of the family

Cole's Specimen Shade Trees

Trees! One of Nature's greatest gifts to mankind. Plant them near the house for a cooling barrier to the hot summer sun. Plant them to furnish an airy and shady place to sit during the heat of the day. Use trees to break the sweep of cold winter winds.

Trees furnish a home for birds and squirrels, and during the gray days of winter, what is more soul-satisfying than a great bare tree with its promise of the coming spring?

The following list contains trees for every situation.

ACER - Maple

Campestre (Hedge Maple). A dense-growing bush Maple used largely for hedges and windbreaks. A very hardy and distinctive large shrub. 14 ft. 4 to 5 ft., \$1.75; 5 to 6 ft., \$2.40

Ginnala (Amur Maple). A distinctive bush Maple noted for its hardiness and beautiful autumn coloring. A native of Siberia. 10 ft. 4 to 5 ft., \$1.25; 5 to 6 ft., \$1.65

Dasyarpum (Silver Maple). A very fast-growing tree, round to oval in outline, with finely cut leaves, silvery underneath, which turn in fall to a beautiful, clear yellow coloring often brightened with brilliant red. The Silver Maple is not particular as to soil conditions and will thrive in moist or wet locations. 60 ft. 6 to 8 ft., \$1.00; 8 to 10 ft., \$1.40; 10 to 12 ft., \$1.85; 12 to 14 ft., \$2.75; 2 1/2 to 3 in., \$3.90; 3 to 3 1/2 in., \$5.00

Dasyarpum Wieri (Wier's Cut-Leaved Maple). A silver Maple with remarkable and beautiful cut foliage; of very rapid growth, shoots slender and drooping; extremely graceful. Thrives in moist soil. 50 ft. 6 to 8 ft., \$1.75; 8 to 10 ft., \$2.40

Negundo (Box Elder). A quick-growing tree with large, compound leaves, valuable for screen or windbreak. 60 ft. 8 to 10 ft., \$1.25; 10 to 12 ft., \$1.75

Platanoides (Norway Maple). One of the most beautiful shade trees for street or ornamental planting. The tree is large, globular in outline, with heavy, glossy, deep green foliage. Growth is extremely hardy and medium fast. 50 ft. 6 to 8 ft., \$1.75; 8 to 10 ft., \$2.00; 10 to 12 ft., \$2.50; 12 to 14 ft., \$3.50; 2 1/2 to 3 in., \$5.00; 3 to 3 1/2 in., \$7.50

Platanoides Schwedleri (Purple Norway Maple). A purple-leaved form of Norway Maple which makes a brilliant showing in the spring with its bright reddish purple leaves. During the summer and fall the color of the leaves is a pleasing combination of bronze, purple and green. 50 ft. 8 to 10 ft., \$2.75; 10 to 12 ft., \$3.90

Saccharum (Sugar or Rock Maple). A tall and symmetrical tree, hardwooded, long-lived and extremely hardy, widely used for street and ornamental planting, and for maple sugar production. It is native to the woods of our northern states, usually found growing in the more upland locations. The leaves color richly in the fall, turning to brilliant hues of scarlet and yellow. 60 ft. 6 to 8 ft., \$1.50; 8 to 10 ft., \$1.95; 10 to 12 ft., \$2.50; 12 to 14 ft., \$3.50; 2 1/2 to 3 in., \$5.75; 3 to 3 1/2 in., \$8.00

AESCULUS - Horse-Chestnut

Hippocastanum (European Horse-Chestnut). When in bloom this straight, sturdy growing tree is studded with magnificent spikes of sweetly scented, cream-colored flowers against a background of handsome, rugged, deep green foliage. 40 ft. 4 to 6 ft., \$1.40; 6 to 8 ft., \$2.00; 1 1/2 to 2 in., \$3.25; 2 to 2 1/2 in., \$4.50

Carnea (Red Horse-Chestnut). Identical with the above, but has the most striking and lovely red flowers. Very distinctive, worth-while and scarce, there being only a few trees in existence in North America. A true aristocrat. 35 ft. 3 to 4 ft., \$2.75; 4 to 5 ft., \$3.90

Glabra (Ohio Buckeye). The famous native Ohio Buckeye. Tall, straight growth; heavy, rugged, palmately compound deep green leaves, rounded at the ends. A very ornamental shade tree. 50 ft. 5 to 6 ft., \$2.00; 6 to 8 ft., \$2.90; 8 to 10 ft., \$4.00; 10 to 12 ft., \$5.00

The size, immediately following the description, indicates the approximate height at maturity.

The sizes given in inches indicate diameter of trunk at base of tree.

Cole's Shade Trees, as well as other plants, can be supplied any size desired in large, full specimens, where certain effects and more immediate results are wanted. Write if you do not see the exact item and size required.

BETULA - Birch

Alba (European White Birch). The dense foliage covers the fine, graceful branches to provide a beautiful contrast to the bright silver bark. Tree is medium-sized and upright. All birches will grow in wet locations. 40 ft. 5 to 6 ft., \$1.40; 6 to 8 ft. (B&B at \$1.40 additional), \$1.90

Clumps: 3 to 5 stems. 6 to 8 ft. (B&B at \$2.50 additional), \$4.25

Alba pendula (European Weeping Birch). One of the most beautiful and ornamental of all trees. It has graceful weeping branches, finely cut foliage, and bright silvery bark. Likes to be planted in groups near water. 35 ft. 5 to 6 ft., \$2.40; 6 to 8 ft. (B&B \$1.40 additional), \$2.95

Lenta (Sweet Birch). A medium-height, upright, symmetrical tree with green bark, and soft deep green, serrated leaves which are fragrant when crushed. 30 ft. 5 to 6 ft., \$1.60; 6 to 8 ft. (B&B at \$1.40 additional), \$2.25

Clumps: 3 to 5 stems. 6 to 8 ft. (B&B at \$2.50 additional), \$4.25

Nigra (River Birch). Bark varies in color from white and light yellow to a deep cherry-red. One of the hardiest and thriftest of all the Birches and quite resistant to the Birch borer, which has destroyed Birches in many sections. For planting in groups near water River Birch has no equal. 40 ft. 6 to 8 ft. (B&B at \$1.40 additional), \$1.60

8 to 10 ft. (B&B at \$2.00 additional), \$2.25

Clumps: 3 to 5 stems. 6 to 8 ft. (B&B at \$2.50 additional), \$4.25

CARPINUS

Caroliniana (American Hornbeam). Perfectly hardy and easily grown. Thrives in any situation. The long slender foliage is supported by wiry branches which color beautifully in the fall. An excellent tree for neglected places. 35 ft. 3 to 4 ft., \$2.25; 4 to 5 ft., \$2.75

CATALPA

Bignonioides nana (Umbrella Catalpa). A compact round top grafted on a straight stem about 6 feet from the ground.

2-yr. head, 5 to 6 ft. stem, \$1.50; 2-yr., 6 to 7 ft. stem, \$2.25

FAGUS - Beech

Americana (American Beech). A large handsome tree with wide spreading limbs, light gray bark and rich, glossy green leaves. This beech is native to our woods, usually found growing along with the Sugar Maple. 60 ft. 2 to 3 ft., \$1.75; 3 to 4 ft., \$2.50;

4 to 5 ft., B&B, \$4.25; 5 to 6 ft., B&B, \$5.50

Sylvatica riversi (Rivers' Purple Beech). The foliage of this low-branching tree is very attractive. During the spring it is bright reddish-purple, turning to a beautiful purple-tinged green in summer. It forms a noble symmetrical head of majestic appearance and its foliage has a metallic luster in the sunshine. An excellent tree for the lawn. 35 ft. 1 1/2 to 2 ft., B&B, \$3.00; 2 to 3 ft., B&B, \$4.00; 3 to 4 ft., B&B, \$5.00; 4 to 5 ft., B&B, \$6.50

FRAXINUS

Americana (White Ash). A tall, straight, fast-growing tree which will produce quick shade. Its long, compound green leaves turn a brilliant yellow in fall. Ash will do well in either wet or dry locations.

8 to 10 ft., \$1.80; 10 to 12 ft., \$2.40

Pin Oak—They live for years

American Elm

Norway Maple

All of Our Shade Trees are Grown with Straight Trunks

GINKGO - Maidenhair Tree

Biloba. A very odd-leaved and hardy ornamental tree excellent for a lawn specimen or for street planting. Foliage is like the maidenhair fern. The gray bark is soft and silky and if touched seems to warm the hands in cold winter weather. Ginkgo is supposed to be the first tree that grew on earth. 50 ft. 4 to 6 ft., \$2.25; 6 to 8 ft., \$2.90

GLEDITSIA - Honey Locust

Triacanthos (Common Honey Locust). A very picturesque, large, thorny tree with small oval, light green leaves. Will grow under most adverse conditions. 40 ft. 6 to 8 ft., \$1.90; 8 to 10 ft., \$2.50.

GYMNOCLADUS

Dioica (Kentucky Coffeetree). Interesting compound foliage composed of small, pointed leaves. The "coffee" pods are borne on the ends of the branches. 40 ft. 5 to 6 ft., \$1.90; 6 to 8 ft., \$2.75

LIRIODENDRON - Tulip Tree

Tulipifera. Tulip Tree is one of our best shade and ornamental trees—straight, clean, fast-growing, and exceptionally hardy. Its bright orange, tulip-like flowers, nestled among the large leaves, present a beautiful appearance in spring. The leaves are large, flat, kite-shaped, almost solid in outline, and of a cool, clear green, forming dense shade. 60 ft. 5 to 6 ft., \$1.75; 6 to 8 ft., \$2.25

LIQUIDAMBAR - Sweet Gum

Styraciflua. An unusually ornamental pyramidal tree with large star-shaped, very glossy and handsome leaves, which turn a brilliant red in autumn. Its deeply furrowed cork-like bark presents a picturesque winter appearance. 50 ft. 5 to 6 ft., \$2.75; 6 to 8 ft., \$3.75

PHELLODENDRON

Amurensis (Amur Cork Tree). An excellent street tree as it resists drought and is not attacked by insects. Grows rapidly when young, thrives in most any kind of soil. The leaves are aromatic and turn bright yellow in the autumn. Its blue-black berries remain on the branches long after the leaves have fallen. The trees have round, broad heads and gray bark. 50 ft. 5 to 6 ft., \$1.25; 6 to 8 ft., \$1.75

PLATANUS - Plane Tree

Orontalis (European Plane Tree; Sycamore). The most widely used tree for street and ornamental planting in cities and other locations where smoke and gas are factors to be considered. The tree grows rapidly and is healthy and hardy, succeeds under the most adverse conditions. The large handsome leaves form a dense foliage useful in outlining streets, parks, public play areas, and grounds around public buildings. 50 ft. 6 to 8 ft., \$1.60; 8 to 10 ft., \$2.00; 10 to 12 ft., \$2.90; 12 to 14 ft., \$4.50

POPULUS - Poplar

Bolleana (Bolleana Poplar). Tall and columnar in form with smooth gray-green bark; leaves shining green above and silvery beneath. The prominent appearance, extremely rapid growth and easy culture of Bolleana Poplar suggest its use extensively for lightening somber aspects of the landscape, for accents, and for creating quick screens. 50 ft. 5 to 6 ft., \$1.40; 6 to 8 ft., \$1.75; 8 to 10 ft., \$2.50; 10 to 12 ft., \$3.50

Eugenei (Carolina Poplar). Tall, broad tree, fast-growing, with glossy foliage. Used for quick shade, screen or windbreak, but should not be planted near the street. 70 ft. 6 to 8 ft., 75c; 8 to 10 ft., \$1.00

Nigra Italica (Lombardy Poplar). Glossy, deep green foliage and dense growth form picturesque spires quite regular in outline. Valuable for planting as accents, in rows and for windbreaks. An extremely fast-growing and long-lived tree. 70 ft. Each 10

4 to 6 ft.	\$0.50	\$ 4.00	10 to 12 ft.	1.50	\$ 12.50
6 to 8 ft.75	6.00	12 to 14 ft.	2.25	17.50

Simani (Simon Poplar). This most valuable screen and windbreak tree is also beautiful grown as a specimen. It grows pyramidal in shape, with clear, glossy green leaves forming exceedingly dense foliage. 40 ft. 6 to 8 ft., \$1.00; 8 to 10 ft., \$1.25; 10 to 12 ft., \$1.75; 12 to 14 ft., \$2.50

QUERCUS - Oak

Coccolinea (Scarlet Oak). One of our finest Oaks. Tall and straight in growth; rich fall coloring. 75 ft. 5 to 6 ft., \$1.90; 6 to 8 ft., \$2.90; 8 to 10 ft., \$4.25; 1 1/2 to 1 3/4 in., \$5.75

Macrocarpa (Mossycup Oak). Large, open and spreading in growth with large leaves and rough bark. 75 ft. 5 to 6 ft., \$2.50; 6 to 8 ft., \$3.25

Palustris (Pin Oak). Of compact, pyramidal, spreading growth with lustrous green leaves deeply lobed, giving the foliage a fine-textured appearance. One of the best all-around trees grown, being a good specimen, street, screen, or windbreak tree. Will thrive in wet locations. 65 ft. 5 to 6 ft., \$1.40; 6 to 8 ft., \$1.80; 8 to 10 ft., \$2.25; 10 to 12 ft., \$3.50; 1 3/4 to 2 in., \$5.00; 2 to 2 1/2 in., \$6.50

Prinus (Chestnut Oak). Large, tall-growing, with chestnut-like leaves 50 ft. 5 to 6 ft., \$2.95; 6 to 8 ft., \$3.75

Rabur (English Oak). One of our finest ornamental oaks, very hardy and long-lived. The tree is sturdy, growing rapidly after becoming established. The characteristic Oak leaves are medium in size, thick and green, forming a dense foliage. An extra good Oak for street and town planting. 50 ft. 8 to 10 ft., \$3.00; 10 to 12 ft., \$4.00

Rabur concordia (Golden English Oak). Very similar to the English Oak, except that it has bright yellow leaves. Very striking and unusual. We believe we are one of the very few nurseries offering this exceptional tree. 30 ft. 4 to 5 ft., \$7.75

Rubra (Red Oak). Tall and free-growing, with extra large leaves. An excellent shade and street tree. 75 ft. 4 to 6 ft., \$1.90; 6 to 8 ft., \$2.75; 8 to 10 ft., \$3.75; 10 to 12 ft., \$5.75

SALIX - Willow

Weeping Willows

Tall, upright, massive in form, with long, slender branches growing straight downward. Weeping Willow is always attractive, and especially so in summer with the pendulous branches swaying gently in the breeze and the long, slender, lustrous green leaves showing a bright silver reflex. Willows grow rapidly, will thrive in wet places, and like to be near water, but do not mind being planted elsewhere, as they grow heartily in almost any location. We list the three main varieties:

Babylonica (Babylon Willow). One of the taller, faster-growing varieties. Has bright green bark and extra long branches. 55 ft. 5 to 6 ft., \$1.00; 6 to 8 ft., \$1.40; 8 to 10 ft., \$2.00; 10 to 12 ft., \$3.00

Blanda (Wisconsin Willow). Forms a broad, massive top, brownish green bark. One of the hardiest and most extensively planted Weeping Willows. 40 ft. 5 to 6 ft., \$1.00; 6 to 8 ft., \$1.40; 8 to 10 ft., \$2.00; 1 1/4 to 1 1/2 in., \$3.00

Niabe (Golden Weeping Willow). One of the finest and showiest of the Weeping Willows and very hardy. It has bright golden bark, long, fine branches, with leaves green above and silvery beneath. 45 ft. 5 to 6 ft., \$1.40; 6 to 8 ft., \$1.75

Upright Willows

Pentandra (Laurel Willow). Bright green bark and shining, glossy, deep green leaves. 30 ft. 5 to 6 ft., \$1.00; 6 to 8 ft., \$1.40; 8 to 10 ft., \$2.00; 1 1/2 to 2 in., \$2.50

Vitellina (Gold Bark Willow). Strong and upright, with clear golden bark; typical willow foliage. 40 ft. 5 to 6 ft., 95c; 6 to 8 ft., \$1.25; 8 to 10 ft., \$1.75; 10 to 12 ft., \$2.25

Shrub Willows

Discolor (Pussy Willow). Famed for its fuzzy buds which appear early in spring. The branches make the delightful "pussy willow" bouquets when forced in water in later winter. Excellent for planting in wet locations. 12 ft. 1 1/2 to 2 ft., 40c; 2 to 3 ft., 50c; 3 to 4 ft., 60c; 4 to 6 ft., 80c

Incana (Rosemary Willow). A distinctive large shrub with gray leaves, bright red buds, dark branches. Good for screen or background planting in wet locations. 10 ft. 1 1/2 to 2 ft., 45c; 2 to 3 ft., 60c

Regalis (Royal Willow). A tall, upright shrub with beautiful soft, silver foliage. May be grown as a small tree or large shrub. 25 ft. 2 to 3 ft., 65c; 3 to 4 ft., 85c

SORBUS - Mountain Ash

Aucuparia (European Mountain Ash). Noted for its clusters of bright scarlet and orange berries which contrast beautifully with the dense green foliage and often remain after the leaves have fallen. 30 ft. 5 to 6 ft., \$1.50; 6 to 8 ft., \$2.00; 8 to 10 ft., \$2.75; 10 to 12 ft., \$3.50

TILIA - Linden

Americana (American Linden). A handsome tree of rapid growth and one of the best ornamentals for either street or lawn planting. The American Linden has a broad round top and intensely fragrant flowers. 80 ft. 6 to 8 ft., \$1.50; 8 to 10 ft., \$2.00; 10 to 12 ft., \$2.50; 12 to 14 ft., \$3.50

Vulgaris (European Linden). A round-topped tree, more compact and somewhat slower in growth than its American cousin. Leaves are round, slightly pointed, dark green above and light green beneath. Bark is smooth and brown. One of the best specimen lawn or street trees, famed abroad for its stately avenues such as "Unter den Linden." 60 ft. 6 to 8 ft., \$2.25; 8 to 10 ft., \$2.90; 1 1/4 to 1 1/2 in., \$4.50; 1 1/2 to 1 3/4 in., \$5.75

Platyphyllos (Big Leaf European Linden). Huge, heart-shaped leaves, smooth brownish gray bark. Large, broad, tall-growing—a very clean, strong and hardy ornamental shade and street tree. 6 to 8 ft., \$2.25; 8 to 10 ft., \$2.90; 1 1/2 to 1 3/4 in., \$4.50; 1 3/4 to 2 in., \$6.00

ULMUS - Elm

Americana (American or White Elm). Limbs grow upward and outward, forming a broad, open, fan-shaped top, while the smaller branches droop slightly to add a touch of gracefulness to the tall and stately aspect. American Elm can be used for any planting purpose, will grow in almost any soil, and thrives in wet locations. 80 ft. 6 to 8 ft., 95c; 8 to 10 ft., \$1.25; 10 to 12 ft., \$1.65; 12 to 14 ft., \$2.25; 2 1/2 to 3 in., \$3.75; 3 to 3 1/2 in., \$5.00

Americana, Vase Type (Vase Elm). Cole offers only the true grafted type of Vase Elm with the large, broad, vase-shaped top. Very hardy, long-lived and strong growing. Foliage is a rugged, healthy green. An excellent tree for street and ornamental planting. 70 ft. 8 to 10 ft., \$1.40; 10 to 12 ft., \$2.00; 12 to 14 ft., \$2.75; 2 1/2 to 3 in., \$5.50

Pumila (Chinese Elm). The Chinese Elm is rather dwarf in character, with a compact top, roughly pyramidal in outline. The small, lustrous green leaves form a dense, healthy foliage. Quite rapid in growth. 45 ft. 6 to 8 ft., \$1.75; 8 to 10 ft., \$2.40; 10 to 12 ft., \$3.25; 12 to 14 ft., \$4.50; 2 1/2 to 3 in., \$5.75; 3 to 3 1/2 in., \$7.75

Maline (Columnar Moline Elm). This new type of Elm, upright, columnar, narrow in form, is an outstanding specimen for street or accent planting, for outlining drives, for large border backgrounds, or for creating and framing a desired vista. Leaves are large, smooth, of a clear, medium green. 70 ft. 8 to 10 ft., \$1.40; 10 to 12 ft., \$2.00; 12 to 14 ft., \$2.75; 2 1/2 to 3 in., \$5.50

Prize-Winning Strains for Mid-Summer Bouquets

Gladiolus

Tall-Growing, Long-Spiked Aristocrats

Gladioli have long been great favorites with the American people. With reasonable care they will produce a bountiful supply of cut flowers. The proper way to enjoy these gorgeous blooms is to make 4 plantings each year about the first of April, May, June and July. Simply place the bulbs 4 inches below the surface of any ordinary soil and allow about 6 inches of space between each bulb.

Cole's list of bulbs is always up-to-date, containing only the better varieties.

Albania. (Midseason). An excellent Gladiolus of pure white with cream throat.

5 for 25c; 10 for 40c; 25 for 85c

Albatros. (Early). Large flowers of the purest white, as many as 6 to 8 open at one time.

5 for 55c; 10 for 90c; 25 for \$1.75

Apricot Glow. (Early). Tall, strong grower with clear warm apricot flowers.

5 for 25c; 10 for 40c; 25 for 85c

Bagdad. (Late midseason). Clear smoky old rose shading somewhat darker toward the edge and lighter in the throat. Immense flowers.

5 for 50c; 10 for 80c; 25 for \$1.50

Break o' Day. (Early). Light pink. A tall grower with large flowers.

5 for 25c; 10 for 40c; 25 for 85c

Berty Snow. (Early). Large flowers of beautiful lavender-pink.

5 for 35c; 10 for 60c; 25 for \$1.25

Betty Nuthall. (Midseason). Warm coral-pink with a pale yellow throat marking and a slight tint of orange.

5 for 30c; 10 for 50c; 25 for \$1.00

Carmen Sylva. (Midseason). A tall sturdy large flowered pure white with crimson throat markings.

5 for 35c; 10 for 60c; 25 for \$1.25

Crimson Glow. (Early). Large flowers of a glowing crimson-scarlet.

5 for 25c; 10 for 40c; 25 for 85c

Commander Koehl. (Midseason). A beautiful clear light blood-red.

5 for 55c; 10 for 90c; 25 for \$1.75

Dr. F. E. Bennett. (Midseason). Deep peach red overlaid with flame scarlet. Lip speckled ruby and white. The most fiery red imaginable.

5 for 50c; 10 for 80c; 25 for \$1.50

Dorothy Dell. Chrome orange blending to lighter throat. Tall spike. Many flowers open at once. Very beautiful sort.

5 for 50c; 10 for 80c; 25 for \$1.50

Evelyn Kirtland. (Midseason). Bright rose-pink blossoms, shading to shell-pink at throat, with beautiful fiery scarlet blotches on the lower petals.

5 for 35c; 10 for 60c; 25 for \$1.25

Glariana. (Midseason). Golden salmon with clear, cream-yellow throat. An excellent strong grower.

5 for 35c; 10 for 60c; 25 for \$1.25

Gold Eagle. (Early). Very early, large size, deep lemon-yellow, slightly ruffled with wide open flowers on tall stem.

5 for 25c; 10 for 40c; 25 for 85c

Golden Dream. (Midseason). Long, tall spikes of golden yellow flowers.

5 for 25c; 10 for 40c; 25 for 85c

Marmara. (Midseason). Beautiful gray with purplish blotch and markings. From 8 to 10 large perfectly placed blossoms at once. Use with yellow and white flowers for charming effect.

5 for 35c; 10 for 60c; 25 for \$1.25

Minuet. (Midseason). The best of the self-colored Gladioli. The color can best be described as a delicate pinkish lavender.

5 for 55c; 10 for 90c; 25 for \$1.75

Mather Machree. (Midseason). Smoky lavender, tinged salmon, tall, vigorous grower. The "Queen" of the "Smokies."

5 for 50c; 10 for 80c; 25 for \$1.50

Mrs. Lean Douglas. (Midseason). Large, light rose blooms marked with buff-scarlet stripes.

5 for 30c; 10 for 50c; 25 for \$1.00

Picardy. (Early). This variety has about everything it takes to make a wonderful flower. It has been the sensation everywhere since its introduction. The flowers are a soft shrimp-pink with a blotch of light flesh-pink, fading and blending with the shrimp-pink at the edges. The flowers often measure 6 inches or more across and are well placed on tall strong spikes.

5 for 50c; 10 for 80c; 25 for \$1.50

Orange Queen. (Early). A beautiful light orange deeper at the edge of petals.

5 for 25c; 10 for 40c; 25 for 85c

Veilchenblau. (Midseason). A true violet-blue. Wide open flowers well arranged on a tall stem.

5 for 50c; 10 for 80c; 25 for \$1.50

Violet Beauty. (Midseason). Deep violet, with a carmine blotch on lower petals. Tall slender stems.

5 for 25c; 10 for 40c; 25 for 85c

W. H. Phipps. (Late). A tall iridescent pink shading to salmon-rose with a large number of flowers opening at the same time.

5 for 35c; 10 for 60c; 25 for \$1.25

GLADIOLUS PICARDY

This exhibition variety has won many prizes at various shows throughout the country. It has created more favorable comment than any other variety in many years. It is, in our opinion, the finest and most charming of all the Gladioli.

Patented ROSES

Alezone. Plant Patent No. 116. Earliest to bloom. Large reddish brown urn-shaped bud. Cupped flowers open sorrel color, changing to rich apricot, not affected by hot or wet weather. Vigorous growth, upright branching, dark green foliage. A beautiful and striking novelty. \$1.25 each; 3 for \$3.15

Amelia Eorhort. Plant Patent No. 63. An extra-large, double flower, deep yellow in the center, the outer petals rich cream, with a blush overtone over all. Extremely fragrant. Strong plants with leathery dark green foliage. \$1.25 each; 3 for \$3.15

Carillon. Plant Patent No. 136. Long pointed orange-scarlet bud, opening to a lively coral-flame. Plant is branching and spreading, ideal for bedding. \$1.00 each; 3 for \$2.50

Countess Vandal. Plant Patent No. 38. Long pointed buds of pink and copper open to finely formed flowers of pink, copper, gold, and salmon; a beautiful combination. Nice plants with good foliage. \$1.00 each; 3 for \$2.50

Eclipse. Plant Patent No. 172. The international sensation of the year! Long, stream-lined buds are of rich gold without shading. Open blooms very fragrant; excellent for cut flowers and keep well in water. Very distinctive foliage. \$1.50 each; 3 for \$3.75

Glaaming. Plant Patent No. 137. Blooms of an unusual fawn-orange in the bud, changing to a peculiar pink overlaid with salmon in the full bloom. An excellent cut flower variety, with long, rigid stems and handsome foliage. \$1.25 each; 3 for \$3.15

Matodor. Plant Patent No. 170. Large full flower, well-formed, very fragrant, a bright scarlet-crimson with darker silky sheen on the reverse. Vigorous, healthy plant. \$1.25 each; 3 for \$3.15

Signara. Plant Patent No. 201. Long bud of a warm burnt sienna opening to a lighter hue toward mandarin. One of the best for cutting; every bloom on a long stem. \$1.50 each; 3 for \$3.75

Texas Centenniol. Plant Patent No. 162. A red sport of President Herbert Hoover. Color is blood-red toning to cerise-red in center. Most striking new red. \$1.00 each; 3 for \$2.50

Countess Vandal

This superb Rose has earned the surname "indispensable Rose" for no rose garden is complete without it. Each, \$1.00; 3 for \$2.50

PATENTED CLIMBING ROSES

Bloze. Plant Patent No. 10. The Everblooming Paul's Scarlet Climber, combining its vigor, beauty, and hardiness with the everblooming habit. All of our plants are propagated from blooming wood to insure their everblooming habit. \$1.00 each; 3 for \$2.50

Golden Glow. A magnificent climber, vigorous and free flowering, with 4 or 5 medium size flowers, semi-double in form, arranged in clusters. The color is a pure bright yellow without any shadings. Delicate fragrance reminding one of good China Tea. Grade XX, \$1.50; 3 for \$3.75

Princess Van Orange. Plant Patent No. 106. A climbing sport of the Polyantha, Gloria Mundi. It has strong growth and rich green foliage, the branches literally covered with masses of blazing orange-scarlet flowers. A real novelty. \$1.00 each; 3 for \$2.50

The New Dawn. Plant Patent No. 1. A sport of Dr. W. Van Fleet with the same flesh-pink flowers on a moderate climber which produces a few flowers at all times during the season. \$1.50 each; 3 for \$3.75

Texas Centennial

A tall, robust grower. The bud is a crimson-red opening to a radiant pink, delicately scented. Each, \$1.00; 3 for \$2.50

Doubloons

Doubloons is a radiant yellow climber—just what rose lovers have wanted for years. Hardy and vigorous, it grows with long heavy canes. Easily grown, often attaining a height of 12 feet in a single season. Each, \$1.50; 3 for \$3.75

Make Your Own Collection

Any three varieties of Patented Roses at the 3 rate of the varieties selected.

Cole's Quality Roses

Are Offered at Reasonable Prices

Cole's Roses have the reputation of being the best that it is possible to produce. They will give the kind of results every flower lover is looking for. The prices at which these Roses are offered are very reasonable, considering their exceptional quality. Good gardeners invariably are not interested in low-priced offers, which mean inferior quality that must prove disappointing in the end.

HYBRID TEA ROSES

We offer only roses grown here on our own nursery. Roses grown in our locality are recognized as being the finest quality Roses produced in America.

We send out only two-year-old XX guaranteed grade, which is top quality, and our select grade A is just as old but the plants are not quite as large. Both grades will give good results the first season.

We offer only the very choicest and most popular varieties of Tea Roses. We recommend this collection for general planting.

Care and Culture of Roses

Unpack your Roses immediately. You will find them cut back a little. Cut them back to within 6 or 8 inches of the union and plant them so that the union (or bud) is just below the surface of the ground. If the season is well advanced hill the dirt up around the plant to a height of 6 to 8 inches. This will protect the lower eyes on the canes from becoming dried out. After a period of two weeks (the roots have then become established) remove the dirt. Be sure to have your ground prepared before your Roses arrive. Never work clay soil when it is in a muddy condition.

Many of our customers prefer fall planting of Roses which has been proven to be just as satisfactory as spring planting. In this case much the same procedure is followed, except that you do not cut back the Roses at the time of planting, but mound up the soil about the plant to the height of ten or twelve inches and with the approach of freezing weather cover the entire bed with a light mulch of straw, leaves or cut grass for additional protection. Early in the spring before growth starts remove the mulch and level down the hills, cut out all weak shoots and cut back the main shoots to within six or eight inches of the ground or to sound wood.

GUARANTEE All of the Grade XX plants are guaranteed to grow and bloom at their first natural blooming period, falling which we will replace them without cost to you. Claims to be made by August 1st following delivery. Roses are prepaid to the 4th Parcel Post Zone.

Ami Quinard. Buds almost black, opening to semi-double flowers of moroan-red. Tall, vigorous grower. (XX) 75c; (A) 50c

Autumn. Burnt orange color, streaked with red and pink. Medium-sized bud developing into a double, fragrant flower. (XX) 75c; (A) 50c

Betty Uprichard. Large salmon flowers, suffused orange inside and coriine outside. Its strong growing habit and resistance to disease makes it an ideal garden variety. (XX) 75c; (A) 50c

Condesa de Sagato. The Spanish beauty. Inside the flower the petals are a coppery pink; outside a bright golden color. Tall growing. A profuse bloomer. (XX) 90c; (A) 60c

Dame Edith Helen. Shapely buds and substantial, high-centered blooms of clear pink, sweetly scented and freely produced on long stems. (XX) 75c; (A) 50c

Director Rubio. Large fluffy cochineol-pink flowers produced singly on stiff stems. A vigorous grower and a profuse bloomer. (XX) 90c; (A) 60c

Duquesa de Penaranda. Orange-apricot buds opening to large blooms of coppery pink. In the autumn the buds open an orange-copper color. (XX) \$1.00; (A) 70c

Edith Nellie Perkins. Long-pointed bud; flowers long lasting, fragrant and double; outside of petals shaded cerise-orange; inside salmon-pink. (XX) 90c; (A) 60c

Editor McFarland. Beautiful deep pink flowers. The plant is strong, bushy and vigorous. A truly remarkable Rose. (XX) 75c; (A) 50c

E. G. Hill. Beautiful long bud of perfect form; a full double high-centered flower of dazzling scarlet. Strong, vigorous, free-flowering habit. (XX) 75c; (A) 50c

Etoile de Hollande. Immense flowers of velvety scarlet-crimson with real old-time fragrance; petals enormous. Free-flowering. (XX) 75c; (A) 50c

Golden Dawn. The ovoid, lemon-yellow bud heavily splashed with crimson develops into a large double sunflower-yellow, well formed and sweetly scented. (XX) 75c; (A) 50c

Joanna Hill. The large long-pointed buds develop into a long lasting, moderately fragrant flower of clear yellow, with orange-yellow heart. Vigorous growth, upright and a profuse bloomer. (XX) 75c; (A) 50c

Joyous Cavalier. An immense bright red Rose, freely produced on a vigorous plant. (XX) 90c; (A) 60c

Kardinal Piffel. Hardy buff-pink flowers, free blooming and extremely hardy. (XX) 90c; (A) 60c

Konigen Carola. Large, perfectly formed flowers. Color is satiny silver-pink. (XX) 90c; (A) 60c

Leonard Barron. A variety with an exceptionally large flower. The flowers when full open show a mixture of salmon-buff and shell-pink well blended. (XX) 90c; (A) 60c

Margaret McGredy. Showy large double flowers of solid orange-vermilion. Very prolific. An extraordinary Rose that has proven to be most satisfactory. (XX) 75c; (A) 50c

Mevrouw G. A. Van Rossem. A most striking blending of a dark vivid orange and apricot on a golden yellow ground. Frequently with touches of bronze on reverse side of petals. Flowers sweetly scented and of perfect form. (XX) 75c; (A) 50c

Miss Rowena Thom. Enormous buds and blooms of fiery rose and mauve, shaded with old gold of the center, borne on long, strong stems. (XX) 75c; (A) 50c

Mme. Jules Bouche. Without question the best white everblooming bedding Rose yet introduced. Flowers are large, quite double and of splendid form. A vigorous grower and very free flowering. (XX) 75c; (A) 50c

Mrs. Erskine Pembroke Thom. Slender yellow buds, and large well-shaped blooms of bright canary-yellow, deepest in center. Blooms very freely. (XX) 75c; (A) 50c

Mrs. Henry Morse. A bright flower of two contrasting tones of pink, with an underlying yellow glow; double, high centered, fragrant. (XX) 75c; (A) 50c

Mrs. Pierre S. Dupont. Long pointed bud of reddish gold opening to a semi-double deep golden yellow; flowers very lasting and fragrant. Plant strong and vigorous with compact growth. (XX) 75c; (A) 50c

Mrs. Sam McGredy. Scarlet coppery orange, heavily flushed red. The blending of colors in this flower gives a most dazzling effect. The flowers are of large size and beautiful form. The plant has a vigorous and exceptionally free habit. (XX) 90c; (A) 60c

Nuntius Pacelli. Large creamy white flowers delightfully fragrant. Plant sturdy and very free flowering. (XX) 90c; (A) 60c

President Herbert Hoover. Large flowers of a very charming combination of cerise-pink, flame, scarlet and yellow; very fragrant. The clean attractive foliage and the strong, sturdy growth makes an added attraction. A great improvement over Talisman. (XX) 75c; (A) 50c

President Plumecocq. Ovoid buds of coppery yellow, open to large flowers of coppery buff tinted with salmon. Fragrant and long lasting. (XX) 90c; (A) 60c

Radiance. An ideal bedding Rose that continues to produce its large flowers under the most unfavorable conditions. A brilliant carmine-pink with yellow shadings at base of petals. (XX) 75c; (A) 50c

Red Radiance. Exactly like its parent in everything but color, which is a bright cerise-red. (XX) 75c; (A) 50c

Cole's Grade "A" Roses are as Good as Most First Grade Roses

Cole's Quality Roses

Schwabenland. A lovely pink Rose with a unique color and formation. The flowers are large, over 5 inches in diameter with a high spiral center. The color is a rich luminous pink, retaining its brightness until the petals drop. A strong healthy grower. (XX) 75c; (A) 50c

Syracuse. Flower large, full, crimson-scarlet, borne singly on long stems. Growth vigorous and upright. (XX) 75c; (A) 50c

Vaterland. The most distinct dark colored variety yet introduced. A rich deep velvety scarlet, with remarkable keeping qualities. Plant is vigorous in habit and has fine, healthy foliage. (XX) 90c; (A) 60c

Ville de Paris. Round buds of clear yellow and big globular flowers of the same color. This is really an outstanding variety and considered by many the best yellow Rose of today. (XX) 75c; (A) 50c

HYBRID PERPETUAL

The old famous "Monthly Roses" should be used in conjunction with Hybrid Teas, and especially so in localities where the hardness of the Hybrid Teas is not established. They are of vigorous growth, tall stately bushes and very hardy. The flowers are exceptionally large.

The following varieties are all priced: Grade XX, 75c; grade A, 50c.

Frau Karl Druschki. Pure white.

Henry Nevard. New crimson-scarlet.

Mme. Albert Barbier. Beautiful cream and apricot.

Marshall P. Wilder. Bright red.

Mrs. John Laing. Soft pink.

Paul Neyron. Extra large deep pink, fragrant.

Pres. Briand. New bright pink.

POLYANTHA ROSES

A type of Rose which is very popular for bedding purposes, being very hardy and very satisfactory. They form shapely, compact bushy specimens, most of them growing about 12 to 15 inches high. Flowers are produced profusely all season. Pruning is unnecessary. Simply remove last year's flowers stems.

Cecile Brunner. Small, exquisitely formed buds and flowers of light pink with yellow base in diffuse, graceful clusters. Perfectly formed miniature Roses of utmost grace and delicacy. Also called "Sweetheart Rose" and "Mignon Rose." (XX) 75c; (A) 50c

Eblouissant. Glowing dark red flowers of medium size, shaded heavily with velvety crimson. Large compact trusses borne on dwarf plants. (XX) 75c; (A) 50c

Golden Salmon. Orange-scorlet flowers in neat clusters. One of the showiest. Splendid plant- ing in masses. Height 18 inches. (XX) 75c; (A) 50c

Joseph Guy (Lafayette). Large semi-double flowers in striking light crimson open frilled form. Blooms very liberally in loose clusters. (XX) 75c; (A) 50c

Kirsten Poulsen. Tall growing, extra large single light red flowers in sprays. Excellent for bedding and low hedges. (XX) 75c; (A) 50c

CLIMBING AND RAMBLER ROSES

Climbing Roses require no pruning in the spring beyond the cutting out of old or dead wood, and the shortening of the laterals to conform with the space to be occupied. A severe pruning in July after they have finished flowering is beneficial. The cutting away at that time the old wood will encourage vigorous growth which will produce an abundance of flowers next season.

American Pillar. A large single flower of a lovely shade of pink borne in immense bunches. (XX) 60c; (A) 40c

Climbing American Beauty. A vigorous grower, frequently making canes 10 to 12 feet long. A pleasing deep rose-pink, splendid form, good substance. (XX) 60c; (A) 40c

Crimson Rambler. Brilliant shell-pink. (XX) 60c; (A) 40c

Dr. W. Van Fleet. The long pointed buds are of a rich flesh-pink on stems 12 to 18 inches long. An exquisite variety, splendid for cutting. (XX) 60c; (A) 40c

Jacotte. A beautiful, large, semi-double flower of orange-apricot, tinted copper. Delightfully fragrant. The moderately vigorous plant has shiny, holly-like foliage which is unusually attractive. (XX) 75c; (A) 50c

Mary Wallace. A pillar Rose making a fine self-supporting plant, with large, glossy foliage. Flowers very large, well formed, semi-double, of a bright clear rose-pink with salmon base. (XX) 60c; (A) 40c

Paul's Scarlet Climber. Semi-double flowers are freely produced in large clusters on much branched canes. Strong climbing habit and perfectly hardy. (XX) 60c; (A) 40c

Silver Moon. Immense creamy white flowers with a bunch of yellow stamens in the center, on long stems. Foliage is glossy, leathery and disease free. The most popular white climber. (XX) 60c; (A) 40c

SHRUB ROSES

We list here various types and species that are of strong habit and growth, especially adapted to planting in mixed borders, in separate beds or as individual specimens in borders.

Hybrid Rugosa, Conrad F. Meyer. Large flowers of clear silvery rose. (XX) 75c; (A) 50c

Hansa. Very attractive, double reddish violet, strong habit of growth. (XX) 75c; (A) 50c

F. J. Grootendorst. Shining deep green foliage, very bushy in growth, bright crimson "baby rambler" flowers. A beautiful Rose for hedges and any other ornamental planting. (XX) 75c; (A) 40c

Max Graf, Trailing Rugosa. An excellent pillar or climbing Rose but most valuable as a ground cover. The foliage resembles Rosa Rugosa and is retained very late in the season; large single bright pink flowers. For planting on a steep bank or trailing over a stone wall it has no equal. (XX) 60c; (A) 40c

Pink Grootendorst, Rugosa. Pretty clear pink, single flowers. Everblooming Baby Rugosa type blooms. (XX) 75c; (A) 50c

Sir Thomas Lipton, Rugosa. Single snowy white flowers. Another fine variety for steep banks and to trail over rocks. (XX) 75c; (A) 50c

ROSE SPECIES

Rosa Blanda (Meadow Rose). 4 ft. Upright thorny red branches. Single pink flowers. Red fruit.

1 1/2 to 2 ft., 50c; 3 to 4 ft., 75c

Hugonis (Golden Rose of China). 6 ft. Bright yellow flowers produced on long arching sprays early in May. Glossy green foliage. May be trained on fence or trellis.

1 1/2 to 2 ft., 50c; 2 to 3 ft., 75c

Humilis. A prostrate variety with single pink flowers. 1 1/2 to 2 ft., 50c; 2 to 2 1/2 ft., 75c

Lucida (Virginia Rose). 6 ft. Single, light pink flowers. Long arching branches. Red fruit.

1 1/2 to 2 ft., 50c; 2 to 3 ft., 75c

Multiflora Japonica. Single rose-pink flowers. Long arching green branches. This variety bears red fruit in the fall.

2 to 3 ft., 50c; 3 to 4 ft., 75c

Nitida (Bristly Rose). 4 ft. Rather dwarf shrub with numerous prickles and bristles, single pink flowers. Red fruit.

1 1/2 to 2 ft., 50c; 2 to 3 ft., 75c

Palustris (Swamp Rose). 8 ft. An upright shrub with slender stems. Pretty single flowers. Prefers a moist situation.

1 1/2 to 2 ft., 50c; 2 to 3 ft., 75c

Rosa Rouletti. Bushy little plants about 6 inches in height and as much in diameter, blooming continuously from spring until frost. The tiny flowers, less than an inch across, are pale rose-pink, and double. For the rock garden, an edging in front of Rose beds, as a pot plant, or a specimen in a Japanese or miniature garden, they are unsurpassed. Perfectly hardy. Pots, XX, 50c; A, 35c

Rubiginosa (Sweetbrier). 6 ft. A handsome hardy, compact shrub with bright green foliage which has an agreeable aromatic odor. Pale pink flowers, red fruit.

1 1/2 to 2 ft., 50c; 2 to 3 ft., 75c

Rubrifolia (Red-Leaved Rose). 6 ft. Upright shrub with slender red branches and leaves. Very striking because of its reddish foliage.

1 1/2 to 2 ft., 50c; 2 to 3 ft., 75c

Rugosa (Rugosa Rose). 5 ft. Rough, heavy green foliage, very dense. Large single red flowers.

1 1/2 to 2 ft., 40c; 2 to 3 ft., 60c

Setigera (Prairie Rose). 6 ft. Extra thorny, green-branched Rose. Tall, strong growing. Will do well in hot and dry locations. Red fruit.

1 1/2 to 2 ft., 50c; 2 to 3 ft., 75c

Wichuraiana (Memorial Rose). A trailing type very useful in covering banks or for naturalizing. Pretty pink flowers. Blooms about Decoration Day.

2 years, medium, 40c; 2 years, No. 1, 60c

AUSTRIAN BRIER

Star of Persia. Large single and semi-double bright yellow flowers which do not fade. Very hardy. XX grade, 75c; A grade, 50c

Cole's "XX" Roses are the Finest Obtainable and "Guaranteed" to Grow

The New Aristocrat Rose Group

Our Newest and Finest Introductions

Each Rose Has Previously Bloomed in the Nurseries. Cole's XX Plants are Guaranteed to Grow and Bloom In Your Garden This Season . . .

*Gorgeous, Hardy, Thrifty
Everblooming Roses*

**That are Sure to Please You
Long Stems . . . Excellent for Cutting**

E. G. HILL
A beautiful long bud, perfect form, high-centered flower. Grade XX, 75c; Grade A, 50c.

MRS. E. P. THOM
Slender buds developing into well-shaped blooms. Grade XX, 75c; Grade A, 50c.

PRES. HERBERT HOOVER
A charming combination of colors, developed into tones of unbelievable richness. The best of the hybrid teas for the average garden. Grade XX, 75c; Grade A, 50c.

BETTY UPRICHARD
A delightful two-toned Rose, spicy fragrance. Grade XX, 75c; Grade A, 50c.

PRESIDENT PLUMECOCQ
Ovoid buds opening into large flowers. Long lasting and fragrant. Grade XX, 90c; Grade A, 60c.

MRS. SAM MCGREDY
One of the finest Roses we have ever seen. Beautifully formed flowers with a distinct glow. Grade XX, 90c; Grade A, 60c.

CONDESA DE SASTAGO
A strong grower and a perfect beauty. A vivid red and gold combination, making lovely bouquets. Grade XX, 90c; Grade A, 60c.

DIRECTOR RUBIO
Mammoth flowers. One of the most striking Roses in the garden. Grade XX, 90c; Grade A, 60c.

Cole's Friendly Evergreens For Home Planting

Cole's Evergreens give a feeling of richness to the home landscape, especially during the winter months when the ground is covered with snow and when other shrubs and trees have lost their foliage. In planting Cole's Evergreens every specimen counts very distinctly, as they are so very definite in their habit, color and texture. That is why, in obtaining your evergreens at Cole's you may be sure of securing plants that have been selected, and grown with great care, and you are also sure of obtaining evergreens that have been freshly dug.

Cole is constantly root-pruning, transplanting, shearing, and spraying a large acreage of evergreens, so you may be assured of pleasing success in planting Cole's Evergreens.

Cole's Evergreens, as well as other plants, can be supplied any size desired in large, full specimens where certain effects and more immediate results are wanted.

Write if you do not see the exact item and size required.

Definition of Descriptive Terms

Cono. Spread two-thirds to three-quarters the height.

Colum. Cylindrical in growth. Spread about one-fourth to one-third the height.

Spire. Cylindrical in growth, spread about one-fourth to one-third the height, coming to a point at the top.

Low-Spreading. Branches growing horizontal.

Globe. Ball-shaped, perfectly round.

Oval. Oval-shaped. Spread about two-thirds the height.

Cushion. Spread about one and one-half times the height.

Trailing. Branches rest on ground.

Pyramid. Spread one-third to one-half the height.

ABIES - Fir

Concolor (White Fir). 50 ft. The showiest of all Firs because of its glaucous blue needles. It retains all of its lower branches and is the best of the Firs to withstand heat and drought. A distinctly conical form giving a very dignified appearance.

2 1/2 to 3 ft., \$3.50; 3 to 4 ft., \$4.50

JUNIPERUS - Juniper

The Junipers, which comprise probably the largest group of cultivated evergreens, vary in form and color from trailing species to upright pyramidal trees, and from silver-gray to deep green foliage. They are difficult to describe as a group but all do have a characteristic, rather fine, prickly foliage. Junipers are easily trimmed and kept within bounds by shearing, or by cutting back the branches of the long, horizontal branched varieties.

Chinensis columnaris glauca (Columnar Juniper). 15 ft. A slender tapering spire with gray-green foliage. Rapid growing and undoubtedly the best substitute for our native Red Cedar. Shear yearly to induce dense, compact foliage. 1 1/2 to 2 ft., \$2.50; 2 to 3 ft., \$3.50; 3 to 4 ft., \$4.50; 4 to 5 ft., \$5.75

Chinensis mascula. 10 ft. A rapid-growing variety, native to China and Japan. Thrives in hot, dry locations, and endures bitter cold. Makes a fine grayish green column.

2 1/2 to 3 ft., \$3.50; 3 to 4 ft., \$4.50

Chinensis Pfitzeriana (Pfitzer Juniper). 4 ft. Low spreading type with beautiful olive-green foliage on long arching branches. Valuable as a transition between the lawn and taller evergreens, for foundation planting and for the rock garden. One of the hardiest and best evergreens. 12 to 15 in. spread, \$1.50; 15 to 18 in. spread, \$1.95; 1 1/2 to 2 ft. spread, \$2.50; 2 to 2 1/2 ft. spread, \$3.50

Communis depressa plumosa (Purple Spreading Juniper). A rapid dwarf-growing Juniper of comparatively recent origin. In the fall it takes on an unusually attractive, rich purple-bronze color. The spring and summer color is rich bright green. It seldom raises its branches over 18 inches off the ground.

12 to 18 in. spread, \$1.90; 1 1/2 to 2 ft. spread, \$2.50

Communis hibernica (Irish Juniper). 6 ft. Narrow column, very formal in outline and decidedly valuable in the making of gardens where architectural features are strongly emphasized. Foliage glaucous green. The structure of the tree is different from other trees in that it has, instead of a single stem, numerous branches that grow upright from the base of the tree. 1 1/2 to 2 ft., \$1.25; 2 to 2 1/2 ft., \$1.60; 2 1/2 to 3 ft., \$2.10; 3 to 4 ft., \$2.75

Communis suecico (Swedish Juniper). 6 ft. A columnar narrow grower resembling the Irish Juniper. Foliage is lighter and of more bluish color, with close growing prickly needles and numerous upright stems. 1 1/2 to 2 ft., \$1.40; 2 to 3 ft., \$1.80

Exceiso stricto (Spiny Greek Juniper). 4 ft. This variety forms a tall, dense, symmetrical conical head, tapering from the ground to a sharp terminal point. It is a fine glaucous color with very close growing prickly needles. 12 to 15 in., \$1.65; 15 to 18 in., \$2.15; 1 1/2 to 2 ft., \$2.75; 2 to 2 1/2 ft., \$3.50

Horizontalis (Trailing Juniper). 1 1/2 ft. A true creeper, resting close to the ground. The branches take root at intervals, making a dense mat. Extra fine dark green foliage. Excellent for planting on banks. Will withstand the most severe conditions.

15 to 18 in. spread, \$1.75; 1 1/2 to 2 ft. spread, \$2.25

Horizontalis Douglasi. 1 1/2 ft. An interesting creeping Juniper. very low and compact, making a dense mat. Soft blue color in spring and summer, changing to a rich purple color in the fall.

15 to 18 in. spread, \$1.75; 1 1/2 to 2 ft. spread, \$2.25

Prostrata venusta. 6 in. A very dwarf compact evergreen with marine-blue foliage. This is especially fine for the front of the border, and can be used in rock gardens. The growth is prostrate, hugging the ground as closely as any variety we know, with delightfully round-shaped heads. 9 to 12 in. spread, \$1.50; 15 to 18 in. spread, \$2.25

Sabino (Savin Juniper). 4 ft. Its branches are spreading and dense, and abundantly furnished with short, straight, tufted branchlets which are well clothed with dark green foliage. Planted 3 to 4 ft. apart it forms an excellent border to larger evergreens in the back-ground. It does well in smoky atmospheres.

15 to 18 in. spread, \$1.65; 1 1/2 to 2 ft. spread, \$2.25

Sabina horizontalis (Bar Harbor Juniper). 1 ft. Another good creeper unusually thrifty and of extra fine color. Being native to the coast of Maine it can stand extreme exposure. The foliage can best be described as a "marine blue."

15 to 18 in. spread, \$1.65; 1 1/2 to 2 ft. spread, \$2.25

Scopulorum (Colorado Silver Juniper). 15 ft. A native of Colorado and Montana, therefore it is one of our best trees for severe conditions of heat, drought and cold. It has only one stem, making it safe from heavy snows and wind. The inner foliage does not turn brown but remains a beautiful blue throughout the tree. Tall, spire-like in form. 3 to 4 ft., \$4.50; 4 to 5 ft., \$5.75; 5 to 6 ft., \$7.50; 6 to 7 ft., \$10.00

Big, Heavy Balled and Burlapped Landscape Evergreens

JUNIPERUS—Continued

Scopulorum, Chandler's Silver. A new, narrow type with close growing branches ascending almost vertically, making a lovely spire; as intensely silver-blue as any evergreen, rivaling in color the famous Koster's Blue Spruce. 2½ to 3 ft., \$4.00; 3 to 4 ft., \$5.50

Squamata Meyerl (Meyer Juniper). 4 ft. The leaves are plump, pointed and prickly, and of shining blue color. It grows in an irregular cushion form, making an ideal plant for the rock garden or around a pool. It is perfectly hardy and does well in all parts of the country. It never fails to attract attention. 12 to 15 in., \$1.65; 15 to 18 in., \$2.00; 1½ to 2 ft., \$2.50; 2 to 2½ ft., \$3.25

Virginiana (Red Cedar). 25 ft. This tree is one of our oldest, most popular and best known evergreens. Cole grows only the compact and distinct conical form. Red Cedar often grows naturally in gravelly hillsides and is excellent for planting in poor sandy soils. 3 to 4 ft., \$2.75; 4 to 5 ft., \$4.00; 5 to 6 ft., \$5.25; 6 to 7 ft., \$7.50

Virginiana Cannarti (Cannart Red Cedar). 14 ft. A leading form having deep rich green foliage, retaining its good appearance throughout the winter. It makes a pyramidal specimen of medium size, but can be readily trimmed and maintained at any size desired. Some trees bear blue and silver berries in the fall, greatly enjoyed by birds. 2½ to 3 ft., \$3.50; 3 to 4 ft., \$4.50; 4 to 5 ft., \$5.75; 5 to 6 ft., \$7.50

Virginiana elegantissima (Gold-Tip Red Cedar). 8 ft. Here is a tree that will give you variation to the blue and green colors of other evergreens. It is rather broad and bushy, with slightly drooping foliage. The new growth in the spring is creamy golden color, gradually darkening to old gold as the season progresses. Most attractive when used in combination with other varieties. 1½ to 2 ft., \$2.75; 2 to 2½ ft., \$3.50

Virginiana glauca (Silver Red Cedar). 20 ft. A well-known and ever-popular favorite due to its silvery blue color and conical shape. Easily trimmed and made to grow in a formal shape. Grows vigorously in any location and therefore is a most satisfactory tree. 1½ to 2 ft., \$2.25; 2 to 3 ft., \$3.25; 3 to 4 ft., \$4.25; 4 to 5 ft., \$5.25

Virginiana Keteleeri (Keteleer Red Cedar). 12 ft. An improved Red Cedar, making a compact, conical, formal outline. Its foliage is a lovely dark green. Sometimes called the "Aristocrat" of the Juniper family. 1½ to 2 ft., \$2.50; 2 to 3 ft., \$3.50

Virginiana Kasteri (Koster Red Cedar). 3 ft. A semi-dwarf tree with naturally spreading, graceful, arching stems 2 to 3 feet tall. Unusually handsome, it proves useful in many ways in landscaping. Foliage bluish green in color. Just the tree to overhang rocks in rock gardens and use around pools. 15 to 18 in. spread, \$1.90; 1½ to 2 ft. spread, \$2.50

Virginiana pyramidiformia (Dundee Juniper). 10 ft. Foliage is bluish gray in the spring and summer changing to a plum shade in the fall. You can create new interest in your plantings by using this unusual type. The growth is conical with dense branches, naturally formal without trimming. 1½ to 2 ft., \$2.50; 2 to 3 ft., \$3.50

PICEA - Spruce

Spruce are characterized by short, stiff needles, sometimes slightly curving. All are of a more or less horizontal branching habit and may be kept compact in growth by trimming back the ends of the branches to the first two diverging branchlets. Cole's extra fine specimens may be planted as ornamental lawn specimens, singly or in groups, or in formal entrance plantings. Spruce are also extensively used for wind-breaks.

Canadensis albertiana (Black Hills Spruce). 50 ft. The Black Hills Spruce is the hardiest of all Spruces. They are white Spruce originally found growing in the Black Hills of South Dakota. They are symmetrical, compact, bushy in growth. The foliage varies from green to a bluish tint and all trees are remarkable for their bright fresh color and density of foliage. 1½ to 2 ft., \$1.50; 2½ to 3 ft., \$2.25; 3 to 4 ft., \$2.90; 4 to 5 ft., \$3.90

For Immediate Effects

Excelsa (Norway Spruce). 70 ft. One of the most popular quick-growing evergreens adapted for many purposes. Especially valuable for wind-breaks, hedges, and reforestation. Makes a tall conical shaped specimen often used as a living Christmas Tree. 1½ to 2 ft., \$1.35; 2 to 3 ft., \$1.75; 3 to 4 ft., \$2.25; 4 to 5 ft., \$3.25

Excelsa Pygmaea (Pygmy Norway Spruce). This is the smallest and most dense growing of all the Spruces. Extremely slow growing, it makes a fairly compact conical little bush with very short branches. To give some idea as to how slow it grows, there is at The Kew Gardens in England, a specimen about 3 to 3½ feet that is known to have been in cultivation for at least 140 years. 12 to 18 in., \$3.75; 1½ to 2 ft., \$4.75

Pungens (Colorado Green Spruce). 60 ft. Native of the Colorado mountains. Hardy, shapely, tall tree suitable as a lawn specimen. Foliage varies from green to blue-green. 2 to 3 ft., \$1.90; 3 to 4 ft., \$2.75; 4 to 5 ft., \$3.75; 5 to 6 ft., \$4.95

Pungens glauca (Blue Colorado Spruce). 60 ft. Broad cone, symmetrical and slow-growing. One of the showiest and most impressive of evergreens. It will command attention wherever planted. Its beautiful blue foliage is surpassed only by the grafted Koster's Blue Spruce. 2 to 3 ft., \$3.75; 3 to 4 ft., \$4.75; 4 to 5 ft., \$5.90; 5 to 6 ft., \$7.75

Pungens glauca Kasterl (Koster's Blue Spruce). 50 ft. An outstanding cone-shaped tree, very slow growing. The most famous ornamental tree we have. The brilliant silvery blue foliage cannot be outshone by any other variety. Considered the choicest tree we grow. 1½ to 2 ft., \$3.50; 2 to 3 ft., \$4.50; 3 to 4 ft., \$6.75; 4 to 5 ft., \$9.75

PINUS - Pine

The Pines are characterized by long, thin needles in groups of two to five and by the "candles" which appear for a few weeks in spring. Like the Spruce, they can be kept compact in growth by trimming back the ends of the branches to the first diverging branchlets.

Montana (Swiss Mountain Pine). 10 ft. This differs from the Mugho Pine in that it has a main stem or leader which dominates the tree. The branches grow in a compact conical shape, broad at the base and tapering at the top. 1½ to 2 ft., \$1.95; 2 to 3 ft., \$2.90

Montana mughus (Dwarf Mountain Pine). 3 ft. A dwarf, spreading Pine with heavy dark green foliage. The needles are short, stiff and thickly distributed. The long, silvery "candles" in spring give it the appearance of blooming. Very desirable for foreground, foundation, rock garden or bank planting. 15 to 18 in. spread, \$1.75; 1½ to 2 ft. spread, \$2.50; 2 to 2½ ft. spread, \$3.25; 2½ to 3 ft. spread, \$4.25

Nigra (Austrian Pine). 60 ft. Broad oval. A solid mass of richest green, formed by the long green needles, and heightened in spring by the long, silvery "candles." Very hardy, vigorous, and dense in growth. A beautiful tree for specimen, entrance, or border planting. 3 to 4 ft., \$3.75; 4 to 5 ft., \$4.90

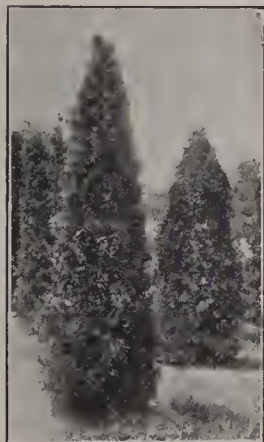

Strabus (White Pine). 80 ft. The largest of all conifers and native to the eastern part of the United States. Grows in a straight evenly branched form and has long, soft flexible needles, whitish underneath. It readily adapts itself to both dry and moist soils and will grow in practically any location. This variety for Ohio, New York, and New England shipment only. 4 to 5 ft., \$4.50; 5 to 6 ft., \$6.00

PSEUDOTSUGA

Douglasi (Douglas Fir). 60 ft. Its general outline is more graceful and less stiff than the Spruce. The bluish green foliage is soft and fragrant. The growth is compact and symmetrical with rather short needles. A rapid grower and thrives well in most any situation. Plant with plenty of room for future development. 2 to 3 ft., \$1.90; 3 to 4 ft., \$2.90; 4 to 5 ft., \$4.25; 5 to 6 ft., \$6.00

NOTE: We have many more trees than listed here. If you need larger sizes than listed, write us.

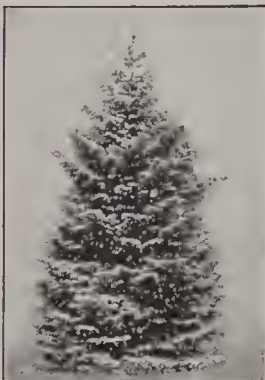

Fresh from the Nurseries at Painesville

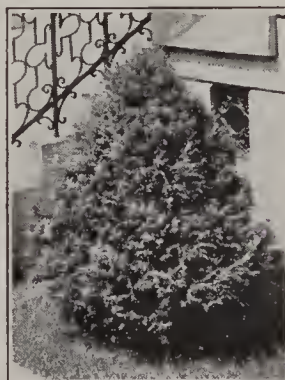

Pyramidal Arbor-Vitae

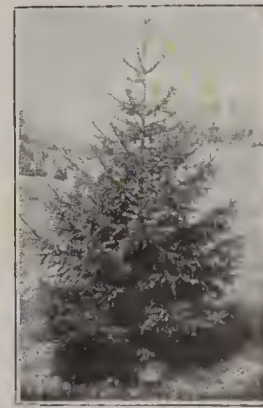

Colorado Spruce

Douglas Fir

Golden Plume Cypress

Norway Spruce

Evergreens (and Plenty of Them Are a Part of the American Home — The Attractive Outside Leads to An Inviting Interior)

RETINOSPORA - Cypress

Known botanically as *Chamaecyparis* but inasmuch as they are not very well known under that name we will continue to list them as *Retinospora*. A family of highly ornamental garden forms with a generous variety of texture, color of foliage and shapes. They are greatly benefited by shearing in early June to encourage dense and compact foliage and to keep in proper shape and stature. They grow best in moist but well-drained soil, but will be equally successful in other locations.

Filifera (Thread Cypress). 10 ft. A most ornamental tree with deep green stringlike drooping foliage which it retains at all seasons of the year. Best of all it thrives in more or less shady places and is extremely effective in foundation plantings.

1½ to 2 ft., \$1.75; 2 to 3 ft., \$2.40

Filifera aurea (Golden Thread Cypress). 5 ft. The best of all the golden Cypresses. It is very similar to the Thread Cypress in style of plant, but is slower in growth and keeps its rounded compact form for many years. The foliage is bright golden yellow, making a beautiful contrast when used with other evergreens.

15 to 18 in., \$1.90; 1½ to 2 ft., \$2.75

Pisifera (Sawara Cypress). 15 ft. This variety was first found in the forests of Japan and introduced to America in 1861. It is an upright graceful tree, slightly pendulous at the ends of the branches, very rapid growing and perfectly hardy.

1½ to 2 ft., \$1.50; 2 to 3 ft., \$2.00

Pisifera aurea (Golden Sawara Cypress). 15 ft. Characteristically it is the same as the above, differing in the bright yellow color of its spring foliage. An excellent tree to interspace with green and bluish evergreens of other types.

1½ to 2 ft., \$1.50; 2 to 3 ft., \$2.00

Canadian Hemlock. Foliage dark green, lacy, close-set, drooping gracefully. Used extensively in foundation plantings of corners. The best evergreen in heavy shade.

Plumosa (Plume Cypress). 12 ft. Soft feathery light green foliage and very graceful. To keep it dense, compact, and colorful, it should be sheared in the middle of June. This variety is particularly fine for foundation plantings.

1½ to 2 ft., \$1.50; 2 to 3 ft., \$2.00

Plumosa aurea (Golden Plume Cypress). 12 ft. A golden form of *Plumosa*. One of the most popular evergreens and particularly liked for its rich yellow foliage. It shows up well among the more somber greens and greys of other varieties.

1½ to 2 ft., \$1.50; 2 to 3 ft., \$2.00

Plumosa compacta aurea (Dwarf Golden Plume Cypress). 4 ft. A dwarf naturally compact form of the above. It grows in a globe or broad conical shape and has a beautiful intensely golden foliage that blends well with any plant.

15 to 18 in., \$1.90; 1½ to 2 ft., \$2.40

Squarrosa (Silver Cypress). 10 ft. A highly ornamental tree from Japan with fleecy bluish gray foliage quite distinct from that of other evergreens. It should be planted in somewhat sheltered positions where its unusual beauty will repay the attention given.

1½ to 2 ft., \$1.50; 2 to 3 ft., \$2.00

TAXUS - Yew

No doubt the most popular evergreen in America. Its chief characteristics are its longevity, slow growth and luxuriant dark green foliage the year around. The various garden varieties provide many different forms and shapes. They are absolutely hardy, easily trimmed and well suited for hedges. They usually thrive best in moderately moist sandy loam and endure shade very well. An excellent plant for foundation planting.

Canadensis (Canada Yew). A prostrate spreading shrub, rarely over 2 ft. high; foliage light green, assuming in winter a reddish tint. Requires a moist soil and a shady location.

15 to 18 in., \$2.75; 1½ to 2 ft., \$3.50

Baccata repandens (Spreading English Yew). 2 ft. A low growing spreading habit almost trailing, having glossy dark green foliage. One of the best for withstanding smoky conditions.

12 to 15 in. spread, \$1.90;
15 to 18 in. spread, \$2.50

Cuspidata (Japanese Yew). A compact spreading variety with attractive dark green foliage. Valuable for many locations and perfectly hardy. Very popular as a hedge or foundation plant. Informal and spreading in shape. If allowed it will grow to be 6 to 8 ft. tall, but can easily be sheared to keep within bounds. Grows well in either sun or shade.

12 to 15 in. spread, \$1.90; 15 to 18 in. spread, \$2.50;
1½ to 2 ft. spread, \$3.50; 2 to 2½ ft. spread, \$4.50

Cuspidata capitata (Upright Japanese Yew). 8 ft. This is the upright or pyramidal form of Japanese Yew. It is naturally rather open in growth but can be kept extremely dense and compact by shearing. Has rich, dark green foliage, almost black. Exquisitely beautiful and covered with yellow-green tips in the spring. It is useful among the broad-leaved evergreens and makes an excellent effect as a specimen. A most desirable variety for any purpose. It should be planted liberally.

15 to 18 in., \$2.00; 1½ to 2 ft., \$2.75;
2 to 2½ ft., \$4.00; 2½ to 3 ft., \$5.50

Cuspidata nana (Dwarf Japanese Yew). 3 ft. Dense compact dark green foliage; grows into an irregular globe shape. Very slow growing. Very hardy dwarf hedge or specimen plant of unsurpassed beauty and permanence. Withstands clipping well and will thrive in unfavorable locations where other evergreens perish.

9 to 12 in., \$1.75; 12 to 15 in., \$2.50;
15 to 18 in., \$3.50; 1½ to 2 ft., \$4.50

Media Hicksi (Hicks' Yew). 7 ft. Oval to columnar. Dense and compact in growth, very symmetrical. A fine, bushy specimen; excellent for balancing entrance plantings, for hedges, and for foundation or group plantings.

15 to 18 in., \$2.00; 1½ to 2 ft., \$2.90

THUYA - Arbor-Vitae

The wide variety of sizes and forms of *Arbor-Vitae* facilitates and suggests their use as accents, hedges, screens or outdoor tub plants, or for planting in groups. The foliage is composed of a scalelike covering of fine branchlets and is characteristic in all the forms. The *Arbor-Vitae* respond readily to any shearing which follows their natural form of growth and may be kept within bounds easily.

Occidentalis (American *Arbor-Vitae*). 20 ft. This variety stands trimming well and for this reason is widely used for hedge purposes. A pyramid growing bushy at the bottom and tapering toward the top. Foliage is very soft and lacy and of a shiny deep green color. A moist location is preferred.

2 to 3 ft., \$1.40; 3 to 4 ft., \$1.90;
4 to 5 ft., \$2.50; 5 to 6 ft., \$3.50

Occidentalis compacta (Pursons' *Arbor-Vitae*). 3 ft. This is a very dwarf ball-shaped form with light green foliage.

15 to 18 in., \$1.35; 1½ to 2 ft., \$1.60

Taxus is always green, hardy, disease resistant

THUYA—Continued

Occidentalis Douglasi aurea (Douglas Golden Arbor-Vitae). 12 ft. Forms a dense broad bushy pyramid. The foliage is decidedly golden, very bright in the spring, keeping its color well. It is best displayed when planted with a background of darker shades of green. Grows in any ordinary good soil and does especially well in a moist cool location.

3 to 4 ft., \$2.25; 4 to 5 ft., \$3.00

Occidentalis elegantissima (Gold-Tip Arbor-Vitae). 15 ft. A pyramidal shaped tree with a broad base. The tips of new growth are golden yellow, later on changing to a light green. A dense, hardy, long lived variety. This is our favorite in its type.

1½ to 2 ft., \$1.40; 2 to 3 ft., \$1.90;
3 to 4 ft., \$2.50; 4 to 5 ft., \$3.00

Occidentalis Ellwangeriana (Tom Thumb Arbor-Vitae). 5 ft. A low, oval, compact variety with dense foliage. This is a plant of dwarf and very graceful habit. Fine, feathery, light gray-green foliage.

1½ to 2 ft., \$1.50; 2 to 3 ft., \$2.25

Occidentalis glabasa (Globe Arbor-Vitae). 4 ft. A slow growing, low, dense, globe-shaped variety that is useful for border planting and very satisfactory for low growing hedges. Planted in tubs they make an excellent formal effect.

12 to 15 in., \$1.25; 15 to 18 in., \$1.40;
1½ to 2 ft., \$1.75; 2 to 2½ ft., \$2.25

Occidentalis Haveyi (Havey Arbor-Vitae). 6 ft. A low oval form with bright foliage of a golden tinge; splendid for formal plantings and for low accent points. The colored foliage is an added charm in mixed plantings.

15 to 18 in., \$1.40; 1½ to 2 ft., \$1.75

Occidentalis lutea (George Peabody Arbor-Vitae). 10 ft. The striking golden yellow hue of this plant contrasts splendidly against the gray and greens of other evergreens. Similar in growth to the American Arbor-Vitae.

2 to 3 ft., \$1.75; 3 to 4 ft., \$2.25

Occidentalis plicata (Moss Arbor-Vitae). 12 ft. Of narrow spirelike form with compact, heavy deep green foliage having a novel spiral twist. An excellent plant to be used as an accent and especially useful as a specimen.

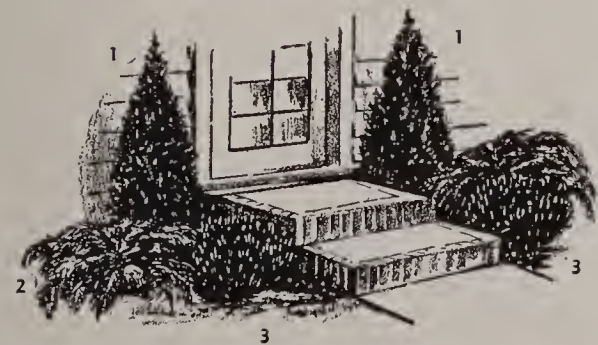

1½ to 2 ft., \$1.25; 2 to 2½ ft., \$1.75

Occidentalis pyramidalis (Pyramid Arbor-Vitae). 20 ft. This is one of the best. Very densely branched, of a distinct columnar growth and maintains its rich dark green color throughout the winter. Very satisfactory for hedges of medium height, for foundation plantings and for use in tubs.

1½ to 2 ft., \$1.40; 2 to 3 ft., \$1.80;
3 to 4 ft., \$2.50; 4 to 5 ft., \$3.50;
5 to 6 ft., \$4.50; 6 to 7 ft., \$5.50

Occidentalis umbraculifera (Umbrella Arbor-Vitae). 4 ft. A low growing plant, narrow at the base with a wide cushion-shaped head raised in the center not unlike an umbrella. The foliage is thin and dark green, and does not tinge brown in the winter. Plant is hardy and desirable for bedding and foundation.

15 to 18 in., \$1.40; 1½ to 2 ft., \$1.90

For the correct way to plant evergreens, select according to numbers indicated.

No. 1—Pyramidal Arbor-Vitae, American Arbor-Vitae, or Irish Juniper.

No. 2—Pfitzer's Juniper or Savin Juniper.

No. 3—Mugha Pine, Globe Arbor-Vitae, Tom Thumb Arbor-Vitae.

Occidentalis Vervaeana (Vervaeke Arbor-Vitae). 10 ft. A very choice variety of dense habit and bright green foliage. Grows in a broad, bushy, pyramid shape and is very hardy. Foliage varies from a light gray-green to a yellow green.

1½ to 2 ft., \$1.40; 2 to 3 ft., \$1.90;
3 to 4 ft., \$2.50; 4 to 5 ft., \$3.25

Occidentalis Wareana (Siberian Arbor-Vitae). 7 ft. The name Siberian has been given to this because of its rugged constitution. A symmetrical compact grower and very long lived. Valuable for foundation plantings and also desirable for a broad hedge of medium height. A most satisfactory variety.

1½ to 2 ft., \$1.40; 2 to 3 ft., \$1.90

Occidentalis Woodwardi (Woodward Globe Arbor-Vitae). 3 ft. A globe-shaped Arbor-Vitae giving our customers the best satisfaction. It maintains a natural globe shape without trimming and under fit conditions will reach 3 feet in height and diameter. It is especially fine for low borders, for formal uses, for tubs or for foundation use.

15 to 18 in., \$1.40; 1½ to 2 ft., \$1.90

Orientalis (Oriental Arbor-Vitae). 12 ft. A neat growing variety, with short, attractive, intensely green foliage. It is pyramidal in shape and should be planted in a protected or screened location.

3 to 4 ft., \$2.00; 4 to 5 ft., \$2.75;
5 to 6 ft., \$3.50; 6 to 7 ft., \$4.50

Orientalis aurea (Golden Oriental Arbor-Vitae). 8 ft. A bright golden spirelike form of the above. A fine, tall accent plant useful for varying color.

1½ to 2 ft., \$1.90; 2 to 3 ft., \$2.50

Orientalis nana aurea (Berckman's Golden Arbor-Vitae). 3 ft. Dwarf in habit; grows into a broad oval-shaped plant. Brilliant golden foliage. Very attractive. Excellent for tubbing.

9 to 12 in., \$1.25; 12 to 15 in., \$1.75;
15 to 18 in., \$2.25; 1½ to 2 ft., \$2.90

TSUGA - Hemlock

Canadensis (Canadian Hemlock). 70 ft. Tall pyramid. A most beautiful and graceful tree, with darkly lustrous and lacy, closely set foliage. Hemlock does well in either shade or sun and shears easily into formal specimens or hedges. Cole has a very fine collection of these marvelous trees. Use them for any planting requirements.

1½ to 2 ft., \$1.75; 2 to 3 ft., \$2.50;
3 to 4 ft., \$3.50; 4 to 5 ft., \$4.50;
5 to 6 ft., \$6.00; 6 to 7 ft., \$7.50

Caroliniana (Carolina Hemlock). 50 ft. Broad pyramid. Very distinctive with slightly silvered, dark green foliage. Has all the same fine characteristics of the Canadian Hemlock above.

2½ to 3 ft., \$3.50; 3 to 4 ft., \$4.75

GLOBE ARBOR-VITAE

Round, bushy and compact, exceptionally hardy and a well-known favorite.

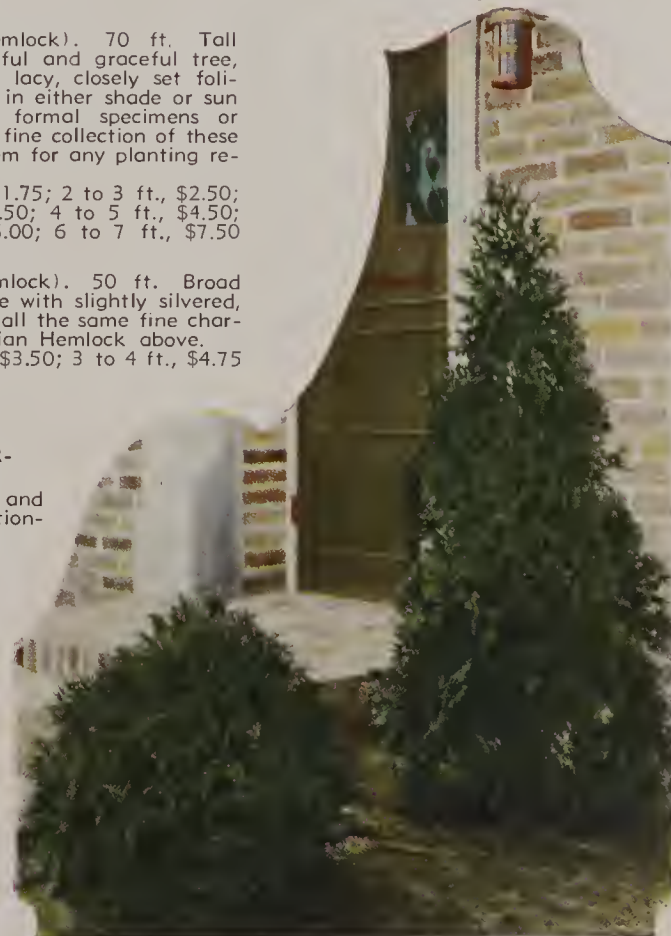

PYRAMIDAL ARBOR-VITAE

(At right)

The dense compact growth of the narrow pyramidal form and its ability to withstand the severe conditions in our northern states makes this an excellent variety.

Koster's Blue Spruce. Compact grower, symmetrical, and one of the most beautiful specimen trees grown.

Cole's Hardy Perennial Plants

Achillea, The Pearl

Eulalia—Pampas Grass

Convallaria—Lily-of-the-Valley

All gardeners and lovers of flowers know about the importance of hardy plants in the garden. How they grow larger and finer each year when given modest care.

You can enjoy the blooms of perennial plants from early spring until late fall if you use a little care in selecting your varieties. The most successful garden can be obtained by planting early in the spring and early in the fall. It is advisable to have at least 3 plants of a variety, so as to make a clump; use more if your space permits. You will find that your garden will be easier to care for and more satisfactory.

We offer you in the following pages the better varieties and some of the latest novelties. Be sure to keep in mind that all of our plants are field grown and are not small divisions or pot plants as are sometimes sent out. When it is necessary to send pot plants, they will be well developed, strong and husky so as to give you fine results the first season.

Varieties marked with a ★ are suitable for rock garden planting.

ACHILLEA

★*Ageratifolia*. White flowers appearing on 8-inch stems in midsummer above tufted silvery leaves. 3 for 75c; 10 for \$2.00

Eupatorium (Syn. *filipendula*). Flat heads of brilliant yellow flowers borne on strong stems 3 to 4 feet high. The foliage is finely cut and very neat. Excellent to use in winter bouquets. 3 for 75c; 10 for \$2.00

Millefolium roseum (Rosy Milfoil). Pink flowers on dense heads standing about 18 inches high, blooming continuously from June till October. Just the thing to plant near the edge of the shrub border. 3 for 75c; 10 for \$2.00

The Pearl. Double white flowers in bloom all summer. Can be used as fillers in bouquets. Much prized for cutting. 3 for 75c; 10 for \$2.00

ACONITUM

Fischeri (Monkshood). Spikes of large, clear blue flowers growing 2 to 3 feet high. Foliage is a glossy green. Plants do well in semi-shade. The hardiest and most useful of all Aconitums. 3 for 75c; 10 for \$2.00

AJUGA

★*Reptans* (Bugle). A prostrate growing plant with shiny green leaves, purplish blue flowers in May or June. 3 for 75c; 10 for \$2.00

ALYSSUM - Madwort

★*Saxatile compactum* (Basket of Gold). A very free-flowering attractive perennial for use in the rock garden or near the front of a border. Large heads of bright yellow flowers blooming from April till June. Grows 9 inches high. 3 for 60c; 10 for \$1.50

ANCHUSA - Alkanet

Drapmore. A stately and handsome perennial growing 4 to 5 feet high. Beautiful blue flowers borne in racemes on branching stems. 3 for 75c; 10 for \$2.00

★*Myasatidiflora*. Pale blue forget-me-not flowers blooming profusely during April. Grows only 1 foot high and does well in sun or shade. 3 for 75c; 10 for \$2.00

ANEMONE

★*Pulsatilla* (Pasque Flower). Violet or purple globular flowers during April and May. Grows about 10 inches high and can be used in the rock garden or near the edge of the hardy border. 3 for 75c; 10 for \$2.00

Huphensis. Rose-colored flowers on 18-inch stems borne in profusion during August and September. 3 for 75c; 10 for \$2.00

Queen Charlotte. Semi-double flowers appear during September on 24-inch stems. Color pleasing La-France-pink. 3 for 75c; 10 for \$2.00

Rubra. Rose-colored blooms in great profusion. 3 for 75c; 10 for \$2.00

Whirlwind. Excellent double white flowers. A great favorite. 3 for 75c; 10 for \$2.00

AQUILEGIA - Columbine

Chrysantha. Long-spurred, large golden yellow flowers blooming from May to July. 3 for 75c; 10 for \$2.00

Caerulea. Lovely pale blue and white flowers from the Rocky Mountains. Grows 2 feet high. Blooming from May till July. 3 for 75c; 10 for \$2.00

Scott Elliott Hybrids. A wonderful mixture of delicate colors. Plants are sturdy with attractive foliage. 3 for 75c; 10 for \$2.00

Pink Beauty. Here is a fine, clear pink strain. Their long spurs make this variety unusually attractive both in the border and as a cut flower. 3 for 75c; 10 for \$2.00

ARABIS

★*Alpina*. Pure white flowers produced in dense masses. Excellent for edge of border and rockery. 3 for 60c; 10 for \$1.50

★*Alpina rasea*. Similar in habit to the above. Flowers are delicate pale pink. 3 for 60c; 10 for \$1.50

ARMERIA - Thrift or Sea Pink

Cephalotes rubra. Rich pink globular heads produced on stems 1 foot high. The foliage is dark green, grass-like, with a tufted habit of growth. Blooms from May till July. 40c each; 3 for \$1.00; 10 for \$3.00

★*Lauchiana*. Bright rosy red flowers 4 to 6 inches high. Foliage is grass-like and evergreen. Valuable for edging. 3 for 75c; 10 for \$2.00

ARTEMISIA - Southernwood

Silver King. A silver-leaved border plant, upright in growth, attaining a height of 3 feet. Excellent as an accent in garden or used as fillers in bouquets. 3 for 75c; 10 for \$2.00

ASCLEPIAS - Butterfly Weed

Tuberosa. Brilliant orange-colored flowers produced during July and August on 18-inch stems. Very desirable as a cut flower. 3 for 60c; 10 for \$1.50

DWARF ASTERS

A new and distinct type of Dwarf Asters, very low growing and compact, densely covered with small, daisy-like flowers. This type is very hardy and desirable for the mass of color produced in September when it is most needed. The plants attain a height of a foot and a spread somewhat wider.

★*Countess of Dudley*. A very charming, clear pink with yellow eye, and of dwarf, bushy habit. 30c each; 3 for 75c; 10 for \$2.00

★*Lady Henry Maddocks*. Very free-blooming variety with clear pale pink flowers. 30c each; 3 for 75c; 10 for \$2.00

★*Marjorie*. Large bright rose-pink flowers. 30c each; 3 for 75c; 10 for \$2.00

DWARF ASTERS—Continued

- ***Nancy.** A dwarf, bushy, free-flowering variety with pale flesh-pink flowers.
30c each; 3 for 75c; 10 for \$2.00
- ***Ronald.** Pleasing bright shade of lilac-pink.
30c each; 3 for 75c; 10 for \$2.00
- ***Victor.** Beautiful clear pale lavender-blue.
30c each; 3 for 75c; 10 for \$2.00
- Michaelmas Daisy** (Novae angliae). Sturdy, of neat habit, producing crimson flowers.
3 for 60c; 10 for \$1.50
- Sunset.** Glorious sunset-pink, grows 3 to 4 feet high. A very profuse bloomer.
3 for 60c; 10 for \$1.50
- White Lady.** Pure semi-double flowers freely produced. Best of the whites.
3 for 60c; 10 for \$1.50

AUBRIETIA

- ***Eyri.** Dwarf tufted plant with rosy lilac flowers. Will thrive in partial shade. Use in rock gardens or as a ground cover for bulbs.
3 for 60c; 10 for \$1.50

BAPTISIA

- Australls.** Sturdy plants for the hardy border. Dark blue spikes supported by 2-foot stems, blooming continuously all summer.
3 for 60c; 10 for \$1.50

BOCCONIA

- Cordata.** Excellent for the background of hardy borders or for a screen. Flowers creamy white. Plant reaches a height of 6 to 8 feet.
3 for 60c; 10 for \$1.50

BOLTONIA

- Latisquama.** Pink suffused with lavender, stately plants blooming in August and September.
3 for 60c; 10 for \$1.50

CAMPANULA - Bellflower

- ***Carpatia** (Carpathian Harebell). Clear blue, bell-shaped flowers supported on wiry stems about 8 inches high. The plant is low, compact and neat growing. Blooms from June until August.
3 for 75c; 10 for \$2.00
- Glomerata.** Close heads of deep blue flowers on 18-inch stems blooming from May until August. This plant should be in every garden. It has always enjoyed a popular place in European gardens.
3 for \$1.00; 10 for \$2.50
- Persicifolia coerulea** (Peachbell). Large bell-shaped blue flowers on 2½-foot stems. Blooms from June till September. One of the most imposing of its kind.
3 for 75c; 10 for \$2.00
- Calycanthema** (Cup-and-Saucer Canterbury Bells). One of our best biennial plants. They grow about 18 to 24 inches high, and are extremely showy in borders.
3 for 60c; 10 for \$1.50
- Medium** (Canterbury Bells). Single, blue, pink and white, separate colors.
3 for 60c; 10 for \$1.50

CENTAUREA - Knapweed

- Mantana.** Blue flowers, from June to September, and grows 2 feet high. Fine cut flower.
3 for 75c; 10 for \$2.00

CERASTIUM - Snow-in-Summer

- ***Tomentosum.** Silvery white foliage producing an abundance of white flowers in May. Does well in hot and dry situations.
3 for 60c; 10 for \$1.50

CARNATIONS

- Many shades of pink flowers during June and July. 15-inch stems; spicily fragrant.
- King of Blacks.** Deepest mahogany-maroon, almost black.
3 for 60c; 10 for \$1.50
- Rose Queen.** An excellent pink variety. Profuse bloomer. Fine for cutting.
3 for 60c; 10 for \$1.50
- White Gold.** A pale yellow form. Much prized for cutting.
3 for 60c; 10 for \$1.50
- Mixed.** A fine assortment of colors produced in abundance.
3 for 60c; 10 for \$1.50

CERATOSTIGMA - Leadwort

- ***Plumbaginoides.** Dwarf spreading habit, brilliant blue flowers completely cover the plant in early fall. Excellent for edging walks and beds.
3 for 75c; 10 for \$2.00

CONVALLARIA

- ***Majalis** (Lily-of-the-Valley). This popular plant thrives in semi-shade, excellent to use in the front of the perennial border.
3 for 60c; 10 for \$1.75

CHRYSANTHEMUMS

SEPTEMBER FLOWERING VARIETIES

- Irene.** A snow-white pompon, midseason. Height 3 feet. Each 20c; 10 for \$1.50
- Mitzi.** An excellent button type. Yellow with red center, rather dwarf. Each 20c; 10 for \$1.50
- Mrs. Calvin Coolidge.** A large, single scarlet flower about 2 feet high. One of our finest Chrysanthemums. Height 2 feet. Each 25c; 10 for \$2.00
- Mrs. J. W. Martin.** A new variety with a beautiful shade of orange-rose. Flowers are large and very attractive. Each 25c; 10 for \$2.00
- Mrs. L. Birchard.** A large, light pink variety. Midseason. Height 3 feet. Each 20c; 10 for \$1.50
- Ouray.** A rich, dark mahogany-brown pompon. Very hardy. Midseason. Height 2 feet. Each 20c; 10 for \$1.50
- Ruth Cumming.** A beautiful shade of soft bronzy tones. Very attractive. Each 20c; 10 for \$1.50
- White Doty.** Large pure white, coming at mid-season. 4 feet. Each 20c; 10 for \$1.50

Cole's Select List of Better Chrysanthemums

- Cavalier.** A showy, free-flowering, rich dazzling red that does not fade, having a fine branching habit. Each 25c; 10 for \$2.00
- Champaign.** Exceedingly attractive large flowers of ruby-red. Medium height. Each 25c; 10 for \$2.00
- Crimson Splendor.** Early blooming sort having very large crimson-maroon flowers with gold center. Each 25c; 10 for \$2.00
- Daybreak.** Large, single flowers, soft shell-pink in color, sweetly fragrant. A strong grower. Excellent for cutting. Each 25c; 10 for \$2.00
- Granny Scovill.** A warm coral-bronze color and an extremely large flower. One of the best. Each 25c; 10 for \$2.00
- Grenadier.** Large single flowers of bright bronzy red with golden centers. A strong sturdy plant. Each 25c; 10 for \$2.00
- Jean Treadway.** Large sparkling pink flowers with a darker center. Bushy and very free-flowering. Each 25c; 10 for \$2.00
- Murilla.** Large flowering, glorious lavender-pink. Early blooming. Each 25c; 10 for \$2.00
- Old Orchard.** A beautiful light pink with yellow center. Pompon type. Each 25c; 10 for \$2.00
- Vivid.** A striking variety of a rose-crimson shade. A novelty in early flowering varieties. Vigorous and free-flowering. Each 25c; 10 for \$2.00

Cole offers 10 plants, one each, of the above fine select list, for \$1.75. Plant as soon as all danger of frost is over.

NEW KOREAN CHRYSANTHEMUMS

Without question one of the greatest creations in the perennial world. The Korean Chrysanthemums are especially fine for cold climates. They are much hardier, more attractive in color and because of their early blooming they are not damaged by the early frosts. They come in lovely pastel shades that are difficult to describe accurately. Excellent for table decoration.

Apollo

A sparkling combination of bronze, red and gold, suffused with glowing salmon. Single flowers 2 inches across.

Each 25c; 10 for \$2.00

Ceres

Lovely combination of old gold, chamois-yellow, and soft coppery bronze. The mature flower petals appear as if dusted with gold. A beautiful bit of color for the fall garden.

Each 25c; 10 for \$2.00

Cole's New Scarlet Rosemallow
See page 35

Lemon Day Lily

HYBRID HEMEROCALLIS

SENSATIONAL NEW CREATIONS

Remarkable additions to the Day Lily family. Choice and of exceptional value.

Price of all varieties, 40c each; 3 for \$1.00.

Bay State. A very free flowering and robust variety bearing glistening deep yellow flowers on 4-ft. stems. Late June.

J. A. Crawford. An exceptional variety bearing apricot-yellow flowers on 4-ft. stems from late June until late July.

Lemona. Large lemon-yellow flowers resembling Japanese Iris are borne on 4½-ft. stems in early July. One of the finest.

Mrs. W. H. Wyman. A very free flowering variety coming in bloom in early August, bearing pale lemon-yellow flowers on 4-ft. stems.

The Gem. A finely formed bloom of rich orange-yellow, borne on 3½-ft. stems in late June. Equal to the best Lilies.

SPECIAL—10 NEW DAY LILIES
(2 each of above)

ONLY \$3.00, POSTPAID

Cole's Approved Perennials

1938 is the
year to stock
your garden
with plants

Anchusa Myosotidiflora

It is difficult to imagine a more beautiful plant with its clusters of charming blue Forget-me-not flowers. 3 for 75c

Anemone, Whirlwind

Our best white; excellent for fall bloom.

Anemone, Queen Charlotte

Pleasing shade of pink; excellent as cut flowers.
Both varieties: 3 for 75c

Bleeding Heart

Rich in associations; worthy of a prominent place on its own merits. Graceful and spreading, loaded with bloom. 45c each; 3 for \$1.20

Aquilegia Hybrids

Long-spurred Columbines are unequalled for their range of colors and sturdiness. 3 for 75c

Aconitum

Lovely autumn-flowered perennial of stately growth; particularly useful for half-shady borders. 3 for 75c

Once Planted They Live Year After Year

Plant this selected group of 12 Winners

Granny Scovill Chrysanthemum

Extra large flowers, beautiful foliage; quite early. Each, 25c

Grenadier Chrysanthemum

A new and very popular type; large and free flowering. Each, 25c

(Single)
Chrysanthemum Daybreak

Beautiful large flowered variety, excellent for cutting. Each, 25c

For best results plant three of each variety

Carnations, Hardy

Their spicy fragrance cannot be equalled. You can obtain these in separate colors. 3 for 60c

Crimson Splendor Chrysanthemum

Very early; exceptionally large flowered and profuse blooming. One of the best of the new types. Each, 25c

Plant Our Hardy Chrysanthemums

The glory of the garden throughout the fall. They are the last flowers to bloom and often withstand light frosts. With their gorgeous blooms of charming colors, they make a brilliant display in the garden long after other flowers are gone.

Delphinium Wrexham Hybrids

Enormous spikes of unsurpassable beauty. Should be in every perennial garden. 3 for \$1.20

Hardy Flowering Perennial Plants

KOREAN CHRYSANTHEMUMS—Con't.

Daphne. Especially frost-resistant single flowers, 3½ inches across, of an exquisite blending of Daphne-pink with an underlying sheen of lilac-rose enhanced with prominent golden stamens in the center. Each 25c; 10 for \$2.00

Diano. Chatenay-rose-pink, mingled with lilac-rose and soft salmon, the tones of which vary with the degree of light. The triple rays of petals give an appearance of fullness that is none the less dainty. Each 25c; 10 for \$2.00

Hebe. Lovely luminous pink which turns to a soft lavender-pink at maturity. A faint silver halo surrounds the golden yellow center to effect a lovely combination of color in the well-formed, large, single blossoms. Hebe is one of the earliest to flower, producing masses of delightfully fragrant blossoms in almost unbelievable quantities. Each 25c; 10 for \$2.00

Innocence. The large single flowers are pure white on opening, changing later to an attractive soft pink. Each 25c; 10 for \$2.00

Mars. Deep amaranth-red, changing to wine-red, overlaid with a velvety sheen. Each 25c; 10 for \$2.00

Mercury. The well-formed single flowers, 3 inches across, open bronze-red and change to coppery bronze as they mature. The graceful sprays of flowers last 2 to 3 weeks after cutting. Each 25c; 10 for \$2.00

Vulcan. A glowing carmine-red on opening, shading later to a garnet-crimson and finally to an attractive bronze-crimson as the flower matures. The flower has a double row of ray-like petals with a conspicuous golden center and is delightfully fragrant; plant of erect habit and extremely free-flowering. Each 25c; 10 for \$2.00

SPECIAL COLLECTION: One each of the 9 Grand New Korean Chrysanthemums described above for \$1.80.

Four Newest Korean 'Mums

Aphrodite. Individual flowers, 3 to 3½ inches across, tinted with ivory and tender pink, form a compact, billowy mound 3 feet across, completely covered with blossoms. Each 35c; 10 for \$3.00

Louisa Schling. Flowers fully 3 inches across, with 3 or 4 rows of petals, fluffy and distinct in appearance, of a glowing salmon-red changing to a lovely soft bronze-salmon as the flower matures. Each 35c; 10 for \$3.00

Saturn. Delightfully fragrant flowers, almost 3 inches across, of a brilliant sparkling orange and bronze, of excellent texture, produced in large, graceful sprays, excellent for cutting. Each 35c; 10 for \$3.00

Venus. Fragrant flowers, with 3 or 4 rows of petals, of a lilac-pink with rose-lavender shading, remarkably free, with slender, wiry branches that carry a multitude of blossoms on generous sprays. Each 35c; 10 for \$3.00

Chrysanthemum maximum

C. Lathion Bell (Shasta Daisy). Gigantic perfectly formed flowers, blooming continuously from June till August. 3 for 75c; 10 for \$2.00

Chrysanthemum leucanthemum

Sometimes called Ox-Eye Daisy, 2-foot stems, during June and July. 3 for 60c; 10 for \$1.50

COREOPSIS

Grandiflora. Bright yellow flowers standing 2½ to 3 feet high. One of our standard perennials. 3 for 60c; 10 for \$1.50

DELPHINIUM - Larkspur

Stately and handsome summer flowering perennials of unsurpassable beauty for border decoration. Requires a rich well-drained soil. Plant in groups of three, six or more.

Belladonna. Produces a profusion of graceful spikes of pale blue which are much prized for cutting. Blooms appear in June and again in September. 3 for 75c; 10 for \$2.00

Bellomoso. Dark blue form of Belladonna. 3 for 75c; 10 for \$2.00

Chinensis. A lovely variety growing about 2 feet high and blooming 2 weeks later than Belladonna. The foliage is very fine, almost fernlike. The flower is an intense gentian-blue. These roots do not grow as large as English Delphinium. 3 for 75c; 10 for \$2.00

ENGLISH HYBRIDS, Hallyhock Type.

Wrexham. Our most popular strain for garden use. Having enormous spikes and large individual flowers. The range of colors varies from the palest blue to the deepest indigo-blue and royal purple with many intermediate tones of pink and mauve. Both single and double flowers appear in this strain. 3 for \$1.20; 10 for \$3.50

BLACKMORE AND LANGDON HYBRIDS. An excellent English strain, flowers enormous on rigid spikes of great height. The colors are delicate shades of blue. Plant liberally as they cannot be surpassed for cut flowers. 3 for \$1.00; 10 for \$2.50

DIANTHUS - Pinks

***Caesius grandiflorus** (Cheddar Pink). Dainty, fragrant rose-colored flowers spring from a cushion of glaucous leaves during May. The stems are from 4 to 6 inches long. Excellent for planting in a rock garden. 3 for 75c; 10 for \$2.00

Barbatus (Sweet William). Old favorites of the garden, bearing sweet clove-scented flowers in great profusion during May and June. Indispensable on the edge of the hardy border and for cutting.

Dark Crimson, Newport Pink, Scarlet, White Beauty. 3 for 60c; 10 for \$1.50

DICENTRA - Bleeding Heart

***Eximia** (Plumy Bleeding Heart). A dwarf variety, with beautiful finely cut foliage producing dainty pink flowers throughout the entire season. It does well in the shade or sun. 3 for \$1.00; 10 for \$2.50

Spectabilis (Showy Bleeding Heart). Another old-fashioned favorite. Its long racemes of graceful heart-shaped flowers are very attractive. For best results, plant in groups of three, six, or more, in the hardy border. 45c each; 3 for \$1.20; 10 for \$3.50

DIGITALIS - Foxglove

Giant Shirley Hybrids. Shell-pink and deep rose, bell-shaped flowers appear on upright rigid spikes. The individual bells are dotted with crimson or chocolate markings. 3 for 75c; 10 for \$2.00

DORONICUM - Leopardbane

Caucasicum. A very showy yellow daisy-like flowering perennial. Blooms early in the spring and combines well with Tulips. A splendid flower for cutting as it keeps well in water. 3 for \$1.00; 10 for \$2.50

ECHINOPS

Ritro. Interesting and showy. Thistle-like plants with glorious heads of deep metallic-blue flowers during July and August, which can be dried and remain attractive for a long time. 2 to 3 feet. 3 for 75c; 10 for \$2.00

EUPHORBIA

***Myrsinites.** A pretty prostrate species, bluish foliage, with yellow flowers. 3 for 75c; 10 for \$2.00

FERNS

Adiantum pedatum (Maidenhair Fern). The most attractive of our native ferns; black stems with delicate green fronds; does well in moist spots. 3 for 75c; 10 for \$2.00

Aspidium spinulosum. An evergreen variety growing 18 to 24 inches high. Requires a rich, well-drained soil. 3 for 75c; 10 for \$2.00

Asplenium filix-foemina (Lady Fern). Grows either in sun or shade. Large and handsome. About 3 feet high. 3 for 75c; 10 for \$2.00

Osmunda cinnomamea (Cinnamon Fern). Fronds are erect but droop at the tips. Cinnamon color spores at end of fronds, 2 to 3 feet high. 3 for 75c; 10 for \$2.00

Osmunda regalis (Royal Fern). Does well in damp, marshy places. Green foliage with golden yellow stems. Makes a very conspicuous variety. 3 for 75c; 10 for \$2.00

FUNKIA - Plantain Lily or Hosta

Lancifolia. Long narrow leaves grow in a tufted form. Blue lily-like flowers produced in spikes during August and September. An excellent plant to edge shady walks or beds. 3 for 75c; 10 for \$2.00

Subcordata grandiflora. Large white lily-shaped flowers produced in August and September. Large heart-shaped leaves of bright green make this an attractive plant all summer. 3 for \$1.00; 10 for \$2.50

Variegata. An unexcelled edging plant. Leaves are narrow and variegated, the flowers blue. 3 for 75c; 10 for \$2.00

GAILLARDIA - Blanket Flower

Portala Hybrids. The gay blossoms of shades of orange-yellow and red, are produced all summer. This plant does well in a hot, dry place, needing no special care. 3 for 60c; 10 for \$1.50

Dazzler. A brilliant maroon-tipped buff. Very showy. 3 for 75c; 10 for \$2.00

Burgundy. A lovely Burgundy-red flower of great beauty. An excellent cut flower. 3 for 75c; 10 for \$2.00

GERANIUM

Sanguineum. Attractive foliage with bright crimson flowers. 3 for 75c; 10 for \$2.00

GEUM - Avens

***Cacclneum, Mrs. Bradshaw.** Large double red flowers blooming continually all summer. Height, 12 to 15 inches. 3 for 75c; 10 for \$2.00

***Lady Stratheden.** Rich, golden yellow blossoms. A wonderful companion plant for Mrs. Bradshaw. 3 for 75c; 10 for \$2.00

***Orange Queen.** Large deep orange flowers, blooming continuously all summer. 3 for \$1.00; 10 for \$2.50

GRASSES

Erianthus ravennae (Plume Grass or Pampas Grass). Growing 10 to 12 feet high, throwing up silvery plumed flower spikes. 3 for \$1.00; 10 for \$2.50

Eulalia japonica. Long, narrow, graceful green foliage. Flower spikes are gray, reaching a height of 6 or 7 feet. 3 for 75c; 10 for \$2.00

Eulalia japonica zebrina (Zebra Grass). The long green blades of grass are marked with broad yellow bands across the leaf. Plumes are silver-gray. 8 to 10 feet. 3 for 75c; 10 for \$2.00

Festuca glauca. A silvery blue, grasslike plant that is very useful as an edging. Can be clipped into any desired shape. 3 for 60c; 10 for \$1.50

Approved Varieties Ready to Transplant and Grow in Your Garden

GYPSOPHILA - Baby's Breath

Bristol Fairy. Large panicles of double white flowers; the individual blossoms being larger than other varieties. Blooms continually all summer if kept picked. Excellent cut flower and used extensively as filler in bouquets.

45c each; 3 for \$1.20; 10 for \$3.50

Paniculata. Single pure white flowers appearing during August and September. Grows 2 to 3 feet high and is as broad as it is tall. Flowers can be dried and colored for winter bouquets.

3 for 75c; 10 for \$2.00

***Repens.** An excellent trailing variety, completely covered with white flowers during August.

3 for 75c; 10 for \$2.00

***Repens roseo.** A pink form of the above.

3 for 75c; 10 for \$2.00

HELIANTHEMUM

***Mutabile—mixed.** Dwarf evergreen shrubby plants, excellent for sunny borders or dry banks. The flowers are pink and from white to yellow.

3 for 75c; 10 for \$2.00

HELENIUM

Bigelovi. Quick growing plants of branching habit, 3 to 4 feet tall, showy clusters of deep yellow flowers with brown center.

3 for 75c; 10 for \$2.00

Riverton Gem. A charming shade of old gold, changing with age to a wallflower-red. 3 to 4 feet. August to September.

3 for 75c; 10 for \$2.00

HELIOPSIS

Scabra incomparabilis. Bright yellow flowers, almost double, 3 feet high, making a very effective display during early fall.

3 for 75c; 10 for \$2.00

Zinniaeflora. A compact bushy plant with double zinnia-like flowers borne freely in July and August. Most useful for cutting. 3 feet.

3 for \$1.00; 10 for \$2.50

HEMEROCALLIS - Day Lilies

Aurantlaca. A very free-flowering variety, producing rich orange-yellow flowers early in the season. Height 2 feet.

3 for 75c; 10 for \$2.00

Flavo (Lemon Lily). Clear yellow flowers, during June. Grows about 2½ feet high. Sweet-scented.

3 for 75c; 10 for \$2.00

Goldini. Deep golden yellow flowers in late June and July. A most effective variety. Very graceful and stately. Decidedly one of the best of the newer varieties.

50c each; 3 for \$1.25; 10 for \$4.00

Kwanso fl. pl. Large rich golden bronze flowers in July and August. The only double lemon-lily to date.

3 for 75c; 10 for \$2.00

Minor. Early flowering, lemon-yellow variety. One of the first to bloom.

3 for 60c; 10 for \$1.50

HEUCHERA - Coralbells

Brizoides. Flowers pale pink produced profusely in May. Strong grower, robust foliage.

3 for 75c; 10 for \$2.00

Sanguinea. Flowers are bright crimson, stems 15 to 18 inches high. It blooms from June until September. Excellent for the rock garden.

3 for 75c; 10 for \$2.00

HIBISCUS - Mallow

A tall growing plant, four to five feet high, with immense hollyhock-like flowers, can be used in a shrub border or as a background for other perennials.

NEW GIANT FLOWERING in separate colors. Red, pink, or white. 3 for 75c; 10 for \$2.00

Scarlet Rosemallow. Tall, strong, upright plants, shrublike in character, bearing a gorgeous array of huge, single deep red flowers, often 6 inches across and as deep. This is one of the most striking and imposing plants that we know of. We have often counted from 50 to 100 blooms on a plant. The foliage, resembling that of the Japanese Maple, along with the stems turns a beautiful red in the fall. Scarlet Rosemallow is one of Cole's very new plants that we heartily recommend. August. 6 feet.

3 for 90c; 10 for \$2.50

HOLLYHOCKS

Double Triumph Mixed. A lovely new type from England. Flowers are beautifully fringed. This mixture contains many unusual shades and is a worthy addition to any garden.

3 for \$1.00; 10 for \$2.50

Double Imperator Mixed. Stately plants with begonia-like flowers. Charming combinations of colors.

3 for \$1.00; 10 for \$2.50

Double in Separate Colors. Red, Bright Rose, Newport Pink, Yellow, and White.

3 for 75c; 10 for \$2.00

Single Mixed.

3 for 75c; 10 for \$2.00

HELLEBORUS - Christmas Rose

Niger. This dwarf growing hardy plant withstands a temperature of many degrees below zero. Its evergreen oalm-like leaves have a leathery substance. During the winter months of January and February large single bell-like flowers appear which last for weeks, regardless of cold and snow. They require a cool, moist, shady position in loamy soil.

Each 60c; 3 for \$1.50; 10 for \$4.50

IBERIS

***Sempervirens** (Evergreen Candytuft). Deep, rich green evergreen foliage that is almost completely hidden in spring by the brilliant white flowers. A remarkable rock garden or edging plant. May, June. 10 inches.

3 for 75c; 10 for \$2.00

LAVANDULA - Lavender

Vera. An old-fashioned, fragrant perennial with lavender-colored flowers on erect 15-inch stems. Appear during July and August.

3 for \$1.00; 10 for \$2.50

LIATRIS - Blazing Star

Pycnostachya (Gay Feather). Showy plants, with tall purple spikes coming from the grassy leaves growing in a tuft near the ground. Blooms July till September. Very attractive.

3 for 75c; 10 for \$2.00

LILIUM

Auratum (Gold-Banded Japan Lily). Undoubtedly one of the finest. Its large, graceful fragrant flowers are composed of 6 petals of a delicate ivory-white color, thickly studied with chocolate-crimson spots and striped through the center a golden yellow. 3 to 5 feet. July to September. Each 35c; 3 for 90c

Auratum platyphyllum. Also called "Macranthum." This is a robust growing form; stem is stouter and attains a greater height; the leaves are much broader; enormous flowers; white, richly spotted yellow. Undoubtedly the choicest of all.

Each 40c; 3 for \$1.05

Philippinense formosanum. Not unlike the Regale Lily in general appearance. The slender stem is covered with the some grassy foliage of the Regale Lily. Flowers are trumpet-like, lovely white with pale emerald-green throat which gives the flower a very delicate appearance. Commences to bloom in early August and continues until frost. Height, 3 to 4 feet.

Each 35c; 3 for 90c

Superbum. The color in this desirable Lily varies from pale yellow to deep crimson, more or less spotted on the inner surface of the petals. Valuable as a late-flowering Lily. Fine established specimens often reach a height of 10 feet and more, bearing from 20 to 30 elegantly reflexed flowers, arranged in large, conelike clusters. Does well in ordinary garden soil. July flowering. Each 25c; 3 for 60c

Tenuifallum, Golden Gleam. A very beautiful, robust, free-flowering hybrid, bearing numerous flowers of pure apricot-yellow. June flowering.

Each 25c; 3 for 60c

Tigrinum flare pleno. A double form of Tiger Lily with very rich coloring. The large shapely flowers are of a dark salmon-orange spotted with glossy black. Very robust in habit. August-September flowering.

Each 25c; 3 for 60c

Umbellatum grandiflorum. Very free flowering and of easy culture. Flowers are light orange-red.

35c each; 3 for 90c

A well-balanced Perennial Planting

LUPINUS - Lupine

Cole's Fragrant Hybrids. Stately blooms of delicate shades of blue, mauve, pink, etc. Spikes 3 to 4 feet high. The fact that these are sweet-scented makes them very outstanding and worth while.

3 for 75c; 10 for \$2.00

Polyphyllus, Blue. Clear blue spikes 3 to 4 feet high, blooming during June.

3 for 75c; 10 for \$2.00

Polyphyllus albus. A lovely white variety.

3 for 75c; 10 for \$2.00

Polyphyllus salmones. Delicate shades of pink and salmon, creating an exquisite picture when six or more are planted in a group.

3 for \$1.00; 10 for \$2.50

Polyphyllus roseus. A beautiful shade of old rose.

3 for 75c; 10 for \$1.50

MONARDA

Didyma, Cambridge Scarlet. Scarlet flowers.

3 for 75c; 10 for \$2.00

Didymo roseo. Very attractive rose-pink flowers, the foliage is delightfully fragrant.

3 for 60c; 10 for \$1.50

MYOSOTIS - Forget-me-not

***Palustris.** Large heads of dainty blue flowers, produced freely and does well in moist spots in the garden. Grows 8 to 12 inches high. Use in bold masses or as edgings for beds and walks.

3 for 75c; 10 for \$2.00

NEPETA - Ground Ivy or Catmint

***Mussini.** The foliage is silvery green and is aromatic. The habit of growth is dwarf and compact, spikes of lavender-blue flowers are produced freely in the spring and intermittently all summer. Excellent to edge beds and walks.

3 for 75c; 10 for \$2.00

Souvenir de Andre Chaudron. A new plant, upright growing. The pale blue flowers are large and useful for cutting. The plant can be grown in the border and has very attractive gray-green foliage.

3 for \$1.00; 10 for \$2.50

OENOTHERA - Evening Primrose

***Missouriensis.** A low species, with ascending branches. Individual flowers often three or more inches across. A profuse bloomer. Good for rock garden or border; in bloom from June until August.

3 for 75c; 10 for \$2.00

Yaungi. A strong growing plant with shiny leaves about 24 inches tall. Flowers are lemon-yellow in heads; blooming from June till September.

3 for 75c; 10 for \$2.00

Cole's Better Perennial Plants

Fragrant and Colorful

Lupines

A wonderful strain of delicate shades that for size and beauty rival Snapdragons. The added novelty of being sweet scented makes these one of the best garden plants we have ever distributed. 3 for 75c

Liatris (Blazing Star)

Gorgeous purple flowers borne on stiff stems from midsummer until late fall. Will thrive in sun or shade. Grow in groups of six or more. 3 for 75c

Gaillardia, Burgundy

An exceptionally fine flower for cutting. Thrives in hot and dry weather. 3 for 75c

Heuchera (Coralbell)

Neat growing and graceful flowers. Effective subjects for the margins of borders, as edgings to walks and flower beds. 3 for 75c

Pyrethrum (Painted Daisy)

Showy flowers produced in all shades, some single and double. Grow them in groups of not less than 3 plants. 3 for 60c

Doronicum

Very showy yellow flower which is indispensable in the border in the early spring. Plant in front of lavender Tulips for a charming effect. 3 for \$1.00

Hardy Garden LILIES

Large Flowers • Easy to Grow

Lilium Tenuifolium

A gem in the rock garden as in the border. Likes a cool, loamy soil and partial shade. June flowering.

Each, 25c

*Lilies •
Favorite
Flower
of the
Poets*

Lilium Rubrum Magnificum (Crimson Lily)

Fragrant flowers with an attractive green stripe at the base and unusual red anthers.

Each, 30c

or Border.**

**Excellent for Cut
Flowers—Fragrant,
Distinctive and
Very Lovely.**

Lilium Regale

Especially hardy and may be grown anywhere. Individual flowers are 6 inches long.

Bulbs 7 to 8 inches in circumference, 25c;
8 to 9 inches in circumference, 35c

Lilium Henryi

One of the best border Lilies, reaches over 8 feet in height when established. Enjoys a partially shaded place, sheltered from high wind. August and September flowering.

Each, 40c

Cole's Hardy Perennial Plants

PAPAVER ORIENTALE (Oriental Poppy)

Oriental Poppies make a gorgeous display in June that cannot be outdone by other perennial plants. Their large cup-shaped heads of brilliant colors cannot be equaled. They are conspicuous whether planted singly or in bold masses. Do well in any ordinary garden soil. They should be transplanted in the early spring or during August and September when dormant.

Oriental (Oriental Poppy). Large cup-shaped blooms of brightest crimson-scarlet, purplish black blotches at base of petals.

3 for 60c; 10 for \$1.50

Oriental, Beauty of Livermore. The finest dark crimson, with black blotch. A profuse bloomer.

3 for \$1.00; 10 for \$2.50

Oriental, Fairy. Pure pale pink blooms of medium size, excellent for the small garden.

3 for \$1.00; 10 for \$2.50

Oriental, Lulu A. Neeley. Brilliant ox-blood-red, supported by strong stems. Our most popular red Poppy.

3 for \$1.00; 10 for \$2.50

Oriental, May Sadler. Salmon-pink flowers with black markings.

3 for \$1.00; 10 for \$2.50

Oriental, Mrs. Perry. Orange-apricot in color. The best pink variety.

3 for 75c; 10 for \$2.00

Oriental, Olympia. Large double variety, rich flame overlaid with glistening salmon.

3 for \$1.00; 10 for \$2.50

Oriental, Perry's White. Satiny white flowers with a crimson blotch at the base of each petal.

3 for \$1.00; 10 for \$2.50

Oriental, Wurttembergia. Brilliant glowing rose-red flowers of great size and substance.

3 for \$1.00; 10 for \$2.50

Nine Gorgeous Oriental Poppies for \$2.00.
One each of these superb varieties.

PACHYSANDRA TERMINALIS

1-yr.-old, 25 for \$2.50; 100 for \$8.00;

2-yr.-old, 25 for \$3.00; 100 for \$10.00

Trailing plants 6 to 8 inches high, forming broad mats of glossy green foliage. Excellent to use as a ground cover. It thrives in the shade where grass refuses to grow.

PARDANTHUS

Chinensis (Blackberry Lily). Showy flowers of orange-red spotted black, followed by seeds that resemble blackberries.

3 for 60c; 10 for \$1.50

PENTSTEMON - Beard Tongue

Barbatus, Pink Beauty. A lovely shell-pink; flowers are tubular on stems 3 feet high. A very graceful plant for the border and outstanding variety to cut. Combines well in bouquets of Delphinium or Baby's Breath.

3 for 75c; 10 for \$2.00

Barbatus Torreyi. Spikes 3 feet long of bright tubular flowers from June to August.

3 for 60c; 10 for \$1.50

PEONIES

The Peony has long been a great favorite among flower lovers. Today the new varieties are far superior in coloring and quality of bloom. Bouquets of the large double flowers are irresistibly charming. For color effect in the landscape they are unsurpassed. Peonies will grow very easily in any location except shade. They ask no special care and are very hardy. We have a large collection of Peonies. Will quote your favorites on request.

8.6 Albert Crousse. Light rose-pink with a creamy tone, richly tinted with flesh-pink in a deep roselike center when fully open; mildly fragrant. Tall; profuse bloomer.

40c each; 3 for \$1.00

9.0 Baroness Schraeder. Pale flesh-white, tinted cream; outer petals frequently shaded with faint pink; fragrant. Tall; free flowering. Late midseason.

60c each; 3 for \$1.50

8.4 Felix Crousse. Large, ball-shaped, brilliant red, with ruby center. Very attractive and desirable. Probably the best red cutting Peony for the market. Late midseason.

40c each; 3 for \$1.00

8.8 Karl Rasenfield. Very bright, rich velvety crimson, outer petals large and waved, central petals incurved and notched; not fragrant. Tall, free-flowering; strong stems; good foliage. Midseason.

50c each; 3 for \$1.25

7.9 Mme. Ducl. Broad, flaring guards and very compact, incurved center of pale old rose, with a lustrous, silvery sheen. Medium height; floriferous; stiff stems. Midseason.

50c each; 3 for \$1.25

9.2 Mans. Jules Elie. Pale lilac-rose, silver reflex. Large, compact, globular; fragrant. Early. Certainly one of the grandest sorts.

50c each; 3 for \$1.25

8.6 Primevere. Outer petals buff; center deep sulphur-yellow; large, full blooms on tall stems. The nearest approach to a yellow in any of our Chinese class. Beautiful and rare. Midseason.

\$1.75 each; 3 for \$4.50

8.7 Reine Hartense. An outstanding variety with profuse blooms of the largest size on tall, strong stems. Rose-pink, with crisp, fluffy petals of translucent texture, notched and silvered at the tips and occasionally flecked with crimson in the center. Good foliage. Midseason.

60c each; 3 for \$1.50

7.2 Rubra Superba. Large, double flowers borne on strong stems. Color bright crimson; fragrant. It does not show its merits until well established. By many considered the most beautiful late red Peony grown.

35c each; 3 for 90c

9.8 Therese. Enormous, long petals of pale, translucent old rose-pink, paling toward the base and illuminated by a golden yellow glow in the depths. Medium height; strong stems; beautiful heavy foliage. Always a mass of indescribable beauty. We consider this the most gorgeous Peony in existence. Note the rating.

75c each; 3 for \$2.00

PHLOX

Beautiful hardy border plants. Their large trusses of brightly colored flowers bloom in the late summer and early fall when the average garden is without color. We list here only the newer outstanding varieties, which have good clear colors and freedom of bloom.

Africa. Brilliant carmine-red with blood-red eye. Large flower heads supported on strong stems.

3 for 75c; 10 for \$2.00

Baran van Heckeren. Delicate salmon-pink, fine habit of growth and large heads.

3 for 75c; 10 for \$2.00

B. Camte. Tall growing variety with large flowers; satiny amaranth. Excellent.

3 for 60c; 10 for \$1.50

Beacan. Brilliant cherry-red. Grows 3 feet high. Large heads on strong stems.

3 for 60c; 10 for \$1.50

Barder Queen. A dwarf watermelon-pink. Flower heads large and round. Individual florets are large. Excellent for the front of border.

3 for 75c; 10 for \$2.00

Bridesmaid. Pure white flowers with a pink eye. A striking variety.

3 for 60c; 10 for \$1.50

Columbia. (Plant Patent No. 118). A new Phlox. The color is a saff cameo-pink with a light blue eye. Plant is very bushy, foliated to the ground and is entirely disease-free. Columbia blooms freely in the hottest, driest weather. 50c each; 10 for \$1.25

Daily Sketch. Extra large trusses of light salmon-pink with a crimson-rose eye. It is perfectly hardy, rugged in growth and is one of our most outstanding varieties.

3 for \$1.00; 10 for \$3.00

Dr. Chas. Mayo. Pure white flowers with a vermilion-red eye. The colors do not fuse or fade. One of the best of its kind.

3 for 75c; 10 for \$2.00

Eclairer. Brilliant rosy magenta with a white eye.

3 for 75c; 10 for \$2.00

E. I. Farrington. Dark salmon-pink with a slightly darker eye. One of the newer varieties which is becoming more and more popular.

3 for 75c; 10 for \$2.00

Enchantress. Bright salmon-pink, strong growth with rich green, glossy foliage.

3 for 75c; 10 for \$2.00

Europa. White with a pale blush toward the center which has a red eye. This variety has more of a pinkish cast than Dr. Chas. Mayo.

3 for 60c; 10 for \$1.50

Fiancee. Enormous and much branched trusses of purest white flowers. Foliage dark green. A splendid variety.

3 for 75c; 10 for \$2.00

Feurbrand (Fireglow). Brilliant orange-scarlet, almost vermilion. Flowers freely throughout the entire season.

3 for 75c; 10 for \$2.00

Jules Sandeau. Dwarf in habit, but producing large heads of watermelon-pink blossoms. Because of its long flowering quality, it is especially useful as an edging or near the front of the border.

3 for 75c; 10 for \$2.00

Lea Schlageter. Brilliant scarlet blooms with a faint orange cast, of splendid habit, growing 3 feet high, with excellent large rich heads. The finest red phlox in existence today.

3 for \$1.00; 10 for \$3.00

Miss Lingard. This variety has long, shiny green foliage and is absolutely free from disease. It blooms from June until October with large heads of white flowers. The best early white Phlox known.

3 for 75c; 10 for \$2.00

Mrs. Jenkins. Pure white, late flowering, of medium height. A splendid sort.

3 for 60c; 10 for \$1.50

Mrs. Milly van Hobaken. Very large heads with large individual florets. Color bright pink with a slight mauve suffusion. Strong grower.

3 for 75c; 10 for \$2.00

Mrs. W. Van Beuningen. Large, rich salmon flowers, a bright effective color without an eye. Medium height. Robust growth.

3 for 75c; 10 for \$2.00

Painted Lady. Tall growing with large heads of silvery pink flowers with a distinct cherry-red eye.

3 for 75c; 10 for \$2.00

Hardy Phlox

Selected Plants That Thrive Anywhere

- *Glaucum.** A bright little blue-foliaged plant useful in rock garden. 3 for 60c; 10 for \$1.50
- *Kamtschaticum** (Orange Stonecrop). Bright orange flowers on prostrate branches. Fine rock garden plant. 6 inches. 3 for 60c; 10 for \$1.50
- *Komschoticum variegatum.** One of the best. Its golden yellow variegated foliage blends well with its orange-yellow flowers. 3 for 60c; 10 for \$1.50
- *Sieboldi.** Round succulent glaucous foliage, bright pink flowers in September. 3 for 60c; 10 for \$1.50
- *Spectabile.** Large showy rose-colored flowers supported by 15-inch stems in early fall. 3 for 60c; 10 for \$1.50
- *Spectabile, Brilliant.** Similar to above but with flowers having a richer color. 3 for 60c; 10 for \$1.50
- *Stoloniferum coccineum.** A fast-spreading variety with crimson flowers. Excellent for quickly covering banks or bare spots. July, August. 6 inches. 3 for 60c; 10 for \$1.50

STATICE - Sea Lavender

- Latifolia.** The leaves are dark green and leathery. The flower stalk is twiggy, about 18 inches high, bearing small lavender flowers in July and August. The flower heads are frequently 2 feet across. A nice specimen for the rock garden or to be used in the border. When dried the blooms make elegant winter bouquets. 3 for 75c; 10 for \$2.00

STOKESIA - Cornflower Aster; Stokes' Aster

- Cyanea coerulea.** A lovely perennial, the light blue China aster-like flowers appearing in August and September, supported on 18-inch stems. A wonderful plant for the front of the border. 3 for 75c; 10 for \$2.00

THALICTRUM - Meadow Rue

- Adontifolium.** Miniature white flowers during June. The plant reaches a height of 2 feet, the foliage is elegant, leaves resembling the Maidenhair fern, remaining neat the entire summer. 3 for \$1.00; 10 for \$2.50

THYMUS

- *Azaricus.** 10 in. A very attractive little ground cover, studded in the summer with rosy purple flowers. Especially for sunny slopes or rockeries. 3 for 75c; 10 for \$2.00

Yucca—Adam's Needle

TRITOMA - Redhot Poker

- Pfitzeri.** Rich orange-scarlet spikes on naked stems, 3 to 4 feet high. The leaves have a long, grassy appearance and the flowers are unexcelled for cutting. There are as many as 5 to 8 spikes on a single plant. Give a little winter protection in cold climates. 3 for \$1.00; 10 for \$2.50

TROLLIUS - Globeflower

- Asiaticus, Salamander.** A splendid new variety producing a wealth of rich yellow blossoms. They like plenty of moisture so put them in a cool, shady spot. 50c each; 3 for \$1.40; 10 for \$3.50
- Europaeus, Gold Quelle.** A deep yellow flower with golden stamens, giving an abundance of bloom in the early summer. 2 to 3 feet high. 50c each; 3 for \$1.40; 10 for \$3.50
- Europaeus, Choice Mixed.** Colors range from pale yellow to deep orange. Height 2 feet. Wonderful cut flowers. 3 for \$1.00; 10 for \$2.50

VERONICA - Speedwell

- *Incona.** Numerous dark blue flowers appear on spikes 1 foot high, the leaves are woolly and gray. Fine in the rockery or for edging paths and beds. 3 for 75c; 10 for \$2.00
- Langifolia subsessilis.** One of the handsomest blue flowering plants. Perfectly hardy and increase in size and beauty each year. Spikes 2 feet high with rich blue flowers. 3 for \$1.00; 10 for \$2.50
- Spicata.** Long spikes of violet-blue flowers blooming all summer. An excellent variety for the border. 3 for 75c; 10 for \$2.00

VIOLA

- Admiration.** Deep violet-blue flowers produced in great profusion all summer. 3 for 50c; 10 for \$1.25
- Blue Perfection.** Light blue flowers freely produced. Combine with yellow for a pleasing effect. 3 for 50c; 10 for \$1.25
- G. Wermig.** A charming variety of tufted pansy, covered with rich violet-blue flowers all summer. 3 for 60c; 10 for \$1.75
- Golden Yellow.** Golden yellow flowers produced all summer. 3 for 60c; 10 for \$1.75
- Jersey Gem.** Vigorous bushy growth and roundish foliage, pure rich violet color, slightly fragrant. One of the best bedding varieties. 3 for 75c; 10 for \$2.00
- White Perfection.** Pure white blooms produced freely all summer. 3 for 50c; 10 for \$1.25

YUCCA

- Filamentosus** (Adam's Needle). Tall, white flowers with sword-like foliage, excellent as accents in border. Perfectly hardy. 3 for 75c; 10 for \$2.00
- Filamentosa variegata.** Similar to the above, except it has green and white foliage. 3 for 75c; 10 for \$2.00

New

6 New Masterpieces For Your Garden

Daily Sketch Phlox

Outstanding variety introduced 2 years ago and is considered one of the best of the newer Phlox.
3 for \$1.00; 10 for \$3.00

Phlox, Leo Schlageter

The brilliant blossoms seem to glow with fire. Of splendid habit, about 3 feet high with full rich heads of bloom.
3 for \$1.00; 10 for \$3.00

For Best Results Plant at Least Three of Each Variety

Phlox, Widar

The most attractive of the lavender shades. A true lavender-blue without any magenta cast.
3 for 60c; 10 for \$1.50

Phlox, Enchantress

Flower heads are carried on straight, strong stems. Foliage rich green and glassy.
3 for 75c; 10 for \$2.00

Phlox, Von Lassburg

A splendid tall white variety. Trusses large, very free flowering.
3 for 60c; 10 for \$1.50

POPPIES *the Showiest Flowers that Bloom*

Scabiosa

Large showy blue flowers borne on long stems. Of easy culture. Start to bloom in June. 3 for 75c

Trollius - Gloeflower

Giant orange-yellow buttercup blossoms on stems 1 to 2 feet high, produced in abundance. 3 for \$1.00

Stokesia

(Stokes' Aster)

Handsome, Chino oster-like flowers. Should be grown in all gardens since they are beautiful in form and color. 3 for 75c

Oriental Poppies

For a gorgeous display of rich and brilliant coloring, nothing equals the Oriental Poppy during their period of flowering in May and June.

Fairy. Pale pink.

Wurtembergia. Brilliant rose-red.

Lulu A. Neeley. Oxblood-red.

3 for \$1.00 or 1 each for \$1.00

Cole's Selected Fruit Trees

A Blessing in Every Garden

Apples for highly profitable orchards for the back lot planting

Splendid for Country Roads and Lawns

Astrachan. Best of all early Apples. Fruit a beautiful deep red; flesh tender, crisp and juicy; quite acid. July and August.

Baldwin. Fruit large, darker red. Flesh crisp and juicy, flavor mild and sub-acid. A leading commercial variety.

***Cortland.** Comes into bearing rather young. Fruit is a good size, yellowish white splashed with red; sometimes it is a solid red. The flesh is crispy white and juicy; quality excellent.

Delicious, Solid Dark Red. A new and improved variety. This is, without question, the best eating Apple. The color is excellent, the flesh is tender and juicy, and almost sweet. Quality very high.

***Duchess** (Oldenburg). Very early bearer; hardy and productive. Fruit large, yellow, striped bright red; flesh yellow, sub-acid. Good cooking apple. August.

Fall Pippin. Fruit large, golden yellow; flesh yellow, juicy and agreeably sub-acid. September to December.

Fameuse. Fine table Apple. Flesh snowy white, pleasing color. October to December.

Grimes Golden. A wonderful bearer. Fruit of good quality. Flesh deep golden yellow, sub-acid. November to January.

Harvest. The earliest summer Apple. Fruit yellow with white flesh; flavor sub-acid, mellowing to mild. July.

Hyslop Crab. Fruit medium size, red, with yellow flesh.

Jonathan. Bears when very young. Brilliant red fruit of medium size; flesh yellow, sub-acid. November to January.

King. Fruit large, beautiful red on yellow background with richly flavored, aromatic, yellow flesh. November to January.

Maiden Blush. Fruit handsome lemon-yellow with crimson cheek, juicy, sub-acid, white flesh. September to November.

McIntosh. Fruit beautiful dark red; flesh white, juicy, sub-acid. Fine. October to December.

***Melba.** New. A Canadian origination of McIntosh parentage and of unusual merit. Ripens early in August. Fruit medium size, attractively colored bright pinkish red, of very high quality. Probably not a good shipper but unexcelled for home use and the roadside market. Add 15c each.

Northern Spy. Fruit pale yellow, mottled with red. Flesh yellow, juicy, sub-acid, of finest quality. November, December.

Northwestern Greening. Very hardy; vigorous grower. Fruit is an attractive yellow color, firm with crisp flesh; excellent cooking variety.

Rhode Island Greening. Fruit large, green, with dull red blush; flesh richly flavored, very juicy. December to February.

Red Rome Beauty (Gollia Beauty). This is the best of the several Rome strains. Growers report that this variety is for superior to the older kinds. Fruit is beautiful, large and red; quality excellent.

Red Spy. An outstanding red Apple. The size is larger than the overage Northern Spy. The color is bright red and it ripens a little earlier than the older sort. An excellent shipper and keeper.

Rome Beauty. Bears abundant crops of beautiful, large, yellow striped fruit of medium quality. December, January.

***Stayman.** A leading commercial variety with yellow fruit shaded dull red; flesh yellow, sub-acid, of very good quality. December to February.

Sweet Bough. Very large, pale yellow, with flesh of white and of honeyed sweetness. August.

Talman Sweet. Fruit pale yellow usually marked with a green stripe. The flesh is fine grained, juicy and sweet. One of the best sweet Apples for keeping qualities.

Turley Winesap. A large dark red Apple of very attractive appearance. An excellent sort for cooking, a delicious eating Apple and is a late keeper. A good many growers consider it a better variety than Stayman.

Wealthy. An early and abundant bearer. Fruit yellow, striped red; flesh white, tender, juicy, sub-acid. Quality fine. September to November.

***Yellow Delicious.** Like Delicious but with yellow skin.

Yellow Transparent. Tree hardy, productive, with medium-sized, pale yellow fruit; flesh white, juicy, sub-acid. July, August.

Practical Garden Fruits - Every One a Household Favorite

CHERRIES

SOUR

Early Richmond. A profuse bearer. Slightly acid fruit. Indispensable for home or commercial use. Early.

Montmorency. The most popular sour Cherry. Large; flesh very juicy and pleasantly tart, of good quality. Late.

	Each	5	25
4 to 5 ft., 11/16 in. cal. and up	\$1.00	\$4.50	\$20.00
3½ to 4 ft., 9/16 to 11/16 in. cal.	.90	4.00	17.50
2½ to 3½ ft., 7/16 to 9/16 in. cal.	.80	3.50	15.00
Bearing age, 5 to 7 ft., 1 in. cal. and up	2.00	8.75	37.50

SWEET

Bing. A favorite in the Pacific Northwest where the very dark red fruit is said to be unequalled in size and quality; stone semi-cling. Mid-season.

Black Tartarian. Our most popular sweet cherry. The brownish black fruit is of medium size, with rich, juicy, dark red flesh. One of the best. Freestone. Early.

Governor Waad. Yellowish white, tinged crimson, with juicy, mild, sweet, white flesh. Clingstone. Midseason.

Napoleon (Queen Anne). Its bright red fruit, white flesh, handsome appearance, and high quality make this cherry especially desirable for home use. Midseason.

Schmidt's. Large black fruit with purplish red flesh, juicy and sweet. Midseason.

Yellow Spanish. Its bright amber-yellow fruit and high quality make it one of the most desirable of the sweet cherries. Midseason.

	Each	5	25
5 to 7 ft., 11/16 in. cal. and up	\$1.10	\$5.00	\$22.50
4 to 5 ft., 9/16 to 11/16 in. cal.	1.00	4.50	20.00

PLUMS

Abundance. A large yellow Japanese sort with juicy, sweet flesh. Clingstone. September.

***Bradshaw.** A large reddish purple variety with sweet, juicy, yellow flesh. Stone semi-free. September.

Burbank. Very hardy and prolific Japanese variety bearing large yellow fruit, blushed red; flesh sweet and aromatic. Clingstone. September.

***Fellenberg** (Italian Prune). Highly colored; flesh firm, juicy, sub-acid. Fine quality. Freestone. September.

***German Prune.** An old variety with deep purple fruit and sweet yellowish green flesh. Freestone. Late September.

Lambard. A very productive variety, bearing clusters of purplish red, slightly acid fruits.

Manarch. A productive variety, purplish red with rich, aromatic, golden yellow flesh. Clingstone. October.

Shropshire Damson. Purplish black; yellow flesh, juicy, firm, and agreeably tart. Clingstone. September.

***Yellow Egg.** A large, handsome, yellow plum with sweet golden yellow flesh. Freestone. September.

	Each	5	25
5 to 6 ft., 11/16 in. cal. and up	\$1.00	\$4.50	\$20.00
4 to 5 ft., 9/16 to 11/16 in. cal.	.85	3.75	16.25
3 to 4 ft., 7/16 to 9/16 in. cal.	.70	3.00	12.50

Varieties marked (*) can be supplied in Bearing-Age, 6 to 8 ft., \$2.50 each; 5 for \$10.00.

Montmorency Cherries

Bradshaw Plum

Anjou Pears

PEARS

Anjou. Fruit large, greenish yellow, with white, sweet, juicy flesh. October to December.

***Bartlett.** Most popular pear in existence. Fruit large, clear yellow, with fine-grained, juicy flesh of good quality. September. The dwarf type can be supplied in fine large bearing-age trees.

Bosc. Fruit dark rich yellow, overspread with russet. Quality best. October, November.

***Cayuga.** A wonderful large new pear highly recommended by Government Experiment Stations. Flesh firm, fine texture, Seckel flavor. 10c each extra.

***Clapp's Favorite.** Fruit resembles Bartlett but ripens about 10 days earlier.

***Duchess.** Fruit enormous, greenish yellow; flesh coarse but rich and good. October.

Flemish Beauty. Fruit large, yellow, overspread with russet-red; flesh aromatic and sweet. September.

***Garham.** One of the most vigorous and productive pears grown. Of fine flavor and spicy aroma. Ripens 2 weeks earlier and keeps a month longer than Bartlett. 10c each extra.

Wilder. Fruit yellow with flaming cheek; sweet and rich. August.

***Warden-Seckel.** Fruit medium size, yellow with blush cheek. Fine quality. October, November.

Standard—all varieties:

	Each	5	25
5 to 6 ft., 11/16 in. cal. and up	\$1.00	\$4.50	\$20.00
4 to 5 ft., 9/16 to 11/16 in. cal.	.85	3.75	16.25

Red Delicious

"The finest apple in all the world" quotes Luther Burbank. Great big gleaming red beauty and so good to eat. One of our leading varieties. Each, 80c

Lack of space prevents us from listing all the varieties of evergreens we grow and sell. If you don't find what you want in the book, write us.

Northern Ohio
grown trees and
shrubs mean hardi-
ness.

Latham Raspberry

America's Best Red Raspberry. Fruit very large, firm and holds its size. Very productive and extremely hardy. Immune to mosaic. Every home gardener and commercial grower should have this mammoth size Red Raspberry. \$3.50 per 100

Black Tartarian Cherry

A really handsome variety with rich juicy fruit. A very profitable market cherry; excellent for table use and canning—the best dark Sweet Cherry. Ripens early in June. Each, \$1.10

Home grown fruit, like home cooking, is the best.

Peaches The Universal Fruit

- Belle of Georgia.** Creamy white with crimson cheek; good quality. Freestone. Midseason.
- Big Red.** A medium-sized, highly colored, yellow, freestone Peach, ripening a few days earlier than Elberta.
- Buttercup.** One of the best very early yellow Peaches. Small to medium in size and semi-cling. Ripens in early August.
- Carmen.** Brilliant red skin on creamy white background; juicy, sweet, white flesh. Stone nearly free. Middle of August.

CANDOKA - The Fuzzless Peach

(Plant Patent No. 51). A new variety originated in Oregon. Samples sent us are 4 inches in diameter. The skin is very highly colored, deep red and yellow without fuzz. Flesh is yellow, sweet-flavored, fine textured, juicy, and of high quality. We are licensed to grow and sell CANDOKA and recommend it as being the finest introduction in years. We have a special CANDOKA folder which we will send on request.

	Each	10	25	50
3 1/2 to 5 ft.	\$1.00	\$8.00	\$16.25	\$27.50
3 to 4 ft.90	7.50	15.00	25.00

- Chompian.** White, splashed carmine; juicy, sweet, white flesh. Middle of August.
- Crowford's Early.** Fruit very large, golden yellow, blushed red; flesh deep yellow, juicy, highly flavored, late August.
- Crowford's Late.** Beautiful yellow and red fruit; flesh yellow; best quality. Freestone. First of September.
- Cumberland.** A large, oval, white freestone peach destined to replace Carmen. Ripens latter part of August.
- Early Elberta.** Better quality than Elberta. First of September.
- Eclipse.** Attractive yellow freestone peach. Good quality yellow flesh. Ripens latter part of August.
- Elberta.** Fruit large, orange-yellow, overspread red; juicy, yellow, firm flesh. Freestone. Middle of September.
- Golden Jubilee.** Considered the earliest real good, yellow freestone peach. Skin yellow, blushed red; flesh yellow and sweet. Ripens latter part of August.
- Hale-Haven.** A great new "market" peach, ripening about 2 weeks before Elberta. Large yellow freestone, highly colored. Combines best qualities of J. H. Hale and South Haven. Stands packing and shipping well.
- Hordee.** Plant Patent No. 120. A delicious high-quality yellow freestone peach with outstanding "bud" and "wood" hardiness. Blooms late. Escapes damaging frosts. Ripens with and a little later than Elberta. Fruit resembles Elberta, but longer, flatter and more pointed. Very hardy. Try Hordee.
- | | Each | 10 | 30 | 100 |
|---------------------|--------|---------|---------|---------|
| 3 1/2 to 5 ft. | \$1.25 | \$11.00 | \$25.50 | \$76.00 |
| 3 to 4 ft. | 1.00 | 9.00 | 19.50 | 65.00 |
- Heidelberg.** Highly flavored yellow freestone. Excellent for home use. Midseason.
- Hope Farm.** A medium-sized white variety of good quality, ripening shortly after Elberta. Blooms very late, thus escaping the late frosts.
- J. H. Hale.** Fruit very large, golden yellow with crimson blush. Freestone. Middle of September.
- Lemon Cling.** Lemon-yellow with red cheek. Last of September.
- Lemon Free.** Very hardy and of fine quality. One of the best yellow canning peaches. Last of September.
- Morigold.** Very early semi-cling peach of good quality. Ripens in early August.
- Mikada.** One of the earliest, really worth-while yellow peaches. The fruit is large, semi-cling, with yellow and red skin and flesh. Should be planted with other varieties. Ripens in early August.
- Oriole.** Fruit medium to large, yellow; 3 weeks earlier than Elberta. Notable as an early peach of high quality. Freestone.
- Rodiance.** A good-sized white peach of fine quality. Tree is very hardy. Ripens in late August.
- Rochester.** Fruit orange-yellow, stained deep red; flesh yellow, juicy and highly flavored. Freestone. Very productive. Late August.
- Salberta.** Fruit yellow with red cheek; flesh yellow and of very good quality. Freestone. Late September.
- South Haven.** A large, early, yellow peach of very good quality. Freestone. Late August.
- Voliant.** Canadian origination of great promise. Fruit very large and of fine quality. Very productive. Ripens in early September.
- Veteron.** Large yellow flesh, freestone, superior to Elberta in quality; ripens about September 1st.
- Vedette.** A Canadian introduction of great merit. Hardy, large, yellow flesh, freestone.
- Wilmo.** Introduced by The Cole Nursery Co. A true Elberta in all senses except that it ripens about a week later. A truly great market variety.
- Prices, all Peaches except as otherwise noted:**
- | | Each | 5 | 25 |
|---|--------|--------|--------|
| 3 1/2 to 5 ft., 9/16 to 3/4 in. cal. | \$0.50 | \$2.00 | \$8.75 |

| 2 to 3 ft. whips | | 1.00 | 4.00 |

APRICOTS

- Early Golden.** Yellow, good quality.
- Moorpark Apricot.** The finest and largest variety. A splendid home sort. Fruit is handsome in appearance, firm, parting freely from the stone. Quite juicy with a rich luscious flavor. Midseason.

	Each	5	25
3 1/2 to 4 1/2 ft., 9/16 to 1 1/16 in. cal.	\$0.65	\$2.75	\$11.25
3 to 4 ft., 7/16 to 9/16 in. cal.55	2.25	8.75
2 to 3 ft., 5/16 to 7/16 in. cal.45	1.75	7.00

NECTARINES

- Goldmine.** New. Probably the best Nectarine for northeastern United States. White flesh, soft and sweet. Very productive. Midseason.
- Red Roman Nectarine.** Fruit is greenish yellow checked with red; exceptionally large. Flesh is golden; delicious flavor.

	Each	5	25
3 1/2 to 5 ft., 9/16 to 3/4 in. cal.	\$0.65	\$2.75	\$11.25
3 to 4 ft., 7/16 to 9/16 in. cal.55	2.25	8.75
2 to 3 ft., 5/16 to 7/16 in. cal.45	1.75	7.00

Peach, Hale-Haven

New, large, exceptionally prolific. Golden yellow with a red flush. Freestone. Flesh yellow, juicy and delicious. Ripens about 2 weeks earlier than Elberta. Extremely hardy. Each, 50c

Plant Cole's Quality Trees for Best Results. Most Varieties Bear Fruit in Two or Three Years

2-year, No. 215	1.20 4.50 18.75	

Worden. Similar to Concord but of better quality. Fruit must be marketed as soon as ripe. Early.

Each	10	50	250
2-year, No. 1\$0.20	\$1.60 \$6.00 \$25.00	
2-year, No. 215	1.20 4.50 18.75	

The 2-year, No. 2 vines are equal to, or better than, 1-year, No. 1 vines.

RASPBERRIES

Cole's healthy, vigorous Raspberry plants will save you money in the long run.

NOTE: Black and Purple Raspberries are available for spring delivery only.

Chief. (Red). New. In heavy demand. Especially profitable to grow because of its earliness; of known hardiness; a heavy cropper; excellent quality.

10 for 60c; 100, \$3.50; 1000, \$24.00

Columbian. (Purple). A very large and productive purple berry of good quality. Midseason.

10 for 75c; 100, \$4.00; 1000, \$28.00

Cumberland. (Black). Registered. A glossy black variety, firm, sweet, and of good size. Midseason.

10 for 60c; 100, \$3.50; 1000, \$22.50

Cuthbert. (Red). An old favorite dark red variety of good quality, size, and flavor. Late.

10 for 60c; 100, \$3.50; 1000, \$24.00

Latham. (Red). New. Tremendously popular and probably the most profitable of all Raspberries. A productive, large, mosaic-free, red Raspberry of proved quality and hardiness. Midseason.

10 for 60c; 100, \$3.50; 1000, \$24.00

Madison No. 1. (Black). A hardy, disease-resisting black variety of large size and fine quality. Best producer. Midseason.

10 for 75c; 100, \$4.00; 1000, \$28.00

Newburgh. (Red). New. Newburgh bears larger berries than the famed Latham with quality about the same. It is generally even more productive than Latham. Very mosaic-resistant. A real recommendation for a berry that will satisfy in the home garden and make real profits for the farm.

10 for 75c; 100, \$4.00; 1000, \$28.00

New Lagan. (Black). A popular disease-resisting black of good quality. Midseason.

10 for 60c; 100, \$3.50; 1000, \$24.00

Plum Farmer. (Black). Registered. Hardy, firm, rich and very popular. Early.

10 for 60c; 100, \$3.50; 1000, \$24.00

St. Regis. (Red). An everbearing red variety of fair quality.

10 for 60c; 100, \$3.50; 1000, \$24.00

TAYLOR. A marvelous new Red Raspberry.

Unusually vigorous, hardy, productive and tall-growing, with sturdy canes that hold the berries well off the ground. Berries ripen shortly before Latham, are large, long, bright attractive red, thick-fleshed, firm, and of excellent quality. We recommend Taylor.

10 for \$1.00; 100, \$7.50; 1000, \$65.00

STRAWBERRIES

For spring delivery only.

(Per.), perfect. (Imp.), Imperfect—requires a Perfect sort planted with it as a fertilizer.

All Strawberries, except where noted:

25 for 45c; 100, \$1.25; 500, \$4.00

Dunlap. (Per.). Very vigorous and productive variety, pleasant flavor, good quality. Midseason.

Dorsett. (Per.). New. An early, medium-red variety. Dorsett is a valuable market berry as it is firm, productive, and of very high quality. It is predicted that Dorsett will replace Premier as the chief early Strawberry.

The Gem. A new everbearing variety that tops all others. Large, delicious flavored berries start to ripen after other varieties have finished fruiting and keep producing until snow flies. The berries themselves are well rounded, deep red in color, sweet and juicy.

25 for 85c; 100, \$2.00; 500, \$6.50

Fairfax. (Per.). New. An early, glossy dark red variety. Fairfax is very productive. The berries are large and firm. The best tasting Strawberry yet produced.

Premier. (Per.). Most popular berry. An especially valuable early variety with glossy red berries of high quality and good size.

Sample. (Imp.). A profitable market sort with dark red, sub-acid fruit. Medium to late.

William Belt. A large, dark red variety of mild sub-acid flavor and good quality. Midseason.

MASTODON. (Per.). Everbearing. In great demand. A prolific variety with glossy red, juicy, well-flavored berries of large size.

25 for 85c; 100, \$2.00; 500, \$6.50

ASPARAGUS

Washington Rust-proof. Large stalks and a heavy yield.

	10	100	1000
2-year roots\$0.25	\$1.90	\$12.00
1-year roots25	1.75	10.00

RHUBARB

Linnaeus. Medium-sized, wine-colored; tender and fine. Strong roots.

10 for 90c; 100, \$6.00; 1000, \$45.00

EXEMPTIONS FROM OHIO SALES TAX

Nursery stock is EXEMPT from tax when used directly in the production of tangible personal property for sale in farming, horticulture or floriculture, such as the production of fruits, flowers, etc., for sale.

U. S. Plant Patent Restrictions

All Patent Plants listed in this catalog are protected under the U. S. Patent Laws, and all asexual reproduction is prohibited unless license is previously obtained from the patent owners. Unauthorized reproduction or sale will subject one to prosecution for infringement. This applies to any patented plants we sell.

GERMAN PEAT MOSS

(Humus). Extremely beneficial for retaining moisture in dry soils and for loosening heavy soils that tend to bake; promotes healthy, rapid, fibrous root-action in nearly all flowers, plants, and trees. Especially necessary for Rhododendrons and Azaleas. Medium acid. Bale (the largest obtainable), about 20 bushels when broken up, weight about 180 pounds, \$3.95; Large sacks, \$1.00 each.

VIGORO

The Complete Plant Food. A fine, balanced fertilizer; clean, odorless and easy to apply. Directions for use with every package. 100-lb. bag, \$4.00; 50-lb. bag, \$2.50; 25-lb. bag, \$1.50.

PURE GRASS SEED MIXTURES

Cole takes pride in offering the following mixtures of Grass Seed. Each is especially prepared to serve a specific purpose. Blended from choicest domestic and imported seeds. Cheap grass seed never pays. Buy the best.

Cole's Superb Open Place Grass Seed

A good general purpose mixture of exceptionally high quality. Permanent grasses predominate over temporary grasses fair to one. This formula was made up by one of the leading landscape architects in this country who has used it with a high degree of success.

PURITY

66.50%	Kentucky Blue Grass
24.50%	Redtop
5.00%	White Dutch Clover
96.00%	Total Purity
3.80%	Inert Matter
0.20%	Weeds
100.00%	

Prepaid: 1 lb., 50c; 5 lbs., \$2.30; 10 lbs., \$4.25.

Cole's Superb Shady Lawn Grass Seed

Always a problem of getting grass to grow in a shady place. Here we have made an assortment of grasses that will grow vigorously with little sunlight. The Cole's Shady Lawn Mixture is made up of the following grasses and will be sure to please.

PURITY

28.75%	Poa Trivialis
28.25%	Kentucky Blue Grass
19.60%	Chewing's Fescue
19.10%	Fancy Redtop
95.70%	Total Purity
4.10%	Inert Matter
0.20%	Weeds
100.00%	

Prepaid: 1 lb., 65c; 5 lbs., \$3.10; 10 lbs., \$5.90.

Cole's Creeping Bent Stolons

It is very easy to have a quick superlative lawn by planting Cole's Bent Stolons dug and shipped fresh from our nursery.

Price: Stolons sufficient to supply the area you desire to plant at rate of \$15.00 per 1000 square feet.

Cultural information gladly sent on request.

The COLE NURSERY CO., PAINESVILLE, OHIO

BERRIED SHRUBS

— attractive to birds

RUSSIAN OLIVE

Olive-like fruits enhanced by silvery gray leaves. Does well in hot and dry locations. See page 7.

ARONIA BRILLIANTISSIMA

Large brilliant red berries appear in fall of year making a most excellent display. See page 3.

CORAL DOGWOOD

An abundance of white berries supported by coral-red branches. See page 6.

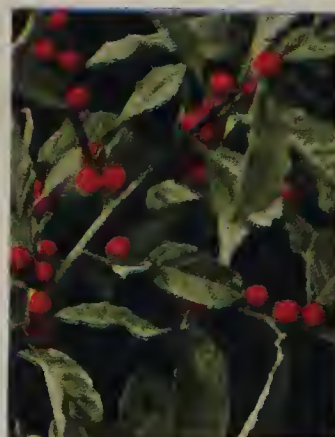

BITTERSWEET SHRUB (Euonymus)

Showy orange berries appear in profusion on tall growing shrub. See page 15.

VIBURNUM CASSINOIDES

Beautiful clusters of dark blue fruit against satiny green foliage make this shrub most desirable. See page 12.

WINTERBERRY HOLLY

Bright red berries follow white blooms produced in June. Grows well in moist places. See page 7.

SNOWBERRY

Waxy white berries preceded by pink flowers in spring. See page 12.

EUROPEAN CRANBERRY BUSH

Massive clusters of flaming scarlet berries that hang most all winter. White flowers in May and June. Ultimate height 8 feet. See page 12.

Berried Shrub Collection

Aronia brilliantissima, 2 to 3 ft.	\$0.60
